

Chapter 1 : Gulf Shores Area Things To Do | Meyer Vacation Rentals

Get into the heart of things with Globe Pequot's Off the Beaten Path series. Devoted to travelers with a taste for the unique, this easy-to-use guide will help you discover the hidden places in Alabama that most tourists miss - unsung, unspoiled, and out-of-the-way finds that liven up a week's vacation, a day trip, or an afternoon.

Try tiptoeing around the grounds with that information in your head. Trails are paved but each with its own unique character. From tall wispy pines and fragrant magnolias to the sand dunes and marshes, the Backcountry Trails connect both Gulf Shores and Orange Beach. Near the hub where most of the trails meet, a butterfly garden and Boulder Park add to the charm. For those who need a respite, swings and benches are erected along the trails. The Gulf State Park Lake Shelby Park This park features a acre freshwater lake, which accommodates swimming, paddling, fishing, and a backdrop for the zip lines. Large oak trees shade picnic pavilions. A nice sandy shoreline supplies a cool dip without the bothersome jellyfish and the soft waves are perfect for stand up paddling. Kayakers will enjoy the lush, foliage-lined shores with several resident osprey, which nest there. The trail is a good 23 miles on asphalt and concrete. On occasion a boardwalk will provide access over bogs, marshes, and streams. The resort has some slain Confederate soldiers buried adjacent to the hotel grounds. Nearby a retired schooner, the Mary Etta whose keel was laid in , gently rocks among the other ghostly vessels. The aged oyster shell mounds that line the banks are a testament of its past success. Discover an Ancient Forest Take a dive and see why one curious fisherman seemed to have hit the fishbowl lottery. After finding success at one particular spot in the gulf off the Alabama Coast, he asked a diving friend to explore what was underneath the caramel waters. What they found astonished scientistsâ€™ a 50-year-old primeval underwater forest of bald cypress trees. Thought to be uncovered by Hurricane Katrina, the trees are so well preserved the smell of fresh sap is still evident. For a closer look, put in a kayak at the reserve. Fish River, Magnolia River, and the Mobile Bay all feed into Weeks Bay providing miles and days of exploration of unspoiled nature and diverse habitats. Five Rivers Delta Safaris equips the curious for two hours of educational fun. Bring a flashlight and camera to catch some red-eyed gators skinny-dipping. Several options including kayak, canoe, or tubing rentals are available. You will also find RV and primitive campsites. The RV campsites cater to those who want more of a resort atmosphere. Overnight kayak adventurers will have the opportunities to discover white capped sandbars shaded by winding tree lined banks during the day and starlit skies after dusk. No city lights obscuring the sparkling vista here. Not your ordinary lineup for a beach trip, but surprisingly inviting. What are you waiting for? The Gulf is calling.
