Many years ago, Dovey and I shared a special adventure together. Aunt Jeannie and I are going to tell you about Mr. Manny and Dovey have known each other from the time they were colts on neighboring farms. Manny, do you remember why God told Noah to build the Ark? People lived much longer in those days. Noah was years old, God told him that He had decided to put an end to all the people on earth because of their wickedness. But God knew that Mr. Noah loved and honored Him, so He was going to save Mr. God would save them by placing them in the special Ark. He would also save one male and one female of every animal and every other living creature. God was planning to send a massive flood, and the Ark would keep all of them alive. But Noah believed God and trusted Him completely, so right away he started building the Ark. It was hard work building that gigantic Ark, and it took a very long time, but we were happy to help Mr. Noah and his sons. The neighbors and other people who passed by made fun of Mr. Noah and even threw things at him. But he always treated them with kindness and just kept working until the Ark was finished. Noah and his family, and all the animals and other living creatures that God had brought to the ark began to go aboard. Dovey and I were the two donkeys God chose to sail on the Ark. There were about 35, animals in all! When we were settled in our quarters, God Himself closed the door of the Ark, and in seven more days, we heard the first raindrops. It was so exciting, Aunt Jeannie! The Bible tells us that rain began pouring from the heavens, and water started gushing up from under the ground. This continued forty days and forty nights. Floodwaters soon covered the whole earth, even the tallest trees on the highest mountains. All people and all living things had perished except the ones God had placed in the Ark. I get excited just thinking about it all! But our friends can read the rest in our special book, Let there be Donkeys! They can also read the first part of this story that tells what a mischievous litte donkey colt you were! You kids will learn how Dovey helped straighten me out! Just order our book at donkeys-book. You will also find the answer to this riddle: How is the Ark a little like Jesus Christ? Thank you for joining us, boys and girls. She helped an angel teach her wicked master an important lesson about loving and obeying the one true God.

Noah's Ark: All Aboard is presented by Mrs. Ruth Carter. Ruth also teaches several other kids' workshops. The presentation is planned with the upper elementary student in mind, but kids ages 5 through 6th grade may attend.

Appearing in Genesis, God spares Noah and his family, plus the animals of the world from an all-engulfing flood, by instructing him to build an ark. The tale has been told many times over the years, featuring in books and movies, with the animals aboard the ark famously go in two by two. Now IGT have designed an entertaining online slot based around the bible story. The game features a series of animals who might have been aboard the ark, each appearing either on their own, or with another animal of the same species within a symbol. The game has a fun cartoon-style feel, while a free spins bonus round is the main feature. The game pays from left to right and has a total of 30 win-lines, with the cost of each spin being the same 30 credits. This gives the pay table an interesting look, as you can therefore land ten in a row, despite there only being five reels. The highest paying standard symbol in the game is the friendly looking lion, who like all of the other animals, appears through a wooden window of the boat. The four remaining animals in the base game are a hippo, an elephant, a camel and a tortoise, who each offer a top prize of 1, coins. The lower end of the pay table shows the playing card symbols A, K, Q and J. These only appear once in a symbol and the top prizes for 5 in a row are coins for the Ace and coins for the subsequent symbols. The wild symbol shows the ark itself, with the title of the slot in large green lettering. This symbol will substitute for any other symbol in the game and when substituting for any of the animals will count as a double symbol. This wild is also the highest paying symbol in the entire game, worth an eye-catching 10, coins for the maximum 5 in a row. New Animals in the Free Spins Bonus The final symbol in the game is a dove with an olive branch in his beak. This acts as the bonus symbol and appears on reels 2, 3 and 4 only. Like the other animals, the dove can appear twice within a symbol, meaning a maximum of 6 doves can make an appearance. Four doves will see you win 2x your total bet. Leading the way on the pay table now is the giraffe, who is joined by a ram, a zebra, an ostrich and a crocodile even the crocodile looks friendly in this game. However, the cartoon style animals in this slot seem delighted with their lot. This game has a fun and friendly design throughout, with colourful visuals and a cast of amiable animals. What does stand out in the design is the complete switch of symbols when you enter the free spins bonus round. This is a very nice touch and gives the bonus a whole new feel. An up-tempo soundtrack matches the fun feel of the game. The gameplay in the base game with the twin symbols give the slot a unique feel, while look out for that huge pay for the wild symbol. The free spins bonus round is a fun one, with a whole new cast of animals.
