

In the United States, where we have more land than people, it is not at all difficult for persons in good health to make money. In this comparative The Art of Money Getting by P. T. Barnum - Free eBook.

General public, people of all ages, except children. He is an American writer and publisher. He was widely known as a philanthropist and a politician. At the age of 12, he displayed passionate about business by starting selling lottery tickets. He has written many books, and The Art of Getting Money is one of them. He was a great personality and personal purpose to place money in his own box. Structure of the book: The book is divided in 21 small parts. The book is a business model book of all time. Barnum emphasized that right vocation is the surest way of succeeding in business. This is obviously and strategically the first step in succeeding in the business world "the right vocation. Without finding the right vocation first, a man will just go around sporadically, without focus, and in such a setting, nothing can be achieved. Each person is born for a specific purpose, and the unexpected disparity between us suggests that people were made to do certain things that are different from others. Barnum explains that it is not enough just to do the work you love, but you must be careful where you do it; it is not advisable to commence a business where there are already enough to meet all demands in the same occupation. Anyone aspiring for greater business oriented should avoid running into debt, because debt is like a trap. Instead of debt, people have to key to a perfect business is discipline and perseverance. While some people are born with the nature of weariness, laziness, and no perseverance, they can develop and nurture this trait. Learn something useful, let hope predominate and do not scatter your powers are another issues raised in the book. The writer encourages us to learn more about our profession, skills, and expertise; this will make it possible to become updated with present-day needs for running the business efficiently, in this ever-changing world that we live in. Furthermore, Barnum Phineas added that one should be systematic in business, be cautious of outside operations and do not endorse without security. All these are part of qualities that makes businesses survive and flourish even in uncertain conditions. Advertise your business is another point that the author reaffirmed. Barnum Phineas concluded the book with a message of politeness to customers, charitableness and maintaining a sound integrity. With this book, one can be sure of running a successful business as long as the business adapts the principles stated therein. It is a speedy read but solid information. It contains high-quality and realistic lessons on how to make money without fail. The truths in this book are timeless in the wisdom and understanding and remain valid irrespective of the business or idea anyone has in view. The book focuses, and full details on how one can run a successful business in any part of the world at any dispensation with strong points as The right vocation, Right location, Avoidance of debt, Perseverance, Using the best tools Human Capital , Integrity, and Being Systematic. There are several chapters which I think need more details. It seems like the book encourages someone to give all its resources and time in making money. It encourages someone to give his all preference to only money among all the things. It gives a perception that money is everything. The author implies that some can buy even happiness with money, which is totally wrong in my opinion. You cannot buy happiness with money you can only buy things with money not emotions.

Chapter 2 : The Art of Money Getting by PT Barnum | HubPages

PT Barnum was a famous showman, but also a student of life and money. He wrote this book long before Napoleon Hill wrote Think and Grow Rich, or before the many financial and self-help advice books of the past few decades.

Early life[edit] Barnum was born in Bethel, Connecticut , the son of innkeeper, tailor, and store-keeper Philo Barnum and his second wife Irene Taylor. His maternal grandfather Phineas Taylor was a Whig , legislator, landowner, justice of the peace, and lottery schemer who had a great influence on him. Barnum had several businesses over the years, including a general store, a book auctioning trade, real estate speculation, and a statewide lottery network. His editorials against the elders of local churches led to libel suits and a prosecution which resulted in imprisonment for two months, but he became a champion of the liberal movement upon his release. Heth died in February , at no more than 80 years old. Barnum had worked her for 10 to 12 hours a day, and he hosted a live autopsy of her body in a New York Saloon where spectators paid 50 cents to see the dead woman cut up, as he revealed that she was likely half her purported age. The roof was transformed to a strolling garden with a view of the city, where he launched hot-air balloon rides daily. A changing series of live acts and curiosities were added to the exhibits of stuffed animals , including albinos , giants , little people , jugglers , magicians , exotic women, detailed models of cities and famous battles, and a menagerie of animals. He leased the "mermaid" from fellow museum owner Moses Kimball of Boston, who became his friend, confidant, and collaborator. With heavy coaching and natural talent, the boy was taught to imitate people from Hercules to Napoleon. During 1845, he toured with General Tom Thumb in Europe and met Queen Victoria , who was amused [13] but saddened by the little man, and the event was a publicity coup. It opened the door to visits from royalty throughout Europe, including the Tzar of Russia , and enabled Barnum to acquire dozens of new attractions, including automatons and other mechanical marvels; he was almost able to buy the birth home of William Shakespeare. Her career was at its height in Europe; she was unpretentious, shy, and devout, and possessed a crystal-clear soprano voice projected with a wistful quality and earnestness that audiences found touching. Barnum had never heard her and conceded to being unmusical himself. He knew that his risk was great: Barnum agreed, and she accepted the offer, which would permit her to raise a huge fund for charities, principally endowing schools for poor children in Sweden. The press was also in attendance, and "Jenny Lind items" were available to buy. She was determined to accumulate as much money as possible for her charities. Washington Irving proclaimed, "She is enough to counterbalance, of herself, all the evil that the world is threatened with by the great convention of women. So God save Jenny Lind! The enthusiasm of the public was so strong that the American press coined the term "Lind mania". They parted amicably, and she continued the tour for nearly a year under her own management. Widely seen as "dens of evil", Barnum wanted to position them as palaces of edification and delight, and as respectable middle-class entertainment. He opened with The Drunkard , a thinly disguised temperance lecture he had become a teetotaler after returning from Europe. He followed that with melodramas , farces , and historical plays, put on by highly regarded actors. In , he started a pictorial weekly newspaper Illustrated News and a year later completed his autobiography, which through many revisions, sold more than one million copies. Mark Twain loved the book but the British Examiner thought it "trashy" and "offensive" and "inspired He made substantial loans to the Jerome Clock Company, to get it to move to his new industrial area. This started four years of litigation and public humiliation. But his friends supported him, and Tom Thumb, now touring on his own, offered his services and they undertook another European tour. Barnum also started a lecture tour, mostly as a temperance speaker. By , he emerged from debt and built a mansion "Lindencroft" his palace " Iranistan " had burnt down in and he resumed ownership of his museum. Barnum with Commodore Nutt , photograph by Charles DeForest Fredricks Despite critics who predicted he could not revive the magic, Barnum went on to greater success. He created a rogues gallery. The Twins had had a touring career on their own and went to live on a North Carolina plantation with their families and slaves, under the name of "Bunker. Also in , Barnum introduced the "man-monkey" William Henry Johnson, a microcephalic black dwarf who spoke a mysterious language created by Barnum. He added pro-Unionist exhibits, lectures, and

dramas, and he demonstrated commitment to the cause. For example, in Barnum hired Pauline Cushman , an actress who had served as a spy for the Union, to lecture about her "thrilling adventures" behind Confederate lines. Barnum re-established the Museum at another location in New York City, but this too was destroyed by fire in March . This time the loss was too great, and Barnum retired from the museum business. January Barnum did not enter the circus business until he was 60 years old. It went through various names: This entertainment phenomenon was the first circus to display three rings, [25] which made it the largest circus the world had ever seen. Despite more fires, train disasters, and other setbacks, Barnum plowed ahead, aided by circus professionals who ran the daily operations. Barnum became known as the Shakespeare of Advertising, due to his innovative and impressive ideas. He was, at times, accused of being deceptive and promoting false advertising. His friend, William C. Coup , helped him get railroad cars to make tour traveling easier. In this new field, Barnum leaned more on the advice of Coup, Bailey, and other business partners, most of whom were young enough to be his sons. Barnum eventually gave up his copyright to allow other printers to sell inexpensive editions. At the end of the 19th century the number of copies printed was second only to the New Testament in North America. Stephens Often referred to as the "Prince of Humbugs", Barnum saw nothing wrong in entertainers or vendors using hoaxes or " humbug ", as he termed it in promotional material, as long as the public was getting value for money. However, he was contemptuous of those who made money through fraudulent deceptions , especially the spiritualist mediums popular in his day, testifying against noted spirit photographer William H. Mumler in his trial for fraud. Prefiguring illusionists like Harry Houdini , Barnum exposed "the tricks of the trade" used by mediums to cheat the bereaved. Role in politics and minstrel shows[edit] Barnum was significantly involved in politics, focusing on race, slavery, and sectionalism in the period leading up to the American Civil War. He had some of his first success as an impresario through Joice Heth, a slave he hired. Around , he was involved in a hoax about a weed that would turn black people white. A Tale of the Great Dismal Swamp. His opposition to the Kansas-Nebraska Act of , which supported slavery, led him to leave the Democratic Party to become a member of the new anti-slavery Republican Party. He had evolved from a man of common stereotypes of the s to a leader for emancipation by the Civil War. It may tenant the body of a Chinaman, a Turk, an Arab or a Hottentot â€” it is still an immortal spirit. Supreme Court Griswold v. In , Barnum as mayor of Bridgeport, Connecticut, worked to improve the water supply, bring gas lighting to streets, and enforce liquor and prostitution laws. Barnum was instrumental in starting Bridgeport Hospital , founded in , and was its first president. Iranistan , Lindencroft, Waldemere, and Marina. Iranistan was the most notable: This mansion was built but burned down in . Just before his death, he gave permission to the Evening Sun to print his obituary, so that he might read it. On April 7, , Barnum asked about the box office receipts for the day; a few hours later, he was dead. In , for the centennial of the city of Bridgeport, Connecticut, his portrait was used for the obverse of the commemorative Bridgeport Half Dollar. Bridgeport after Barnum, and endowed the circus operator bear with a Barnum-like outsized personality and word balloons with lettering that resembled 19th century circus posters giving graphic depiction of the sort of colorful language Barnum was prone to use. An annual six-week Barnum Festival was held for many years in Bridgeport, Connecticut, as a tribute to Barnum. The company owns and operates three vessels, one of which is named the M. This musical was based loosely on the life of Barnum portrayed by Hugh Jackman. The young Barnum then grows up, marries his childhood love Charity Hallet , [47] starts the circus, and tours with Jenny Lind. In popular culture[edit].

Chapter 3 : The Art of Money Getting, 20 Golden Rules

The Art of Money Getting is composed of the golden rules Barnum conveys to making money and how to personally be successful. His main point is that anyone can be successful if they are determined, have good habits, and understand the economy.

Today is the conclusion of chapter 8 and it is another long one. But there is a lot of good information in it – even in the first two sentences. For instance, a rich man at his decease, leaves a large estate to his family. His eldest sons, who have helped him earn his fortune, know by experience the value of money; and they take their inheritance and add to it. He becomes arrogant and self-conceited, abuses his teachers, and carries everything with a high hand. He is cajoled and caressed, and called a glorious good fellow, because he is so lavish of his money. If the police arrest them, he knocks them down, is taken to the lockup, and joyfully foots the bills. How the Poor Become Rich Tom Thumb and his bride In this country, one generation follows another, and the poor of to-day are rich in the next generation, or the third. Their experience leads them on, and they become rich, and they leave vast riches to their young children. These children, having been reared in luxury, are inexperienced and get poor; and after long experience another generation comes on and gathers up riches again in turn. In this Republican country, the man makes the business. No matter whether he is a blacksmith, a shoemaker, a farmer, banker or lawyer, so long as his business is legitimate, he may be a gentleman. The Farmer supports his own family, but he also benefits the merchant or mechanic who needs the products of his farm. The tailor not only makes a living by his trade, but he also benefits the farmer, the clergyman and others who cannot make their own clothing. But all these classes often may be gentlemen. The great ambition should be to excel all others engaged in the same occupation. The college-student who was about graduating, said to an old lawyer: Is your profession full? Plenty of Room at the Top No profession, trade, or calling, is overcrowded in the upper story. Wherever you find the most honest and intelligent merchant or banker, or the best lawyer, the best doctor, the best clergyman, the best shoemaker, carpenter, or anything else, that man is most sought for, and has always enough to do. As a nation, Americans are too superficial – they are striving to get rich quickly, and do not generally do their business as substantially and thoroughly as they should, but whoever excels all others in his own line, if his habits are good and his integrity undoubted, cannot fail to secure abundant patronage, and the wealth that naturally follows.

Chapter 4 : Art of Money Getting by P.T. Barnum

In the passage "The Art of Money Getting" by P.T. Barnum, the author states that money is not necessarily the root of all evil. If properly used, money has the possibility of benefiting those around us, yet at the same time has a high probability of bringing out the worst in many people.

It is widely thought that P. As a result, P. Barnum is often thought less philanthropically substantial than he was, in fact. Barnum loved the game of making money, and he was also extremely well-read in classical works, and was philosophically grounded in how money is a means, but not an end. He often quotes the Bible, Shakespeare, Aesop and others. His charitable gifts continue to be enjoyed in meaningful ways. Stay True to Ourselves. We should not commence business where there are already enough providers to meet all demands in the same occupation. Do not "work for a dead horse. As Shakespeare said, "There is a tide in the affairs of men, which, taken at the flood, leads on to fortune. Remember the proverb of Solomon: Many persons naturally look on the dark side of life, and borrow trouble. They are born so. Then they ask for advice, and they will be governed by one wind and blown by another, and cannot rely upon themselves. Until we can get so that we can rely upon ourselves, we cannot expect to achieve our potential. Work at it, if necessary, early and late, in season and out of season, not leaving a stone unturned, and never deferring for a single hour that which can be done just as well now. The old proverb is full of truth and meaning, "Whatever is worth doing at all, is worth doing well. Ambition, energy, industry, perseverance, are indispensable requisites for success in business. Fortune always favors the brave, and never helps a man who does not help himself. Stay Meaningfully Involved in Operations. The eye of the employer is often worth more than the hands of a dozen employees. We must exercise caution in laying our plans, but be bold in carrying them out. A person who is all caution, will never dare to take hold and be successful; and a person who is all boldness, is merely reckless, and must eventually fail. Use the Best Tools. Persons hiring employees should be careful to get the best. Understand, we cannot have too good tools to work with, and there is no tool we should be so particular about as living tools. If we get a good employee, it is better to keep them, than to keep changing. A good employee learns something every day; and we are benefited by the experience our employees acquire. There is no greater mistake than when a young person believes he or she will succeed with borrowed money. Astor, who said, "it was more difficult for him to accumulate his first thousand dollars, than all the succeeding millions that made up his colossal fortune. Learn a Useful Trade. Every parent should make his or her son or daughter learn some useful trade or profession, so that in these days of changing fortunes of rich today and poor tomorrow they may have something tangible to fall back upon. This provision might save many persons from misery, who by some unexpected turn of fortune have lost all their means. Many persons are always kept poor, because they are too visionary. Every project looks to them like certain success, and therefore they keep changing from one business to another, always in hot water, always "under the harrow. Engage in one kind of business only, and stick to it faithfully until you succeed, or until our experience shows that we should abandon it. A constant hammering on one nail will generally drive it home at last, so that it can be clinched. When our undivided attention is centered on one object, our mind will constantly be suggesting improvements of value, which would escape us if our brain was occupied by a dozen different subjects at once. Many a fortune has slipped through our fingers because we were engaged in too many occupations at a time. There is good sense in the old caution against having too many irons in the fire at once. Like the Irish pilot, on one occasion when the captain, thinking he was considerably out of his course, asked, "Are you certain you understand what you are doing? Always take a trustworthy media source, and thus keep thoroughly posted in regard to the transactions of the world. If we are without a media source, we are cut off from our species. Beware of "Outside Operations. In many cases, this arises from intemperance, and other bad habits. Frequently it occurs because a person has been engaged in "outside operations," of some sort. When we get rich in a legitimate business, we are then told of a grand speculation where we can make a score of thousands. We are constantly flattered by friends, who tell us that we are born lucky, that everything we touch turns into gold. Now, if we forget that our economical habits, our rectitude of conduct and a personal attention to a

business which we understand, caused by success in life, we will listen to the siren voices to the demise of our fortune. No person ought ever to indorse a note or become security, for another, be it his father or brother, to a greater extent than the person can afford to lose and care nothing about, without taking good security. The trouble for the borrower is that getting the money is too easy without providing security, and its loss is not appreciated. Be careful to advertise it in some shape or other because it is evident that we have ever so good an article for sale, and nobody knows it, it will bring us no return. Be Polite and Kind to Customers. Politeness and civility are the best capital ever invested in business. Of course we should be charitable, because it is a duty and a pleasure. But, even as a matter of policy, if we possess no higher incentive, we will find that the liberal person will command patronage, while the sordid, uncharitable miser will be avoided. Promiscuous almsgiving, without inquiring into the worthiness of the applicant, is bad in every sense. It is easier to make Christians with full stomachs than empty. Some persons have a foolish habit of telling their business secrets. If we make money, we like to tell our neighbors how it was done. Nothing is gained by this, and oft times much is lost. Say nothing about our profits, our hopes, our expectations, our intentions. And this should apply to letters as well as to conversation. Goethe makes Mephistophilles say: If we are losing money, we need to be specially cautious and not tell of it, or we will lose our reputation. In fact, as a general thing, money-getters are the benefactors of our race. To them, in a great measure, are we indebted for our institutions of learning and of art, our academies, colleges and churches. It is no argument against the desire for, or the possession of wealth, to say that there are sometimes misers who hoard money only for the sake of hoarding and who have no higher aspiration than to grasp everything which comes within their reach. As we have sometimes hypocrites in religion, and demagogues in politics, so there are occasionally misers among, money-getters. These, however, are only exceptions to the general rule. But when, in this country, we find such a nuisance and stumbling block as a miser, we remember with gratitude that in America we have no laws of primogeniture, and that in the due course of nature the time will come when the hoarded dust will be scattered for the benefit of mankind.

Chapter 5 : PT Barnum Speaks - The Art of Money Getting

THE ART OF MONEY GETTING by P. T. Barnum FULL AudioBook | Greatest AudioBooks - Wealth - Money - Investing - Getting Rich - "Art of Money Getting, or, Golden Rules for Making Money" Originally.

Wikipedia says of him: Phineas Taylor Barnum July 5, 1799 – April 7, 1869, was an American showman, businessman, and entertainer, remembered for promoting celebrated hoaxes and for founding the circus that became the Ringling Bros. His successes may have made him the first "show business" millionaire. Although Barnum was also an author, publisher, philanthropist, and for some time a politician, he said of himself, "I am a showman by profession I hope these thoughts help you. Even though it was written nearly years ago, it contains amazingly contemporary advice as to how to make and keep money. There are also, more modern, derivatives from the book. Neither is right for me. So firstly, think about your talents, your strengths, your enjoyments and the things you are good at and like doing - herein lies the start of your journey. The Art of Money Getting. Discover where your talents and interests can best be pursued and see how you can get yourself into the right location. Depending on the subjects you write, your local environment can make you more, or less, successful. Compare, for example, how many readers a list of things to do on a Sunday in your village would have, -v- a list of free things to do in New York City. Within Hubpages, the location you base your writing on can help make you more successful. You can spend the same amount of effort, yet get less traffic. Avoid Debt PT Barnum points out to us how somebody in debt is losing money while they sleep - as interest racks up. A creditor, on the other hand, sleeps easy as the money he has lent out is making him money in his sleep as the interest racks up. PT Barnum says that money is like fire: There are many ways to make money online, Hubpages is one of these and costs you nothing. It therefore meets the criteria of avoiding debt. There is nothing to pay to join or participate in Hubpages ever - compared to other programs which might require a payment from you. Persevere Perseverance is something that is essential. Take hubpages for example There is a proverb of Solomon: The relevance is exceedingly high here, you must persevere, write more hubs, improve your writing, learn your craft by visiting the forums. Immerse yourself in your work - work early or work late if you need to. The hard work will pay off in the end. You must put your heart and soul into the work you do, then trust luck to the remainder. Mistakes made and lessons learnt along the way are part of the necessary experience you need to build up along the way. Experience means you make less mistakes, not giving up easily means you gain more experience. The two work together in your favour. PT Barnum also points out that there is no such thing as luck that you can keep. You can have luck one day, but never again. It therefore cannot be relied upon. He explains this with a small explanation: There never was a man who could go out in the morning and find a purse full of gold in the street to-day, and another to-morrow, and so on, day after day: He may do so once in his life; but so far as mere luck is concerned, he is as liable to lose it as to find it. If he does not succeed, there are reasons for it, although, perhaps, he may not be able to see them. This message is very relevant. If you buy the best tools you can at the start, you get the benefit of knowing them inside out. There are many tools for writing online. Hubpages has shown itself to be continually improving, providing hub writers with better tools for making an income. Using Hubpages as your tool of choice to make money online is therefore a good move as it grows with you and over-delivers its promise. Be a gentleman in all your dealings. You should aim to be better at what you do than anybody else. Barnum finishes this section with the paragraph "No profession, trade, or calling, is overcrowded in the upper story. Wherever you find the most honest and intelligent merchant or banker, or the best lawyer, the best doctor, the best clergyman, the best shoemaker, carpenter, or anything else, that man is most sought for, and has always enough to do. As a nation, Americans are too superficial" they are striving to get rich quickly, and do not generally do their business as substantially and thoroughly as they should, but whoever excels all others in his own line, if his habits are good and his integrity undoubted, cannot fail to secure abundant patronage, and the wealth that naturally follows. Let your motto then always be "Excelsior," for by living up to it there is no such word as fail. Successful writers should be kindly to newer members and encourage their work, this can be done by leaving a comment, marking an article up, or posting gems of wisdom in the forums. Learn Something Useful You

always need to have something to fall back on. If you have a trade or profession first, then you can go off to explore other things - and if hard times are encountered you can always fall back on your trade or profession. If you can write, you can earn money. Hubpages can be the profession you make money with full-time, or you can keep it running in the background as your fallback plan. Online you will be inundated with ways to make money online, ways to become rich, be an overnight success Commit to Hubpages, write hubs, enjoy your time, improve your writing - and keep writing You can then build on that success. You can make an income - even a full-time income - with Hubpages, but only if you act now and not keep chasing after the next big thing. Do Not Scatter Your Powers PT Barnum says "Engage in one kind of business only, and stick to it faithfully until you succeed, or until your experience shows that you should abandon it. Too many people make a half-hearted attempt at something, appear to fail, then try the next thing. Many people try delivering catalogues and picking up orders as a way to make money. On day one they deliver the catalogues, on day three they collect the catalogues and the orders - yet they are surprised there are 0 orders, or just one order. So they give up and try the next big thing. Statistics show that those that persevere with this start to have significant orders when they deliver their 6th or 7th catalogues as it takes the householders a while to get used to the catalogues arriving before they order from them. The time builds up their desire to order. Over the next year I suddenly realised I was earning money from them - I did the maths and realised it was possible to earn a full-time income from Hubpages, so I started again and now have over hubpages. Be Systematic Becoming organised enables you to achieve a lot more than if you work in a haphazard manner. It is possible to take a systematic approach to writing hubs. Over time you will learn what you need to put into your hubs - the image locations you prefer, writing the summary, adding the tags, linking to other hubs. You can write a short list by your PC to remind you to do all these things. For writing hubs, a systematic approach might be to commit to writing a hub every day, based on an action you perform - e. You can see how the world is changing - and think how you can generate more business, or change what you do slightly. You can predict future trends, or spot rising trends. If your business is in designing dresses, for example, you might see whether hemlines are predicted to be up or down this spring; if you start a car sales company you might like to keep abreast of fuel efficiency or safety features in emerging models. Newspapers are a great source for inspiration for articles; there will be sections within any newspaper towards which you are drawn. Beware of "Outside Operations" Many people become bankrupt overnight due to speculative investment, or even gambling. One should invest moderately - as much as you can afford - and spread the risk across several ventures. Write one hub, then use that as the basis for re-writing it in a different style and posting it on a similar site. Hubpages is good - but always beware of outside operations and influences. This recently reared its head when Google did their Panda update and overnight Hubpages along with dozens of other popular sites lost a lot of their traffic overnight. Always have a Plan B ready to go! Every time you lend money, it becomes easier for them to come back and borrow again. People need to learn to earn the money they need. Many people start in business and place a small advert in their local paper - then cancel the advert when they see no increase in business. In order for advertising to succeed you need to keep advertising. If you place an advert in the local paper, let it run for always. A French writer says that "The reader of a newspaper does not see the first mention of an ordinary advertisement; the second insertion he sees, but does not read; the third insertion he reads; the fourth insertion, he looks at the price; the fifth insertion, he speaks of it to his wife; the sixth insertion, he is ready to purchase, and the seventh insertion, he purchases. For businesses, hubpages enables business to advertise their goods or services for sale, with a couple of simple caveats. As a business owner, you can advertise by writing informative hubs. Treat your hub articles as if they were a weekly magazine and you had to fill half a page. Write an article about how a product can be used, create a video to demonstrate a technique, give hints and tips. Simply describe and explain the product and what it actually does, how that can help people, then put in your affiliate link except Clickbank, which is not accepted. As this was a lot of money to pay for a ticket word spread fast about Genin the Hatter - and people sought out his business and hats - and he sold thousands of hats and gained lifelong customers through this unique method of advertising. Many businesses these days will sponsor big events or charities so their name might be seen in newspapers or on television. It costs nothing to advertise and promote a business through Hubpages. There are some simple rules to follow and you

can provide up to two links back to your website. The best advice I can give is for people to write informative articles and let their readers discover the website through the links, which they will do if you write a compelling article, or something that helps them to solve a problem. Early in my hubbing days I had a horrid response to one of my recipes, people had said it was great and one practically accused me of ruining their entire life I think I deleted it and moved on:
