He offers a thought-provoking and stimulating discussion of how attachment theory and schema therapy can inform and improve couple and family treatments. He is an excellent role model for how to be a sensitive and effective clinician with a variety of clients; I know I will rely on this book a great deal to train new therapists. The author shows how therapeutic techniques originally designed for individuals have been successfully adapted for use with couples and families struggling with a wide range of relationship problems and stressful life transitions. Vivid clinical examples illustrate the process of conducting thorough assessments, implementing carefully planned cognitive and behavioral interventions, and overcoming roadblocks. The book highlights ways to enhance couple and family treatment by drawing on the latest knowledge about relationship dynamics, attachment, and neurobiology. Cultural diversity issues are woven throughout. Dattilio, Harvard Medical School, USA Grounded in theory, research, and extensive clinical experience, this pragmatic book addresses critical questions of how change occurs in couple and family therapy and how to help clients achieve better results. The book explains these common factors in depth and provides hands-on guidance for capitalizing on them in clinical practice and training. User-friendly features include numerous case examples and a reproducible common factors checklist. What is Responsible for Therapeutic Change?: A Brief History of Common Factors. The Big-picture View of Common Factors. A Moderate View of Common Factors. Getting Clients Fired Up for a Change: Matching Therapist Behavior with Client Motivation. A Strong Therapeutic Alliance. All Roads Lead to Rome. A Meta-model of Change in Couple Therapy. The Case Against Common Factors. Common-Factors Training and Supervision. Implications for Clinicians and Researchers. Moderate CommonFactors Supervision Checklist. The Mechanics of Change with Couples and Families. The Role of Neurobiological Processes. Methods of Clinical Assessment. Enhancements to Cognitive-Behavioral Therapy. Questionnaires and Inventories for Couples and Families. As the number of available modalities grows with each 2 New Edition! This excellent volume reminds us that spirituality is, at its heart, all about relationships. I highly recommend this updated second edition. Pargament, Bowling Green State University, USA Exploring the role of spirituality in couple and family relationships, this successful text and practitioner guide illustrates ways to tap spiritual resources for coping, healing, and resilience. Leading experts in family therapy and pastoral care discuss how faith beliefs and practices can foster personal and relational well-being, how religious conflicts or a spiritual void can contribute to distress, and what therapists can gain from reflecting on their own spiritual journeys. Rich with insights for working with multifaith and culturally diverse clients, the second edition has been thoroughly revised and updated with the latest ideas, findings, and clinical applications. Walsh, Religion, Spirituality, and the Family: Walsh, Integrating Spirituality in Family Therapy: Wellsprings for Health, Healing, and Resilience. Spiritual Resources in Families: Wright, Spirituality, Suffering, and Beliefs: The Soul of Healing with Families. Order online at www. Buddhism, Christianity, Judaism, Hinduism, and Islam. Boyd-Franklin, Lockwood, Spirituality and Religion: Significance for Latino Health and Mental Health. Intergenerational Values and Jewish Tradition. Anderson, A Spirituality for Family Living. synthesis of systemic and psychodynamic thought. A powerful and important book. Sections on narrative therapy and psychoanalytically-oriented family therapy are expanded as well. New Possibilities for Integration. An Orientation to Family Systems Theory. Development from a Family Perspective. Diagnosis from a Family Perspective. Playfulness, Authority and Authenticity. With warmth, respect, and expertise, Micucci conveys the true delights of helping adolescents and their families grow and change. Falicov, University of California, San Diego, USA Rich with clinical wisdom, this successful text and practitioner guide offers a comprehensive framework for treating adolescent problems in the family context. Even as teenagers become increasingly independent, Joseph Micucci shows, they still need parental guidance and nurturance. By strengthening family relationships, clinicians can alleviate symptoms and promote behavioral change. Vivid examples and session transcripts illustrate specific strategies for treating eating disorders, depression, anxiety, defiance, underachievement, and other frequently encountered challenges. Weaving together family therapy techniques with ideas from psychodynamic and cognitive-behavioral approaches, the book has a pragmatic focus on effective interventions for getting adolescent development back on track. How to Assess and Treat Problems. Defiant and Disruptive Behavior. Underachievement and Other School-related Problems. Families with Multiple Problems. Even better than the original text, the second edition succinctly covers all the most important topics in family therapy practice from a broad perspective that fits well with nearly any theoretical orientation Vivid case examples, sample forms, and quick-reference tables enhance the utility of the text. The Beginning Family Therapist: Taking On the Challenge. Before the Initial Interview. Guidelines for Conducting Assessment. Developing a Treatment Focus. Basic Treatment Skills and Interventions. Working with Families and Children. When a Family Member has a Mental Illness. Getting Unstuck in Therapy. Family Therapy in the Future: Pertinent Issues for Beginning Clinicians. I will make this book required reading for all my students and treasure it for myself. In very clear, engaging writing, Taibbi presents a comprehensive, integrated model of couple treatment There were many useful insights for this old dog, who was quite delighted to learn some new tricks. Students and novice couple therapists learn effective strategies for intervening with couples of any age who are struggling with acute crises or longstanding conflicts and power struggles. Rich with sensitive, detailed case material, the book features numerous exercises that help readers identify and develop their own strengths as practitioners. Self-care strategies and tips for getting the most out of supervision are provided. Special topics include how to address couple issues with only one partner and couple therapy applications for chronic mental health problems. Theoretical Foundation and Overview. Clinical Goals and Tasks.

Drawing this time on her own personal experiences as well as a rich vein of interviews of case histories this book is a revelation to anyone who has struggled with the pain and pleasure of brotherhood or sisterhood. *Ethics and Professional Issues in Couple and Family Therapy* Edited by Lorna Hecker, Purdue University, Indiana, USA While on some issues couple and family therapists have exquisitely clear direction from professional codes of ethics, others often fall in gray areas that rely instead on therapists making reasoned ethical decisions. Therapists need to develop ethical sensitivity to potential ethical issues in order to decrease their risk in practice, and increase their maneuverability in the therapy room. In *Ethics and Professional Issues in Couple and Family Therapy*, Lorna Hecker and her contributors address various clinical scenarios that demonstrate the complex ethical situations couple and family therapists have to face every day. Each chapter helps readers to understand an ethical decision-making model for reasoned ethical choices that best promote good on behalf of clients. Hecker, *Ethical Decision Making*. Sexuality, Boundaries, and Ethics. Ramisch, Ethical Issues in Clinical Practice. Developing an Ethical Online Practice. This essential resource includes helpful homework assignments, reproducible handouts, and activities and interventions that can be applied to a wide variety of clients and client problems. Useful case studies illustrate how the activities can be effectively applied. The reproducible handouts are designed to be practical and useful for the clinician, and cover the most salient topics that counselors are likely to encounter in their practices, with various theoretical approaches. McVicker, Creating a Narrative: Hecker, and Sharon A. The exercises in this book are based on a series of core principles that are not only central to solution-based therapies; they have been demonstrated through research as essential to successful outcome. Readers will learn about processes and practices that are supported by research and are collaborative, competency-based, culturally sensitive, client-driven, outcome-informed, and change-oriented. Creating a Context for Change. Exploring Strengths and Solutions in Information-gathering. Experience, Affect, and Emotion. Exploring New Worlds of Possibility: Changing Perspectives and Perceptions. Changing Patterns of Action and Interaction. Change, Progress, Transitions, and Endings. Creating a Culture of Care and Respect: Consultation, Supervision, and Development. This book offers creative resources like homework, handouts, and activities, and effective, fieldtested interventions to provide counselors with useful information on specific family dynamics and topics. Figley, Tulane University, New Orleans, Louisiana, USA Families under Fire provides guidelines for systems-based practice for a broad spectrum of civilian mental health practitioners who provide professional services to military personnel, their spouses, and their family members. The text maintains a focus on cognitive-behavioral interventions for treating various combat-related disorders, and addresses psychological health and adjustment after leaving the battlefield. The text is logically organized for easy reading and reference, and covers often overlooked topics such as preparation and training of service personnel, women in combat, and the indirect effects of combat stress on family. More homework, handouts, and activities for use in psychotherapy. WM T J RC Sori " , whose life exemplified love and commitment to family and friends, and to our loves, Horacio John Sori and Jonathan Lee, our children, Marisa, Marlene, Al, Ann, Paul, Jessica, and Heather and all their children , and Aaron and Noah, and our parents and family members, whose love, support, and encouragement provided the foundation for our lives from which we work. The Future MySpace Page: Froerer and Sara A. Do I Have to Give Rewards? Robey vii viii Contents 8. The Repetitive Listing Technique: Carich and Margaret R. Mannino and Teresa L. Assessing Trust in Action: Sanders, and Dreena E. Perkins and Megan L. Trust Circle and Cradle: It seems that we have accomplished our goal: Authors have indeed tested their interventions and they are ready to share them with the reader. The authors have uniquely blended theory, science, and creativity into interventions, handouts, homework, and activities. Therapists spend long hours with clients and can sometimes lose their imagination or inspiration. Yet, it is important that therapy feel generative for clients as well as therapists. You will indeed in these pages the boost you have been looking for. The creativity at your fingertips can revive sessions and bring therapy to life for clients and therapists alike. You will also indeed not only that the creativity extolled in this volume will inspire you to use the chapter at hand, but also that creativity begets creativity, and you will take, mold, and shape ideas in ways we never would have imagined. Likewise, you can expand your theoretical repertoire or adapt the activities to your own preferred approach. In this book, authors share the theoretical basis for their chapters. Theories reflected in the chapters include narrative, solution focused, choice theory, reality therapy, experiential, Bowenian, structural, social learning theory, art and play therapies, and couples approaches including Gottman and emotionally focused therapy. Client populations covered in this volume are children and adolescents, adults, couples, families, and groups. Therapists share uncommon ways for livening up therapy while accomplishing therapeutic goals. Some of these include integrating dance in therapy, utilizing rap and hip-hop with children, turning therapy sessions into quiz shows, creatively using ropes with couples, utilizing blog pages online, making the therapy room floor into a game board for families, unique ways to address sexual issues, and much more. Organization of the Book In the table of contents, we have grouped chapters according to their primary topic, but there is much overlap. Many chapters could easily have been listed under several categories. First is the title of the chapter and name of the author or authors, followed by the type of contribution contained in the chapter. This is an activity that can be used by clinicians in session, a homework assignment that can be given to clients or a combination of both , a handout that can be used in therapy or sent home with the client, or a combination of all three. The rationale for use section explains more thoroughly when the activity, homework, or handout is appropriate and how it can be utilized. In the instructions section that follows, authors give a clear description of how to execute the activity, handout, or homework. In the brief clinical vignette section, the authors provide intimate case examples all client names and identifying information have been changed to protect client confidentiality that offer readers insight in how to apply the activity, homework, or handout. Suggestions for follow-up is the next section; here, advice is provided on how to expand on the material provided in the near or distant future. A contraindications for use section is offered to alert the reader to times that the intervention might be inappropriate or harmful. Finally, this book expands upon the references

DOWNLOAD PDF ARE WE THERE YET? A METHOD FOR QUANTIFYING PROGRESS IN COUPLES TREATMENT ISRAELA MEYERSTEIN

typically found in the literature: Three different types of reference sections are provided. After the reference section is the professional readings and resources section, which offers therapists an ample list of additional resources for further study on the topic or issues discussed in the chapter. The next section is bibliotherapy sources for the client, which clinicians can use to recommend resources to their clients. These sources may include books, Websites, compact discs, or videos. They are designed to use with clients in implementing the activity, as an informational handout for the client, or as a resource for the clinician. They are also designed to make the life of the therapist a little easier because they are ready-made and available at his or her fingertips. Homework, handouts, and activities for use in psychotherapy. Acknowledgments We would like to acknowledge our many contributors without whom this book would not be possible. The knowledge, creativity, intuition, and insight that they share are stellar. Thanks to John and Jonathan for their steadfast support and love. Cheers to the joy of enduring friendship. Her special interests include training issues related to children in family therapy, family play therapy, children and families facing illness and bereavement, divorce and stepfamily issues, and integrating spirituality in therapy. She is frequently invited to present on topics pertaining to children, families, illness, bereavement, and family play therapy. She coauthored with Lorna L. Homework, Handouts and Activities for Use in Psychotherapy She has also developed the training program for Kids Support, a national training program for the treatment of cancer in the family. She is a classical pianist and lives in Highland, Indiana, with her husband, John. They have seven children and are awaiting their 20th grandchild. She teaches graduate courses in ethics and professional issues and couples therapy. Her clinical interests include couples therapy, divorce, and trauma recovery. She lives in Munster, Indiana, with her two sons, Aaron and Noah. He has been working with the program since and with sex offenders since He conducts training on an international basis on topics related to sex offender assessment and treatment. Christopher teaches courses in advanced human sexuality as well as family relationships that are a part of the Marriage and Family Therapy Program. He has served as an associate editor for the Journal of Sex Research and has published in the areas of premarital sexuality, sexual aggression, and intimate partner abuse. Her research is focused on predicting risk and resilience in grandparent-headed families. Clinically, she is interested in grandparent-headed families and also specializes in working with couples facing infertility. She works with families to strategize their way through difficult life events using play therapy, art therapy, and family mediation. His research interests include solution-focused brief therapy and medical family therapy. She is a teaching instructor for the Department of Child Development and Family Relations at East Carolina University and maintains a small private practice as a licensed marriage and family therapist in Greenville, North Carolina. Her research and clinical interests include working with at-risk adolescents and their families in the home and collaboratively with their schools and with families who have a member with an autism spectrum disorder, and incorporating the use of art into family therapy interventions. She has been employed with the Department of Children and Family Services for 24 years and volunteers with the youth in the community. She maintains a small private music therapy practice where she incorporates a biopsychosocial-spiritual approach. Her research and clinical interests include perceived locus of control in chronic illness, relationship trajectories in chronic illness, and the role of hope in therapeutic outcomes. She has been facilitating reflection groups for women who are survivors of domestic violence. Her interests include group therapy, domestic violence, coping mechanisms, and self-esteem for domestic violence survivors. She is currently working toward her PhD in marriage and family therapy at Purdue University. Her interests include emotionally focused family therapy, affect regulation in families, aggression and violence, sexual abuse, and feminism and multiculturalism. Kisler teaches courses in theories of marriage and family therapy, human sexuality, sex therapy, and marriage and family relationships for the masters program in marriage and family therapy. Her clinical specialties include female sexual functioning, sexual aggression, and relational and sexual satisfaction. She has published on topics such as marital sexuality and sexual aggression. She served as an Air Force officer for 17 years as a clinical social worker and psychotherapist. Now retired from active duty due to a service-related medical condition, Kohut uses her proficiency in the helping professions

DOWNLOAD PDF ARE WE THERE YET? A METHOD FOR QUANTIFYING PROGRESS IN COUPLES TREATMENT ISRAELA MEYERSTEIN

through her full-time business, Rocky Mountain Way Freelance Writing. She has a lengthy publication history in both academic and commercial writing. Kohut is a keen advocate of helping others through her 11 miniature dachshunds in animal-assisted therapy. She and her husband, Dr. Tristan Kohut, live in Anaconda, Montana. She is passionate about working with adults who have survived severe childhood abuse and those trying to extricate themselves from addictions. In addition, she seeks to empower individuals to develop healthy boundaries in all areas of life. She is married with one daughter and resides with her family in Lockport, Illinois. Her clinical interests include medical family therapy and bereavement, eating disorders, and sex therapy. Martin, LCSW, is a psychotherapist in private practice with couples, adults, and adolescents, specializing in the use of guided imagery and psychodrama to heal trauma. Dermer and Shannon D. She is an intern therapist at the Purdue Couple and Family Therapy Center and intends to specialize in child therapy.
