Page 26 The following are the available options with a brief You may also touch the Default screen button to choose explanation of each: This feature switches distance to return to the Nav Setup menu. Page 27 Memory Points The Auto setting will change the map appearance automatically every three months. Select the Memory Points screen view the adjusted map color. Page 28 Preset Dest Destination: Five preset destinations, as Once you have stored a destination as home, the well as one for home, may be registered or edited. Destination Destination The Destination menu gives several ways to plan a route by entering destination points. Touch the Dest screen button at the bottom of the map screen to display the Destination menu. The Destination menu allows you to select the area to be searched for your destination. Preset Destinations Once your destination entry is complete, a screen with the destination preview menu will display. To enter a destination, choose from one of the following destination entry methods: Preset Destinations The preset destination entry method allows you to select destinations that were registered as presets 1 through 5. Page 31 Address Use the same city name that you would use when mailing a letter. The system will search for an entry exactly as The Address destination entry method allows you to you have entered it. If you did not include a space input an address by providing the system with a house between words where necessary, the system may not number, street name, and city name. Touch the List screen button to view the list of available names, or continue to spell the name to further reduce the list. Previous Destination Previous Destination Emergency The Previous Destination entry method allows you to The Emergency destination entry method allows you to select a destination by selecting from a list of previously select a destination by selecting from a list of emergency entered destinations. Phone Number Phone Number The Map destination entry method displays the last The Phone Number destination entry method allows you location on the map, and the road preference. Scroll across and touch the map at the location you would like to set as your destination. Page 36 Intersection To enter a destination using this method, enter the name of the street, but do not include name extensions such as The Intersection destination entry method allows you to N. For example, the street name N. Civic Center select a destination by inputting the intersecting roads. Each time a destination is entered, a screen with the destination preview menu will appear. This screen will display a zoomed in view of the destination, as well as the following options: Enter Freeway names using the alpha keypad. When a POI icon is selected on the screen, touch this screen button to display the name, Each time a

destination has been selected and entered, address, and telephone number, if available, for the the route overview menu can be displayed by touching selected POI. Navigation Options Navigation Options After selecting one of the three routes, the road distance and estimated travel time will display. The Fastest Nav Options Menu shown with a Set Destination route means you will be routed along main roads and highways, but does not necessarily mean it is the shortest Once a destination is selected and you begin your route. Page 41 Cancel Route: The second programmed destination will then be used if one is available. This option allows you to change the route search condition while the vehicle is moving. The following options may be available: Overview Colors on the Screen When a route has been planned, it will be highlighted on the screen in blue. Different colors are also used to distinguish between interstate freeways, state highways, county roads, major streets, and secondary streets. Highways will be shown as a thicker line than a general street. Screen Color Screen Color This feature allows you to adjust the chime volume level in your vehicle. Touch the Normal screen button for When the exterior lamps are on during the day, the normal chime volume or the Loud screen button for a navigation screen will change to a lighter background louder chime volume. Page 44 Clock To change the hours and minutes on the clock, do the following: Touch the Manual Adjust screen button. Touch the up or down arrow screen buttons to increase or decrease the hours and minutes. Touch the Back screen button to return to the previous screen.
