Additional Information In lieu of an abstract, here is a brief excerpt of the content: University of Iowa Press, , p. I have used this family history extensively in writing this chapter. I have been unable to locate any substantial published works on the history of the Scotch Irish in Ulster in the nineteenth century or on the immigrant experience of this group beyond the colonial era or the early national period. An Ethnic History New York: Free Press, is a good example, because Archdeacon devotes about three pages to the Scotch Irish and then deals mostly with the s and s rather than the later period see pp. Carlson Publishing, , pp. Holt, Rinehart and Winston , , pp. According to Herbert S. Schell, History of South Dakota Lincoln: University of Nebraska Press, , pp. The railroad made Yankton a prominent river port for nearly a decade. A Centennial History, Mitchell: Schell, History of South Dakota, pp. Fifty Years of Progress, â€” Sioux Falls: Many settlers, described as destitute, received aid from the federal government. Willard Hubbard, grandson of A. Hubbard, remembered that his grandfather had sold real estate. Articles on inoculation for measles give no evidence that shots were being given around Richardson and Harmon P. According to Frana, an ISU graduate student who has researched the topic, the injections were probably of a blood serum from a recovered measles patient or some type of antitoxin preparation that had been prepared for diphtheria. The place-names of this Central South Dakota area read like an index to early state history – Medicine Creek, for example, took its name from a butte in Eastern Lyman County reputed to be the site of Indian ceremonials. County and community names provide a look into territorial politics and plains expeditions. Lyman County derived its name from Major W. Lyman, a member of the Territorial Legislature which created the county, even though Lyman never lived in this area. Hughes County, across the Missouri to the north, was named after another territorial legislator. Mellette County, southwest, honored the last territorial and first South Dakota governor. Stanley and Sully Counties, both north of here, were named after army generals of the pioneers era. Jones County, to the west, is a bit different; settlers named it after their home county in Iowa. Railroads contributed their share of place-names to the country. The Chicago, Milwaukee, and St. Paul chose a route west across South Dakota which generally parallels that taken by Interstate As a result, many towns which sprang up have railroad names: Vibian, three miles 4. Draper, 17 miles 27 kilometers west, is one of the few towns in America named for a railroad conductor. To the northwest, an approximate by mile area of the Ft. Pierre National Grassland preserves the side-open look of the original Dakota prairie. Thirty-five miles 56 kilometers north, Ft. Pierre and Pierre bear names recalling the furtraders who preceded settlement along the Missouri. Their names come from that of Pierre Chouteau, Jr. Pierre, on the west bank of the Missouri, has been continuously occupied site since , originally as a fort or fur post before becoming a shipping center and cattle town. Pierre, the state capital, was founded on the east bank of the Missouri in when Chicago and Northwestern R.

Etymology[edit] The first written mention is from Theutonici de Epuryes. The historical center is lined with buildings built in these styles. More Soviet -style architecture is seen in the government buildings near the city center. Significant industries in the city include mechanical and electrical engineering companies and the clothing industry. Solivary, the only salt mining and processing company in Slovakia, also operates in the city. The city is a seat of a Greek Catholic metropolitan see and of the primate of the autocephalous Orthodox Church of the Czech Lands and Slovakia. The city and the region were contenders for European Capital of Culture The oldest discovered tools and mammoth bones are 28, years old. Continuous settlement dates back to the 8th century. The first record of a school dates from In the 16th century it brought in grape vines from the nearby Tokaj wine region, and was home to German-Hungarian, Polish and Greek wine merchants. In , the important Evangelical Lutheran College of Eperjes was established by Lutherans in the town. In he was defeated here by the Hapsburg at the Battle of Eperjes. He subsequently, and notoriously, had 24 of them tortured, executed and their heads placed on spikes around the town, after what we would now call a show trial. By the second half of the century, however, the town had recovered; crafts and trade improved, and new factories were built. In the salt mine in Solivar was flooded. Since then salt has been extracted from salt brine through boiling. At the end of the 19th century, the town introduced electricity, telephone, telegraph and a sewage systems. In fire destroyed a large part of the town. On 16 June , the very brief Slovak Soviet Republic was declared here. The city is a site in the Holocaust: Three of the synagogues are still standing, but the Jewish community now numbers fewer than The broad path leading to the tombstone-shaped monument, surrounded by prison-like bars, is intended to represent the Jewish pre-war population; the narrow path that leads on from it to the synagogue, those who survived.
