Martin Handford, Walker Books We are off on a six hour train journey this summer and are looking for some really brilliant activity books to keep us all entertained! Can you recommend the best ones? There are a huge number of quiz and puzzle books on the market – hours of mazes, crosswords, word searches and sudoku. Much more imaginative fun can be had from books where the activity or puzzle is an integral part of the book. Searching for the real Wally – a geeky looking guy in black framed glasses and a stripy bobble hat – is addictive in itself, And there is no "answer page" at the back! But even more fun is telling the stories of all the little scenarios that are going on between the other characters in this wordless but story-rich picture book which is suitable for all ages. Readers following the clues could find the real locations of the story. Do it Yourself book which gives readers lots of prompts to create their own Wimpy Kid style book – with exhortations that it should not be just a diary. Heavily illustrated it also includes titles of things that might be recorded such as lists of favourite and un-favourite things to do and a tick box for embarrassing things done when younger and now regretted. Helpful speech bubbles already drawn on the pages will spur readers on to writing their own comments. And check out their niche activity books for the zombie or pony lover in your traveling party. The Rosie Flo colouring books by Roz Streeten are a joy to behold and take colouring in to a totally new creative level – all the bodies lack heads and arms and drawing them provides hours of gorgeous and even hilarious entertainment for everyone, boys will love these books too despite the dresses theme. For younger children picture books where things are subtly hidden provide another kind of absorbing activity. Spotting his shape against a chair, the outdoors and anywhere else is entertaining. Would you rather drink snail squash or eat mashed worms? Would you rather sleep with chickens in a coop, a dog in a kennel or in your own bed? From the tempting to the revolting everyone can enjoy imagining what they would rather do! Read a good book lately? Enjoying books with your babies and younger children? Why not think about becoming one of our family reviewers and sharing the books you love? Do you have a question for the Book Doctor?

Chapter 3 : What are best activity and puzzle books for children? | Children's books | The Guardian

Activity, Craft & Game Books Large collection of new and used Activity, Crafts, and Games Books for Kids. Obtain your children's favorites at much lower prices than other booksellers.

This game is based on the intriguing, wordless, picture books "Zoom" and "Re-Zoom" by Istvan Banyai which consist of 30 sequential "pictures within pictures". The Zoom narrative moves from a rooster to a ship to a city street to a desert island and outer space. Zoom has been published in 18 countries. The Re-Zoom narrative moves from an Egyptian hieroglyphic to a film set to an elephant ride to a billboard to a train. To create the game from the book, separate the picture pages of the book into one page sheets and laminate or place in clear plastic sleeves to protect them and prolong usage. Hand out one picture per person make sure a continuous sequence is used. Encourage participants to study their picture, since it contains important information to help solve a problem. Participants will generally mill around talking to others to see whether their pictures have anything in common. Sometimes leadership efforts will emerge to try to understand the overall story. Can be done indoors or outdoors. Once the challenge is finished, allow everyone to see the pictures and encourage participants to sort out any mistakes in the order can be done on a table or the floor, then let everyone walk around view the pictures in sequence so they understand the full story. Variations Use as a novel icebreaker by handing each participant a picture on arrival. When everyone has arrived, explain that each person is holding part of a story and that the group task is to find out what the story is by putting their pictures in sequence. Use a time limit to increase difficulty and enhance focus on teamwork. Team performance can be measured e. If there are a few more people than cards, then pair people up. For larger groups, if there is enough people then have 2 or more groups running the activity at the same time or use a sequence of cards to suit the group size. For smaller groups, try disallowing talking. This increases the difficulty and creates the need for expressive sign language. In general, allow large groups to talk because there is enough complexity sorting out all the pictures. Another way to increase complexity with small groups is to give each person more than one picture. To reduce complexity for young groups e. Processing Ideas There is usually much potential for debriefing and discussion. Why was it hard to get the story together? What communication methods might have worked better? What would have happened then? Would the solution have been found faster? What prevented such strategies from being considered? Did you try to "second position" i. What kind of leadership was used to tackle the problem? Who were the leaders? What style of leadership might have worked best? If you were to tackle a similar activity again, what do you think this group could do differently? What real life activities are similar to this activity? This book is shipped intact. To create the game, the pages of the book need to be separated into one page sheets, trimmed, and then can be laminated or placed in clear plastic sleeves Summary A group tries to create a unified story from a set of sequential pictures. The pictures are randomly ordered and handed out. Each person has a picture but cannot show it to others.
