Oct 05, Garrett Jenkins rated it really liked it While reading the novel *Dawn of Spies* by Andrew Lane, it made me wish that I could part-take in adventures like the one that the protagonists experienced. While reading I experienced a rush of excitement action occurred. Fighting scenes added a taste of violence, which seems to be always needed in adventure stories. Also, the book contained a secret base location which was used as a headquarters for the secret spy organization throughout the story-line. Also, the book made me tap into my childho While reading the novel *Dawn of Spies* by Andrew Lane, it made me wish that I could part-take in adventures like the one that the protagonists experienced. By reminding me of a memory, I feel like I really related to the novel. By noticing the connection I started to enjoy the book more. I started to think of it as something I want to do, and stop thinking of it as a chore that must be done. By reading *Dawn of Spies*, I realized that people will do anything to overcome hardships that they face. During the novel there were two main characters, Friday, the daughter of a well-known pirate who traveled the Caribbean. The second main character is Crusoe, the son of an English family who ends up being one of the few survivors of a ship wreck. Throughout the novel there is a motif that says the two protagonists will not stop. For example, when the two first arrive to England they are robbed by two thieves who take all the money they had owned. Other than giving up and going back to the ship they had just left, the two decided that they should try to find a job on land that could aid them throughout their stay on land. By not giving up they find a man who is interested in their adventures. Ironically, the mysterious man ends up leading the two protagonists on the adventure of a lifetime. This book made me wonder about how the England of the past differentiates from the present. The city seemed to be much more harsh and dangerous for those without wealth. However, I am not surprised because that seems to be implied about every location from the past. I inferred this because of the events that were described by the author inside the novel. It also made me wonder about how people who were in the lower classes lived back then. It must have been very difficult for them to live in a society where wealth was the only factor that would guarantee safety. In the novel Andrew Lane explains how Friday is scrutinized and judged by people when she walks past them due to her dark complexion. From this detail I wondered how the people of dark skin were treated in England, however, I would assume that they were thought of as lower class due to their race. This writing piece made me see that with perseverance, anything could be accomplished. When Friday and Crusoe were stuck on the island they had been confronted with many obstacles. Yet, they did not flee from the dangers that they knew were waiting for them. Instead, they pushed straight through them without hesitation. Without their hope and strength, they would not have made it off of the island with their lives. When they did not have tools that were needed to survive they made the tools using natural resources. Even though the two main characters were complete strangers when they had first washed up on the island, they had somehow created a bond that was impossible to break. This book made me believe that anything is possible, even though the book is complete fiction, it still gave me hope. This book reminds me of my first ever time playing lacrosse, I had started off as the worst player on my team, and I was also the only African American on the team. However, by not giving up on my dreams to become a superb player at the sport, I reached my goal and now I am a started. By her ignoring the glares she received she became a very valuable factor during the spy mission. Same as how I became an important role on my team. This book made me feel like I was one of the main characters, Friday, in the novel. She was an outcast when she was in England, always a sore thumb sticking out in the crowd. I have been experiencing the same thing throughout my whole life. Same as how Friday was glared at by the people of London. By Andrew Lane adding in this information, the book became very relatable for me. Causing me to appreciate the novel even more. This book made me want that more books should be written the way Andrew Lane wrote this novel. He used the perfect amount of action and calm rest to detail the novel correctly. Without his superb organization, the story would be a must

consisting of action being thrown at the reader out of nowhere. At times, authors use too much detail when trying to inform the reader, and they end up ruining the text. To conclude, the novel Dawn of Spies is a phenomenal book that I would definitely recommend for anyone interested in reading an amazing novel.
