Chapter 1 : American Early Republic (Early National Period), Authors A-D.

CHAPTER THREE We went to Italy, we went to Ireland, we went to Williamsburg, we went to Montreal, we went to St. Martin, and Mark drove and I navigated and Julie suggested wrong turns and Arthur fell asleep.

Jefferson, Marshall, and the Rise of Presidential Democracy. NEW copy, hardcover with dust jacket. Documents, extensive notes, index, pages. The election is noted for the electoral tie between two Republicans, Thomas Jefferson and Aaron Burr. The fracas, he says, revealed a serious flaw in the framework for presidential elections: Madison decision from the larger political context, i. Ackerman innovatively recasts the histories of parties, constitutional interpretation and presidential politics. Rarely has a study of American history been more timely. Lively, homespun descriptions "Whenever he tried to reason it out, his brain would get as muddled as a corn-and-cranberry pudding" and an informative afterword round out the tale. Johnny Appleseed his real last name was Chapman is reintroduced in this succinct rendition of the life of a beloved American folk hero, from his birth in Massachusetts in to his death in Indiana in *The Man, the Myth, the American Story*. Illustrations, notes, bibliography, index, pages. It captures the boldness of an iconic American life and the sadness of his last years, as the frontier marched past him, ever westward. Chapman was an animal whisperer, a vegetarian in a raw country where it was far easier to kill game than grow a crop, a pacifist in a place ruled by gun, knife, and fist. Some settlers considered Chapman a New World saint. Others thought he had been kicked in the head by a horse. And yet he was welcomed almost everywhere, and stories about him floated from cabin to cabin, village to village, just as he did. As eccentric as he was, John Chapman was also very much a man of his times. University of Pennsylvania Press. NEW, still in shrinkwrap. *Master of the Wilderness*. Jacket, in mylar, slightly chipped at head of spine. Original price of \$3. Second printing before publication. Pictorial map on endpages. Frontispiece portrait, illustrations, bibliography, notes, index, xii, pp. One of the copies I stole from my own book case and the other I grabbed from Mr. Hobson when his back was turned! *The Life and Legend of an American Pioneer*. Maps, photographs, illustrations, Sources of Quoted Materials, Index, pages. Blending themes from a much vitalized Western and frontier history with the words and ideas of ordinary people, Faragher has produced a book that will stand as the definitive life of Daniel Boone for the next century. Maroon boards in very nice condition with virtually no wear; slightly darkened gilt lettering on spine. American Publishers Corporation, no date: Illustrations, maps, photographs, appendices, notes, bibliography, index, 81 pp. Being the *Commonplace Book of D.* Hardcover with dust jacket. We meet the Cherokee, the Shawnee, and the Delaware peoples. We track the bountiful animals and the great, undisturbed rivers. We stand aside Boone as he buries his brother, then his wife, and finds comfort in his friendship with a slave named Derry. The Appalachian Press, Illustrations, maps, bibliography, index, pages. We have asked such questions as these: These studies were brought into focus by tracing one family with strong family ties -- the Boones, grandparents, parents, son Daniel, and his progeny. In sociological terms this might be considered a case study of the Boones over a period of years. *Daniel Boone and the Typology of Manifest Destiny*. An Exhibition Commemorating the Columbian Quincentenary. Washington University Gallery of Art, Profusely illustrated, drawings, etchings, paintings, color plates, endnotes, bibliography, checklist of the exhibition, 83 pp. Garden City Publishing Company, Illustrated by James Daugherty. Gentle, kindly, modest, peace-loving, absolutely fearless, a master of Indian warfare, a mighty hunter, strong as a bear and active as a panther, his life was lived in daily danger, almost perpetual hardship and exposure; yet he died in his bed at nearly ninety years of age. Smithsonian Institution Press, University Press of New England, Maps, genealogies, appendix, notes, index, pages. As a diarist, French is superb; his writing style is not only clear and lucid but, with a flair for the dramatic and the gossipy, entertaining as well. An interesting account of the great men and events of an important period *Library Journal*. University of North Carolina Press. Extensive notes, bibliography, index. It provides a sustained examination of the relationship between revolutionary doctrine and the practical considerations of military planning before and after the American

Chapter 2 : OCLC-member editing guidelines (Tulane Cataloging)

About the Book " Neither a composition handbook nor a history of rhetoric nor an exposition of other critics' syntactic theories, Tufte's book lays out the author's own very special understanding of how sentences work and what they can do.

In lieu of an abstract, here is a brief excerpt of the content: Willis Goth Regier Giovanni Boccaccio. Genealogy of the Pagan Gods. Translated by Jon Solomon. I Tatti Renaissance Library, Edmund Spenser and John Milton read it in Latin. Why did we have to wait so long? Because it is a titanic task, fifteen books long. Drawing on more than Greek and Latin authors, the Genealogy is a feat of erudition that shows a Boccaccio barely seen in the Decameron. The gods and goddesses, their liaisons, and progeny seemed a hopeless confusion. How many Hermes were there? Who says Minerva was a mother? How many women did Jupiter seduce? As best he could, Boccaccio sorted out the affairs and families of the gods. Sometime between and , Hugo, King of Cyprus, isle of Venus, sent an officer to ask Boccaccio to research and write the Genealogia. Still the officer insisted until at last Boccaccio relented and replied he would do it, but no one should wonder if he failed. The research was difficult, the writing dangerous. As he tells it, Boccaccio was very brave, or very bored, doing what he could to enliven a time-devouring chore. Theodontius is the sole source for many variants, odd details, and otherwise forgotten gods. Generically, the Genealogy is esoterica: The Genealogy could have had hundreds more: Boccaccio told Hugo that fabulas have so many meanings, that he had to pick and choose Boccaccio kept his distance from pagan gods and when he could, he dismissed them. He assails them with scripture, he astrologizes, he allegorizes, he etymologizes fantastically, and he relentlessly euhemerizes. One god after another is explained away as a man or woman whose invention, industry, or victory persuaded Greeks to vaunt them to heaven. He prefers simplicity to profundity: Book I starts with Chaos then descends to Demogorgon and the gods of Greece. You are not currently authenticated. View freely available titles:

Chapter 3 : The Brontë Sisters: The Brief Lives of Charlotte, Emily, and Anne - Catherine Reef - Google B

Illustrations, maps, photographs, appendices, notes, bibliography, index, 81 pp. "Long ago Peter Houston's A SKETCH OF THE LIFE AND CHARACTER OF DANIEL BOONE should have been properly annotated & published.

About the DARE Bibliography Introduction The purpose of the DARE bibliography is to allow readers to track any quotation from its short-title to its full bibliographic entry, and from that entry to the edition of the book or other source from which the quote was taken. With this aim, DARE includes in its bibliography entries for all sources cited in the five volumes of text. These entries, first compiled as notes on index cards, resulted in a database of nearly 13,000 electronic records in 2000. Our general policy has been to include in each bibliographic entry the necessary information from the title page and occasionally the verso of the work cited. Since the 1970s, these details have been used in conjunction with the information available in the OCLC worldwide library database. State names and occasionally country names have been added to imprint information when necessary to avoid ambiguity. In the case of serial publications, imprint information often varies from issue to issue. For this reason, only the place of original publication has been given, and publisher details are included only when necessary for retrieval. Any project as long and complex as the DARE bibliography inevitably evolves over time. Begun in 1970, it has adapted to changes in standard library practice, not only in the formats for creating and maintaining bibliographies, but also in policies regarding essential elements and thoroughness of treatments. To aid the reader, DARE has included copious cross-references and, for some bibliographic entries, additional notes. These are useful, for example, when authors publish under multiple forms of their names, change their names, or use pseudonyms; when a short-title refers to a part of a collection rather than the whole; when a short-title has been altered; or when multiple editions of a work have been cited. Any quotations not verifiable in their original sources are attributed to the sources in which they were found. In such cases the short-title is given exactly as it appears in the secondary source, followed by the attribution: These abbreviations are found both in the bibliography as cross-references to the full entries and in the List of Abbreviations at the front of this volume. In addition to published sources, DARE includes many citations from unpublished and oral sources. Numerous collections have been donated to DARE; their bibliographic entries include brief descriptions of their contents. Each of these short-titles has its own bibliographic entry. During the editing of Volume V, a vast body of additional materials became available through Google Books. DARE Editors have taken quotations from them, but only when images of the printed text and the title page were available for verification. Digitized collections of newspapers, such as NewspaperArchive and ProQuest Historical Newspapers, have allowed access to thousands of publications that provide excellent evidence for local vocabulary use. When full page images are visible, DARE Editors cite the newspaper directly; if any bibliographic information is lacking, they cite the newspaper but attribute the quotation to the collection. If a quotation is taken from a digital-only newspaper or the online version of a print newspaper, the shorttitle makes that clear. Bibliographic entries for digitized newspapers include date ranges available at the time the entry was created; such ranges change as publishers of digital collections expand their holdings. Bibliographic entries for Internet sources have conformed as far as possible to the evolving standards of the library profession. Because they change so frequently, URLs are not included. For the preparation of this bibliography, thanks go to many people.

Chapter 4 : Medieval Bestiary : Bibliography by Author

Artful Sentences. Uploaded by buzonbazofia. thousand sentences quoted in Artful Sentences: Syntax as Bibliography-Index of Authors and Editions Quoted.

Add ISBNs present in a single-volume book if there is no in the record. Only in case of problems or real doubts about the suitability of the classification should further sources be checked for verification. The cutter should be left as is unless there is a conflict in the shelflist or it is clearly incorrect. One and only one of these fields should appear in the matching record. Accept tag or for LC call numbers; accept any indicators that are there. If adding a call number, add as Use for Dewey and local call number formats. For example, if we treat the series as classed separately CNV , do not accept a call number based on an all-in-one-number series that is provided by the OCLC-member library. If a call number cutter ends with the number 1 or the letter x, delete the 1 or x. If the final call number date is missing, add the imprint date of the piece in the call number or the conference date when there is a conference main entry. Add if applicable; verify before adding. If heading is present, authority work is optional. Do not worry about whether a given heading is tagged in the record as a 1xx or as a 7xx, as long as it is present. Includes adding a field for the original title if you have a translation. A for a generic collective uniform title is optional. First indicator should be "1. Second filing indicator must be properly set; first indicator should be accepted as is. If statement of responsibility is wholly lacking, it is not necessary to add it. All other appropriate title page information must be included somewhere in the record, but the field is not important, e. Provide with the indicators "3" and spell out the ampersand in the appropriate language. Provide with indicators and subfields appropriate for the type of title, e.

Chapter 5 : Classics of biology. (edition) | Open Library

The French slave trade forced more than one million Africans across the Atlantic to the islands of the Caribbean. It enabled France to establish Saint-Domingue, the single richest colony on earth, and it connected France, Africa, and the Caribbean permanently.

Chapter 6 : The French Atlantic Triangle - Christopher L. Miller - Google Books

2 editions of Classics of biology found in the catalog. Includes bibliography. "Index of authors quoted": p. Translation of Los fundamentos de la biologÃ-a.

Chapter 7 : Project MUSE - Recently Published Books

LibraryThing Review User Review - ecataldi - LibraryThing. I've read both Jane Eyre and Wuthering Heights but I had little to no idea about the authors. I knew there were two Bronte sisters, but I didn't know about the youngest, Anne.

Chapter 8 : Artful Sentences (January 1, edition) | Open Library
