

Chapter 1 : A Street Cat Named Bob: How One Man and His Cat Found Hope on the Streets by James Bowen

A Street Cat Named Bob is a true success story, but you will have to read the book to find out the ending. I suggest watching the movie as Bob plays himself, and he really is a talented and personable cat—even if you are not a cat lover.

Early life[edit] Bowen was born in Surrey in March . Because they moved frequently, Bowen was often bullied at school. He later dropped out of education in his second year of high school, becoming a self-confessed "tearaway kid"; he was later diagnosed with ADHD , schizophrenia and manic depression. In , he returned to the United Kingdom to live with his half-sister and her husband. Tensions arose and the arrangement did not last. In time, he began sleeping on the streets. For the next few years, Bowen either slept in the streets or stayed in shelters. He began using heroin to escape from the realities of homelessness.

Meeting Bob[edit] In spring , Bowen was enrolled on a methadone programme, busking in Covent Garden , and living in a supported housing programme in Tottenham , London. One evening he returned home to find a ginger cat in the hallway of his building. Assuming it belonged to another resident, he simply returned to his flat. When the cat was still there the following day, and the day after that, Bowen became concerned and discovered the cat was wearing no collar or ID tag, and had an infected wound on his leg. Bowen checked with other residents to see if the stray belonged to any of them, and when none of them claimed ownership of the animal Bowen decided to help the cat himself. Instead, he began to follow Bowen around, even following him onto the bus when he left to go busking. Concerned that the cat had nowhere else to go, Bowen took him in permanently, naming him Bob after the character Killer BOB from the television drama Twin Peaks. The public reaction was positive and the pair became popular, their visibility increasing still further when Bowen began selling The Big Issue. During this time, Bowen decided to conclude his methadone treatment. He credits this development to Bob, saying "I believe it came down to this little man. He came and asked me for help, and he needed me more than I needed to abuse my own body. He is what I wake up for every day now

No Ordinary Cat[edit] Bob: It was released on 3 July . It was published by Random House in September

Suddenly people - the public - saw James, interacted with him, respected him. Having Bob humanised the man who was with him, and helped James turn his life around. It echoes why this book matters: I doubt it would be published, let alone topping the bestseller charts, with James on TV sharing his experience. I loved this book for so many reasons! You see it from a whole new perspective and I do believe Bob makes that easier. Humans seem to find it easier to feel compassion towards animals and not our own which is why this book will catch ANY animal lovers heart. You can feel James has a connection with Bob, he makes it so evident. A street cat named Bob has the ability, if you let it, to start seeing the stereotypes differently. Bob is a baaaaabe! During the day he would do busking to make a bit of money to support himself. Having spent time in hostels for the homeless, he was finally given his own flat. On returning back home one day James finds a ginger Tom cat outside his flat. It is from this day on that the pair forms a special attachment to one another. James decides to name the cat Bob, and on most days when James started out busking B James Bowden was a homeless man living on the streets of London struggling with a drug addiction. James decides to name the cat Bob, and on most days when James started out busking Bob would join him. Bob would sit in the guitar case and watch as the people threw their money in the case. The friendship that James and Bob form was heartwarming to say the least. This was an emotional, touching, uplifting, but most of all very inspiring tale. This is a story of love and devotion and how sometimes we are sent little signs of help and encouragement we just have to learn how to recognise them and I am sure that James was so happy that This is a wonderful feel good true story about a street Cat named Bob and his owner a recovering heroin addict and the streets of London. This is a story of love and devotion and how sometimes we are sent little signs of help and encouragement we just have to learn how to recognise them and I am sure that James was so happy that he paid attention to the cat hanging outside his apartment as his life was never the same again. Both of them are wonderfully brilliant characters in their own right. Fast-forward to a month ago, and what do I find in a bookstore but a stack of this book! This is an warming, enjoyable book that is both heart-felt as well as e I actually met James and Bob a couple years ago around Covent Garden. This is an warming, enjoyable book that is both heart-felt as well as educational. This book not only details one mans struggle to get off his feet and out of the rough life, but also about the ginger cat that gave him that push. Brought a lot of smiles to my face during its reading. Another really good thing is that Bob is a real cat. I know that because I liked his Facebook page, which is totally current, and watched some videos of him on YouTube, and even saw him and James on the Today Show. But no, it really happened and because it happened, two very sad lives got much better. One day he sees a male, ginger cat in the hallway near his flat. Last thing he needs is a pet when he is living hand-to-mouth, but the two take a shine to each other. James notices the ginger tom cat is injured. Soon the street cat, who he names Bob, is on the road to recovery. Many adventures -- both good and bad -- await this inseparable duo. This intelligent cat, who James Bowen is a recovering drug addict living in accommodate housing in London. He can even be found on YouTube, Facebook and Twitter. I definitely recommend this book. I hear they are making a movie, and I hope they keep this natural account without making it too Hollywood. A story about true companionship, and not only that, but how unique Bob is himself. I have had cats all my life, and I am pretty sure none of them would sit with me on the bus, in the street or anywhere other than when they are in a safe haven of home. This truly is a

unique connection and friendship. It is a story about how love and friendship in whatever form can turn a person or cats life around. Bob gave James purpose, and helped him to kick a 10 year habit that he had merely teetered on giving up for good. And for once a happy story! By the end you will be on YouTube looking for videos of Bob! At no point are there any concerns for Bobs welfare, he is very happy where he is! I actually thought the simple narrative made it really easy to see what James thought of Bob - his excitable use of language wh I must admit I was torn before I read this book. I actually thought the simple narrative made it really easy to see what James thought of Bob - his excitable use of language when it came to Bob was heartwarming. Reading this book really restores your faith in humanity - that people are good, thoughtful and kind. Well, he found me In fact, the cat does not die by the end which is a good thing! What we have here is a self-pitying tale of woe by a semi-homeless junkie who happens upon Bob the Cat outside his flat and they start hanging out together as he goes about his day to day life of busking, methadone and feeling like the world is against him and he never had a break. Not enough cat and too much twat. One day in a chance meeting with a ginger Tom cat that James decided to call "Bob" would change and turnaround his life. This is a charming, lovely, heart-warming true story of young man busking in central London along with his new companion the street cat Bob. They s James Bowen was a homeless man living on the streets of London, addicted to drugs and in a bad way, eventually after spending time in homeless hostels he was given his own flat in sheltered accommodation block in North London. And a true story which makes things more interesting. And I love cats so I believe they can heal, teach, and push us to be better people" - Neil Abramson from his book unsaid This quote sums up this book pretty well. James Bowen writes with great honesty and describes the life on the streets really well. I learned a lot from this book. About animals, people, London! He touched me and I felt really connected to him that at the end of the book I was actually PROUD of him for getting there and not giving up. I had to fight the crazy urge to squeeze the book whenever my eyes fell on the ohmygodidsqueezehimtodeath cover. Being the crazy cat lady I am, I fell in love with every single detail about Bob. The only thing that kinda got me a little depressed was James saying that before he had Bob he felt invisible but as soon as he got him people started noticing them everywhere and were much more friendly.
