I live in a small house. I work in a small office in a small church. For those reasons and others I will never have a huge library. When I add a book I almost always remove a book, a practice that allows me to focus on quality over quantity. Over the past couple of years I have focused on building a collection of commentaries that will include only the best volumes on each book of the Bible. I studied them and then began my collection on the basis of what the experts told me. Since I did all of that work, and since I continue to keep up with the project, I thought it might be helpful to share the recommendations. Sponsor Become a Patron My focus is on newer commentaries at least in part because most of the classics are now freely or cheaply available and I am offering approximately 5 recommendations for each book of the Bible, alternating between the Old Testament and the New. Mark Of the five suggestions, the first three represent a very clear consensus from all the experts; the two that follow are still widely regarded as excellent, but there appears to be a significant gap between the best three and the rest. This is the oldest commentary in the list and do remember that I am focusing on newer commentaries since most of the older ones are now available for free. This one receives the highest commendation from Derek Thomas. Finally, I often enjoy R. Let me close with a question: What are your preferred commentaries on Mark?

Erdman attentively studies the ministry of Christ through the account of Mark. Expressing the service-oriented life of Christ and his apostles, Erdman moves chapter-by-chapter expounding on the unique qualities of Mark within the Synoptic Gospels. This book is not a running commentary on the Sunday-school lessons, but it is a clear and popular exposition of the whole of the Gospel of Mark. I do not know of any other short, popular exposition of the Gospel of Mark which is quite so satisfactory as this one. The introduction is particularly valuable; the analysis is thoroughly satisfying; and the comments are pertinent and spiritual. He was a biblical preacher, but he was not an expositor of the same type as Alexander Maclaren or the gifted Welshman D. In the biography J. Jones of Bournemouth, Arthur Porritt remarked: He was always on a plateau, butâ€™as friendly critic figuratively saidâ€™there were no mountains and no valleysâ€™just a uniform level of excellence. He never searched for excitingly unusual texts, nor did he strive to find startlingly unusual interpretations of his texts. Meanwhile, we believe most users will find this material quite useful despite the minor flaws. Good, but more ordinary, works are in medium type, and the least desirable are in the smallest letter. Thus we hope the eye will be caught at once by volumes best worthy of attention. Intended for workers, and likely to be useful to them. This book reads to us like utter nonsense. We question if anyone except the author will ever be able to make head or tail of it, and he had better be quick about it, or he will forget what he meant. He died before it was quite finished. It is complete to Chapter XVI. Its value is great. A New Version, with a Commentary. The mass of the volume is taken up with an introduction to the New Testament. It is written by a teacher for teachers. The remarks are not very profound, nor always such as we should endorse, but they are well fitted for their purpose. This proves his candour. His comment is somewhat out of date, but it is still good. Good notes for teachers. A fit companion to No. A Brief Exposition of Matthew. The work is, to men of our school, more suggestive of sermons than almost any other we have met with. New Translation, with Brief Notes. Godwin is a painstaking elucidator of the word, and his plan is an excellent one. Students in college will value him. An important work, which may be consulted with advantage. Lectures on the Gospel of Matthew. We cannot accept the forced and fanciful interpretations here given. Translated by Thomas Tyrrore. His commentaries contain the cream of the older writers, and are in much esteem, but are very rare. We differ greatly in doctrinal views from Dr. Morison, but we set a great price upon his Matthew and Mark, which deserve the utmost praise. Course of Lectures on Matthew. Solid, sound, soporific sermons; intended for lay helpers to read, with the prayers appended. They will not make the hearers lie awake at nights, or cause them palpitations of heart through excess of original and striking thought. But stop, he is a near neighbor of ours. The author says of his work, "no novelty of any kind, no originality either of thought or research will be found in it. Genius of the Gospel. We hardly know a more suggestive book. Few could ever read it through; but to a wise minister it would be a mine of wealth. Alexander expounds Mark as an independent record, and does not constantly tell us to "see Matthew and Luke. The different paragraphs are treated under most suggestive headings which are the most useful parts of the book. Infant baptism is far too prominent, but the little work is likely to be very helpful. The notes and translation are really good. Contains much very helpful comment. Rye says of this work: Oosterzee in Lange is excellent. To preachers who will not steal the lectures, but use them suggestively, they will be extremely serviceable. This writer endeavors to give the results of learning in such a manner that working men may understand them. He says many good things. Luke, with English Notes. Exposition of Luke, in a Series of Lectures. Clear good sense, freshness, and earnestness are well combined. We have had great pleasure in examining these lectures. Joseph Alleine was his assistant minister at Taunton. His writings are plain and profitable. In all respects a work of the highest merit. Homilies on the former part of the Acts of the Apostles. Not so good as his critical notes; but such an author always deserves attention. The Church in the House. Intended to be read in families on Sabbath afternoons; but all who are acquainted with Dr. Arnot will know that even his simplest expositions are rich and full.
