Chapter 1 : Basic English Grammar with Audio CD, with Answer Key : Betty S. Azar :

Basic English Grammar - Third Edition with answer key Uploaded by FernandoPastor a very good book for learning English, based on English grammar, the book self explains itself.

It is keyed to explanatory grammar charts in both the Student Book and the Chartbook. Understanding and Using English Grammar is a classic developmental skills text for intermediate to advanced English language learners. Yes, this 4th edition has CDs, pretty colored pictures, and lots of conversational exercises, but from an academic perspective, despite its slick add-ons, this is NOT an improvement over the 3rd edition--in fact, in some ways it is a step backwards, particularly for academic-bound international students who may continue to use English internationally. It is truly dismaying to see what has been deleted from the 3rd Edition to make room in the 4th Ed. I could write for quite a while about what essential academic English has been sacrificed, but just as one example, the "troublesome verbs" i. Another thing that is important for university-bound students, the word "whereas" - which was presented in the 3rd Ed. This is further dismay, considering that "whereas" is in technical writing a more precise, exclusive subordinator to indicate contrast, whereas [! Furthermore, the new "improved" list of irregular verbs omits the past participle "stricken" used for situations of suffering , but it now includes the exclusively American informal "snuck" as a FIRST CHOICE for the past tense of "sneak"! Now my students may write: I discover more essential things deleted from the 4th Edition each time I teach from it. For example, the usage of the subjunctive e. I am also upset that lessons on the perfect a. I realize now that the Stative Passive of the 3rd Edition i. A progressive passive would be "The new student is being given a placement test at the moment"; a non-progressive passive would be just a basic passive: The gross flaws and shortcomings of this 4th edition are egregious! There are enough practices here that after I teach the topic, the students can work at their own speed and everyone has enough to do during class. Plus, the answers are in the back of the book, so there is no problem for those who got ahead of the rest. This is a good book I had to buy this book for my college classes But I prefer anyone to buy this book It has 20 chapters included CD She is working on her English for he college classes and said this is the best and most useful reference she found. It give clear explanations has her work examples to very that she understands the concepts. Answers are provided for all of the problems she works. By Ayman on Nov 15, It arrived at the time. The book was in a good conditions. This is an excellent resource to help explain grammar issues to students. I use a variety of books in helping me to teach. Azar is well know for her use of diagrams and simple, easy to understand explanations. I am satisfied By Sandra on Aug 07, I am satisfied. This book is in great conditions although it is used. It will be very useful for me. Every single part of grammar were categorised obviously, so i can easily memorise them, great! It comes with exercises and study guides good By Arthur on Sep 23, good i like it , condition is good it is worth to buy in this price. Now I use it This book is far more advanced than the description led By Calissa on Sep 12, This book is far more advanced than the description led me to believe. I purchased it for one of my adult ESL students who was looking for something he could do on his own at home. This student is middle aged, with little formal education of any kind before coming to the U. It was not appropriate for him at all. The print is small and the exercises quite complicated for someone who is new to learning. I do believe it would be appropriate though for ESL students who have had a formal education and are used to doing grammar drills, worksheets, and working independently. One of my students from Brazil a PhD student at the local university ended up taking it home and he says that he likes it. Great book, extremely valuable for beginners By Michael Hanes on Jan 27, Great book, extremely valuable for beginners. And a great reference for more advanced users as well. By Rejane on Jun 26, The content of the book is really good and very helpful. I bought a used one and it is not so good. It has many erased handwriting in it, which is not good, because I still could see the answers of the exercises. It does not contain a tremendous amount of practice exercises, but you can always find those online. The advantage of this book is its thoroughness. Go online to dictation, picture dictionary, phonetics By Dolores A. Schultz on May 05, Too
