A hadith in Shahi Muslim which speaks of a person who had met Dajjal and reported the incident to the Prophet. It maybe that this is the same place. Then these waves took them near the land within the ocean island at the time of sunset. They sat in a small side-boat and entered that Island. There was a beast with long thick hair and because of these they could not distinguish his face from his back. Woe to you, who can you be? O people, go to this person in the monastery as he is very much eager to know about you. He the narrator said: When it named a person for us we were afraid of it lest it should be a Devil. Then we hurriedly went on till we came to that monastery and found a well-built person there with his hands tied to his neck and having iron shackles between his two legs up to the ankles. Woe be upon thee, who are you? You would soon come to know about me, but tell me who are you. We are people from Arabia and we embarked upon a boat but the sea-waves had been driving us for one month and they brought us near this island. We got into the side-boats and entered this island and here a beast met us with profusely thick hair and because of the thickness of his hair his face could not be distinguished from his back. Woe be to thee, who are you? You go to this very person in the monastery for he is eagerly waiting for you to know about you. So we came to you in hot haste fearing that might be the Devil. He that chained person said: Tell me about the date-palm trees of Baisan. About what aspect of theirs do you seek information? I ask you whether these trees bear fruit or not. Yes Thereupon he said: I think these would not bear fruits. Inform me about the lake of Tabariyya? Which aspect of it do you want to know? Is there water in it? There is abundance of water in it. I think it would soon become dry. Inform me about the spring of Zughar. Which aspect of it you want to know? He the chained person said: Is there water in it and does it irrigate the land? We said to him: Yes, there is abundance of water in it and the inhabitants of Medina irrigate land with the help of it, He said: Inform me about the unlettered Prophet; what has he done? He has come out from Mecca and has settled in Yathrib Medina. Do the Arabs fight against him? How did he deal with him? We informed him that he had overcome those in his neighbourhood and they had submitted themselves before him. Thereupon he said to us: Had it actually happened? If it is so that is better for them that they should show obedience to him. I am going to tell you about myself and I am Dajjal and would be soon permitted to get out and so I shall get out and travel in the land, and will not spare any town where I would not stay for forty nights except Mecca and Medina as these two places are prohibited areas for me and I would not make an attempt to enter any one of these two. This implies Taiba meaning Medina. Have I not, told you an account of the Dajjal like this? Yes, and this account narrated by Tamim Dari was liked by me for it corroborates the account which I gave to you in regard to him Dajjal at Medina and Mecca. Nay, on the contrary, he As In the east, he is in the east, he is in the east, and he pointed with his hand towards the east. I Fatima bint Qais said:

Legend has it that whoever goes to the Bermuda Triangle gets trapped by the devil. There is this mysterious force that lures the sailors and pilots towards undisclosed destinations. No one has ever returned from the mysterious place. It has been the sole cause behind the disappearance of many maritime ships, crewmen, and airplanes. In some cases, the vessel wrecks were found but the crew was missing. Over the course of five centuries, the Bermuda Triangle has remained an object of intrigue. How it all started? Bermuda Triangle has claimed many lives, vessels, and airplanes so far. But, its reputation as a place of paranormal activity is a result of a few news articles. These write-ups basically brought the eeriness of Bermuda Triangle to public attention. Hence, from the s onwards, the phenomenon started taking the world by storm. The vanishing incidents were far too many to ignore as mere accidents. People came to know that the Bermuda Triangle was an unsafe place to be. It was dubbed a spooky place that attracts travelers like a magnet. This is how the legend of the Bermuda Triangle originated. You can understand it as a triangular area in the Atlantic Ocean, closer to the United States. It is basically a loosely-defined, unregistered region that has three corners. The three corners include Miami, San Juan, and Bermuda. Ships use this route to reach the ports in the Americas, the Caribbean islands. Quick Facts about the Bermuda Triangle: This is probably caused due to decomposing sea organisms in the ocean If there are instruments on deck, the electromagnetic vortices from the area will affect them hugely The haunting electronic fog at the triangle is so thick that it is literally impossible to look through it. When sailing nearby the triangle, never look up. Have you ever heard about the lost city of Atlantis? For your information, the Atlantic Ocean is named after the Atlantis city. It is an island buried under the ocean now. The lost city of Atlantis is linked by some researchers with the Bermuda Triangle. The reason is the rock formation called the Bimini Road, which was discovered in This is a submerged formation off the Bimini Island, located in the Bahamas. This particular formation is claimed to fall into the boundary of the triangle. Atlantis City was home to some of the most sophisticated and cultured civilizations. The people of Atlantis city were great scholars. They literally were the jack of all trades and masters of all too. They even mastered the field of technology. Historians regard them as supernatural beings and not humans. According to folklore, people of Atlantis relied heavily on very powerful crystals and had vast energy reserves. Navigation systems just cannot work due to the power of these crystals. In fact, theorists claim that the crystals are buried under the Bermuda Triangle and transmit huge energy waves. It is because of these waves that vessels get destroyed. One such theory is that the Bermuda Triangle is where Dajjal is placed in captivity. Dajjal is an evil figure in Islamic theology. Dajjal is said to be the face of Satan that will surface on Earth before the Day of Judgment. In fact, it is one of the many warning signs of the onset of the Day of Judgment in Islamic eschatology. Before its time arrives, Dajjal has been kept in captivity. Theorists are of the opinion that Dajjal lives under the Bermuda Triangle. It is also claimed that the Dajjal is creating havoc for ships and airplanes that pass through the triangle. But, how can he do that while being captive? It is yet another mystery waiting to be explained. The Bermuda Triangle has made headlines for being the graveyard of countless ships and aircraft. Thousands of planes and ships disappeared while passing through the triangle. So, one thing is assured, the pilots would have been well-trained and not novices. Then how can these ships and planes end up vanishing into thin air? Without even leaving any trace behind? There is so far no explanation whatsoever. All that we have got are stories and more stories about disappearing crewmen and vessels. Some of these incidents are listed below. Ellen Austin and the Mysterious Ship: It was a huge multi-storied ship that weighed more than tons. This ft long ship used the Bermuda Triangle route to travel in the Atlantic zone. In on one of her regular voyages it came across another ship that was moving quickly. Surprisingly there was no one on board that ship. They confirmed that the ship was sailing without anyone on board. The captain then ordered them to stay on the ship to guide it to

the port. For two days, the two ships sailed together. Finally, they were separated by a huge storm. The ship was discovered somewhere nearby the triangle on 4th December. Everything was perfectly fine but the entire crew was lost. It was actually found stranded on the ocean a few days after it started the journey to Genoa, Italy from New York. Reportedly, there were 7 crew members on board Mary Celeste including Captain Benjamin Briggs with family. The ship was loaded with raw liquor. USS Cyclops was among the biggest fuel ships owned by the Navy with feet length. There were 10, tons of manganese onboard the USS Cyclops and crewmembers. The ship was sailing smoothly and the captain even sent out the message that the weather was fine. But, this massive ship disappeared and was never heard from ever again. There were no remains of the huge ship or of the crew members. What then happened to USS Cyclops still remains a mystery. The Curious Case of Carroll A. Deering was a five-masted ship built in 1880. It was set on a sail from the Cape Lookout lightvessel. The ship started its journey on Jan 29, 1921. Only after two days, on Jan 31, the ship was found abandoned at Diamond Shoals. It is an area nearby Cape Hatteras. It is claimed that the ship was attacked by pirates or it collided with another ship Hewitt. But nobody knows for sure what actually happened on that fateful day. The Ill-fated Flight 19 It was on a routine exercise and traveling to the east from Fort Lauderdale. Instead of returning to the base, it disappeared on 5th December 1945. Navy investigators claim that the aircraft disappeared due to a navigational error and possibly crashed after running out of fuel. Interestingly though, the aircraft that was sent to look for Flight 19, a PBM Mariner, also vanished with its 13 crew members. There was a tanker off the Florida coast that reported seeing an explosion. Also, there were reports of a huge storm at the time of this incident. What happened to the ill-fated Flight 19 is yet unknown. But the incident did gain worldwide attention when Steven Spielberg used the idea in his sci-fi movie Close Encounters of the Third Kind. In the movie, the crew members of the lost Flight 19 were shown to be abducted by aliens. The Star Tiger was flying over the triangle and was due to land at the Bermuda airport. There have been many, many incidents involving disappearances of vessels and aircraft, probably hundreds.
