A Bewitching Season: The Bewitched Baron / The Bewitchment of Lord Dalford / The Reluctant Witch by Debbie Raleigh, Jeanne Savery, Lynn Collum. of 5 stars.

It was not so much his appearance that made her think of the Lord of the Netherworld, she grudgingly conceded. Indeed, he might have been a beloved angel with his long, tawny curls that framed a lean countenance and brushed his wide shoulders. His eyes were a pure, shimmering gold with long black lashes that would make any woman gnash her teeth in envy. His features were carved with a delicate male beauty. But there was nothing angelic in the decided glint of wicked humor in those magnificent eyes and sensuous cut of those full lips. And, of course, the indecent charm of those deep dimples. She should have sent him on his way the moment he arrived upon her doorstep. Not even for a moment should she be considering the notion of allowing such a disturbing gentleman into her home. She would have to be mad. When she had first been struck with the notion of renting her attics, it had been with the prospect of discovering a quiet, comfortable tenant. Someone who would not disturb the peace of her household. Unfortunately there were few such tenants who desired to live in a neighborhood that hovered on the edge of the stews. The local pickpockets and prostitutes did not possess the funds to pay the rent, even if she were to consider allowing them into her home. And the few gentlemen who possessed businesses in the area already owned their own property, usually far from St. Which left Lucien Valin. A shiver raced down her spine. If only she were not in such desperate need of money. If only it were not a full two months until her quarterly allowance. Her lips twitched with wry humor. She could devote the next fortnight to listing the "if-onlys" in her life. Now was not the time for such futile longings. She better than anyone understood that the mistakes of the past could not be altered. One could only ensure that they were not repeated. Unconsciously straightening her spine Jocelyn forced herself to meet that piercing golden gaze. Jocelyn sucked in a steadying breath. Devil or not, he was the only potential tenant who offered the cold, hard coin she so desperately needed. There had to be something said for that. I am uncertain that a gentleman of your large proportions would find them at all comfortable. I need hit my head upon the rafters on only a handful of occasions to recall to duck. The stench can be unbearable on some days. Not even Mayfair is unaffected. She never allowed herself to be ruffled. She had learned through painful experience that to lose control was a certain invitation to disaster. It is enough to terrify the stoutest of hearts. Although he cloaked himself in a lazy charm, there was no mistaking the fluid power of his male form or the hint of ruthless will that was etched upon the lean features. Only a fool would underestimate the danger of Mr. And Jocelyn was no fool. I live very quietly. I will not countenance loud gatherings or drunken carousing. Valin from her house. She did not have the luxury of turning away a perfectly suitable tenant just because of some vague fear. Jocelyn narrowed her gaze. You are welcome to eat in the kitchen with Meg, but the remainder of the house is not to be entered. Then he gave a vague nod of his head. She had also made impossible rules that would annoy the most even-tempered of gentlemen. The mere fact that he had so readily agreed made her even more suspicious. His hands lowered as he regarded her with a bemused smile. Her gaze continued over the hard, muscular thrust of his legs to linger upon the glossy Hessians that cost more than many families could earn in a year. At last she raised her head to discover him regarding her in a curious fashion. Why would you desire to take inferior rooms in a neighborhood most consider fit only for cutthroats and whores? You shall have to do better than that, Mr. Gideon can unfortunately be tiresomely unreasonable when he chooses, and I believe there was some mention of a nasty duel. It seemed best to avoid him for the next several weeks. Just until his temper is recovered. What else could she expect from such a gentleman? He was, after all, born to break the heart of susceptible women. Then she was severely chastising herself for her unworthy thoughts. She knew nothing of this gentleman. Certainly not enough to brand him as a womanizing leech. And in truth, even if he were, she was in no position to judge another. Besides, Gideon would never harm a lady. He far prefers to charm them. This flirtatious banter was precisely what she had feared from Mr. It was important that she put a swift end to any hopes he might harbor of a casual seduction. Valin, that I am remotely interested in any charms you might claim to possess. Not even

remotely interested? She knew the moment her fingers touched the coins she would be irrevocably committed to allowing this gentleman into her home. And yet, what else could she do? There was nothing particularly noble in bare cupboards and empty coal bins. And besides, she had Meg to consider. Her old nurse was the only one to stand beside her when the scandal had broken. She was the only friend she had left in the world. How could she possibly allow the older woman to suffer even further hardship? The answer, of course, was she could not. This money would pay their most pressing creditors and put food on the table. At the moment that was all that mattered. Grimly thrusting aside the warning voice that whispered in the back of her mind, Jocelyn gave a nod of her head. Not that it truly mattered. She would no doubt merely waste the days brooding upon what was to come. Surely this was like swallowing vile medicine. It was best to be done with quickly. I will collect my belongings and be here later this afternoon. She absolutely refused to shiver again. It will be several hours before he awakens. Jocelyn, however, was prepared on this occasion. She is quite capable and is in full control of the household. Only then did she lean back in her seat and close her eyes in an odd weariness. There would be dinner on the table tonight. But what was the cost? And was she prepared to pay it? The kitchen was surprisingly clean and filled with the delicious aroma of fresh-baked bread and drying herbs. Seated at the scrubbed table, Lucien leaned back with a deep sigh. The house might be tidy with sturdy furnishings, but there was no ignoring the neighborhood was a breath from utter decay and that the air was rancid with the stench of rotting trash and sewer. Still, he was not overly disappointed that his trail had led him to this narrow house in the shabby cul-de-sac. His rooms might be cramped and his delicate senses offended by the derelict surroundings, but it all became meaningless the moment he had stepped into the small study. Even now he could feel the shock of utter bewitchment when he had beheld Miss Kingly. She had quite simply stolen his breath. Her face was a perfect oval with large eyes the impossible blue of tropical waters. Her hair, which had been ruthlessly wrenched into a knot at the base of her neck, possessed the rich luster of sable that contrasted sharply with the flawless cream of her skin.
