

Chapter 1 : The Blackwell Guide to Hume's Treatise by Saul Traiger

"The Blackwell Guide to Hume's Treatise is a very welcome arrival, an antidote to the selective attention from which the Treatise has often suffered.

In lieu of an abstract, here is a brief excerpt of the content: Barry Stroud Elizabeth S. A Companion to Hume. And other books like this on Hume are on the way. The profusion of reference books of this kind in recent years is something new in academic publishing. There are more than forty Blackwell Companions in philosophy alone. Oxford University Press has its corresponding Handbook of. Cambridge Companions to this or that abound. This must mean this kind of publishing pays, at least for a press that can capture and hold a reasonable share of the market. Production costs must be relatively low, since although many of the books have more than five hundred pages, and each essay is newly commissioned and written especially for its own volume, authors are paid next to nothing for writing them. The authors in this Companion to Hume are some of the best Hume scholars of the day, some of whom contribute to one or more of the other volumes on Hume. They have taken their task seriously and produced essays of very high quality. Readers will be well served. But who are the targeted readers of books of this kind? This Companion is not primarily a collection of new scholarly essays meant to advance understanding on specific critical issues in the interpretation of Hume of the kind familiar to readers of Hume Studies. The volume covers a very wide range. There is not space to mention every valuable part of it. Buckle does his best to break down a number of other aging stereotypes about Hume, some of which, one hopes, are moribund as textbook taxonomies fade away and more [End Page] attention is directed towards what Hume actually says, or does not say. Terence Penelhum also discusses Hume in relation to the French, this time in religion. He is very good on the rhetorical devices Hume used in that work to keep the present state of the nation always before the mind of the reader attending directly to goings-on in earlier times. Hume thought the inevitability of government in some form or other in any human society gave the English good reason to "cherish" a constitution that allows for the tradition of liberty they have enjoyed. Chapter 3 : Blackwell Guides to Great Works: The Blackwell Guide to Hume's Treatise - Wiley - Literati by

This Guide provides students with the scholarly and interpretive tools they need to understand Hume's A Treatise of Human Nature and its influence on modern philosophy.. A student guide to Hume's A Treatise of Human Nature.

The Guide contains fifteen newly written chapters by leading Hume scholars. Each chapter guides the reader through a selected portion of the Treatise, explaining the central arguments, as well as key contemporary interpretations of those arguments. They cover such topics as: References to the Treatise, Abstract, and Enquiries. Formulation, Reception and Scope of the Treatise: John Wright Central Michigan University. Composition, Reception and Response: Wade Robison Rochester Institute of Technology. Janet Broughton University of California, Berkeley. Lorne Falkenstein University of Western Ontario. Identity, Continued Existence, and the External World: Don Baxter University of Connecticut. Personal Identity and the Sceptical System of Philosophy: Corliss Gayda Swain St. Don Garrett New York University. The Powers and Mechanisms of the Passions: Lilli Alanen Uppsala University. Liberty, Necessity and the Will: Tony Pitson University of Stirling. Reason, Passion and the Influencing Motives of the Will: Mike Karlsson University of Iceland. Virtue and the Evaluation of Character: Jacqueline Taylor University of San Francisco. The result is an excellent introduction to one of the major works of western philosophy. Their work is authoritative, but is also very clearly presented, so that the volume will be accessible to college students as well useful for expert philosophers.
