Thank you for your input. Pencil What You Do: Often, another question will help you answer the one you are stuck on. Choose answers that are longer and more descriptive. These answers stand out from the others. Take a look at this example. What is a thesaurus? The correct response is likely to be one of the two options in the pair, so ignore the other choices. What type of fertilizer mixture promotes quicker greening of grass? Higher proportion of nitrogen These two options are the pair of opposite answers b. Lower proportion of nitrogen c. Straight potassium sulfate d. Wood ashes and lime Look for clues to the correct answer in the question that is being asked. Which one of the following is a step in the scientific method? Use a step-by-step approach. The null hypothesis must be measurable. Create or state a hypothesis. Others must be able to reproduce the results. Only option c above actually describes a step. Do not select answer options that are unrelated to the question being asked or are not plausible possible. An inexperienced technician is assembling a computer and has encountered instructions for checking the jumper setting. What is a jumper? Power connection lead b. Very simple form of switch d. Link between memory slots Option answer b is unrelated either to the question or to the other answer choices. It is not plausible possible. Which of the following are warning signs of type one diabetes? Unusual weight loss d.
