Bleach Vol 1 starts the story of Ichigo Kurosaki, a boy who sees ghosts. An unexpected encounter with Rukia Kuchiki and Ichigo becomes a Soul Reaper, hunting evil spirits that eat the souls of humans with psychic energy.

I also think that Tite Kubo comes up with the best chapter titles. Volume one of Bleach contains seven chapters. While fighting a Hollow, an evil spirit that preys on humans who display psychic energy, Rukia attempts to lend Ichigo some of her powers so that he can save his family; but much to her surprise, Ichigo absorbs every last drop of her energy. The manga is quick to inform us that he is able to see ghosts. He returns home and we meet his family; his dad Isshin and his younger twin sisters Yuzu and Karin. Ichigo then has a fateful meeting in his bedroom – a female Soul Reaper appears. The Soul Reaper uses an ability to bind Ichigo, and then explains about Wholes and Hollows – Wholes are good spirits, whereas Hollows are evil spirits that seek to consume souls. When the Soul Reaper tells Ichigo that the Hollow was seeking him out due to his spiritual energy, he tries to get it to focus on him. With the Soul Reaper injured, she comes up with a plan. Ichigo agrees to it, and the Soul Reaper introduces herself as Rukia Kuchiki. Rukia transfers her power to Ichigo, who then becomes a Soul Reaper himself. Also present is Rukia Kuchiki, who is now playing the part of high school student. However, when Rukia shows a child spirit being hunted down by a Hollow, Ichigo saves the spirit and agrees to help her out with the Soul Reaper job. Meanwhile, Orihime finds herself being injured – something she attributes to her own carelessness, but Rukia seems to have other ideas. Ichigo returns home to discover two unwelcome visitors – Rukia, and then a Hollow. Ichigo attacks the Hollow, but his attack is too shallow and he discovers a truth about them. Ichigo arrives to stop its attack. Orihime recognises Ichigo, though the Hollow knocks him out of the window before there can be any explanation. The Hollow addresses Orihime – it is her deceased older brother, Sora. Sora is envious from Orihime spending less time praying for him, and wants to take her back to when it was just the two of them. He goes on to blame Orihime for him becoming a Hollow and says that he will kill her. However, Ichigo returns and tells Sora that big brothers are born first to protect the little ones who come after them. Orihime ends up being attacked by Sora, but she hugs him. Rukia assures him that reaping Hollows frees them of sin. Using this chance, she finally says those words. Before Orihime can ask anything, Rukia replaces her memories. The chapter ends with Orihime telling some wild tales to her female classmates, though they have a hard time believing her. Misfortune strikes almost instantly. A delinquent tries to pick a fight with Ichigo, but Chad arrives and promptly puts a halt to that. He has the parakeet in tow, and Ichigo can sense something about it. The chapter ends with Chad being admitted to the Kurosaki clinic with a huge wound on his back. Rukia suspects it was caused by a Hollow. This volume contains a couple of character profiles – one for Ichigo, and another for Rukia. This includes some interesting facts, including the person that Ichigo respects most is William Shakespeare. This will be a recurring experience, at least for this first arc.

Dec 01, Petros rated it liked it Rant mode on I hate this series more than most of anything else. Before you immediately press the dislike button for saying something bad about your religion here, let me at least try to explain why. Bleach began as urban fantasy, with teenagers being able to see ghosts and fighting to protect themselves and their friends. It was Rant mode on I hate this series more than most of anything else. It was very good in the first dozen chapters as the aesthetics were great for this sort of series and each chapter there was progress and immersion to the characters. I disliked the magical way the lead gains more power in the nick of time and wins but I was willing to leave it aside since everything seemed great as far as shounen go. The characters all had different goals, the ghosts were mostly presented as people who died with a grudge and there was school romance in the air. Very nice so far. Then the setting shifts to Soul Society, home of the Death Gods who oversee the proper handling of the afterlife. It was quite the epic arc, despite dragging things along at times. It still provided lots of immersion to many characters and the worldview of the series in general, while there was a great plot twist about the traitor amongst the captains. The lead still kept getting stronger with the speed of light but I was still willing to leave it aside as the aesthetics and the immersion were great. Then comes the introduction of the super ghosts and the Death God hybrids and the shit starts to hit the fan. Here is where the series went so downhill, I lost interest and loath ever since. Characters became caricatures whose only feature is their transforming sword, many seem to be in the story just to drag it with unimportant battles, character development became a joke. Tite Kubo clearly has no idea what he is doing anymore and keeps ass-pulling stuff, while canceling out the rules he made himself a few pages before. It could have been a fine point to stop the series there, having seemingly completed all the main objectives. But no, Kubo was making so much money he decided to keep going. And to no surprise, he again makes the story repeat in the exact same way, only this time the newer enemies are completely pitiful and superpowers degraded from awesome mystical forces that someone gains after years of training, to simple magical devises. Everybody turned from cool mystical warriors protecting the balance of the universe to lame Power Ranger imitations trying to steal magic items from one another! Same crap as before, a rehash of the SS arc, only this time the bad guys pose a threat for once. Kubo decided to finally kill a few characters instead of keeping them around without doing anything, which was a good move. He also kept asspulling nonsense, such as the very existense of the bad guys, which were supposed to have been killed of since the first arc. At this point there were over a hundred side stories happening at the same time, and the plot was going literally nowhere. The sales became so bad, that the initial plan to make the publishing of the arc lasting a decade was called off midway. Shonen Jump eventually canceled the show and wrapped up everything in a hurry, and in a way that explained close to nothing. Nobody was satisfied, everybody hated Bleach as a whole, and Kubo is still counting the money he made out of this 15 year scam. I understand that the action is good and a major magnet albeit repetitive, random and usually ludicrous in terms of looks. I understand that some characters look cool and not as close as interesting as when they where offering more than just big explosions. It is nice brain dead action of cool caricatures but nothing more. Naruto, One Piece, even Full Metal Alchemist, may have less exiting action overall but have bits of strategy in them and the story is definitely going faster and more interesting, with far more character development and immersion, and far less inconsistencies and plot holes. If I need to get into more technical details, the art is quite good, character figure and action wise. Although the overall character drawings have improved over the years, at the same time the aesthetics in atmosphere-building that made the initial chapters so great have almost disappeared, while the snail-slow plot makes even the battles to feel like mostly aimless blahblah with stiff characters instead of good choreography. You literally get 2 or 3 pictures per page and usually empty backgrounds, where nothing happens at all. You read 10 chapters in a row in less that 10 minutes and think in series time not even a minute passed. The

characters are mostly cool or funny but not at all interesting as developed personalities. I mean, the main character, an angsty teenager, degraded from a sympathetic youth to an imba warrior that keeps getting his ass kicked yet wins all the time with ass-pulling power-ups. And if the angsty lead is less interesting than a berserker secondary freak with bells glued on his hair and sole purpose to cut things just for the heck of it, you can see how this series has really messed up priorities.

Even when I thought after reading the first book there was no room for Tite Kubo to improve, since he This manga series is absolutely amazing! Even when I thought after reading the first book there was no room for Tite Kubo to improve, since he was already such an amazing mangaka. The storyline is truly amazing and still ongoing, might I add and blew me away! Especially in the filler sketches I feel as if I am rambling, but the point is, this is a truly amazing manga, and that it should be read right away! Kuchiki Byakuya I have such an intensive crush on this bastard and he has wonderful scenes on this ARC. Ichigo Kurosaki What I really like about Ichigo is that he really grew up in this series. He used to be brash and cocky he still is but he lost that idiocy stuff that most main characters have. Kisuke Urahara out of There are some mind-blowing secrets in this one and major major major changes happened in the latest ARC. I started off with the anime, but I was so impressed I went out and bought the manga, too. Being whole-heartedly American, I like my comics to have bright, flashy colors, but to make up for that, Bleach has given me plenty of chestily-endowed women to make up for the lack of flesh tones. Never, however, does it venture into the realm of unreadable though the last few episodes of the anime have been nearly unwatchable. Ichigo has been able to communicate with them since he was a little kid. Ichigo lives with his two sisters and his father. The important part in this book is when he meets Rukia Kuchiki. Rukia is a Soul Reaper that changes his life. It was love at first sight. I loved the book the moment I read it. The drawings are nice as well as the plot. The Fifteen year old Ichigo Kurosaki has the ability to see, touch, and talk to spirits. All the characters are unique in their own way. To view it, [click here](#). Bleach Volume 1 Review Manga Rating: I loved reading this so much. It was just as hilarious as the anime is. I started reading it because I just finished the anime. I really hated the ending to the anime because it was not satisfying at all. The anime was also cancelled. I feel it was because of filler. At least most of the Bleach filler is actually good. There was only one filler season that absolutely sucked, but oh well. I know the manga continued on so I wanted to start reading it. It reminds me of when I first started watching the anime years ago. This volume makes me want to watch the anime from the beginning again. For this review only I will write about the actual story line in the character section! Ichigo can see ghosts for as long as he can remember. He lives with his sisters: Yuzu and Karin and father. His mother died when he was younger. Later, he meets Rukia Kuchiki who explains that there are good and evil spirits. Wholes are the good spirits and hollows are the bad. He wants to save them. Rukia had bound him with kido which he ended up breaking. She never saw any human do that. Ichigo goes after the hollow. Rukia ends up saving him, but gets hurt. She tells Ichigo he can become a soul reaper. She lends him power, but he takes half of it. Ichigo becomes a substitute soul reaper! Rukia later appears to him in the real world. She tells him that he needs to fight the hollows. That it is his duty. They see a little ghost boy being attacked by a hollow. Ichigo decides to save him and sends him to the soul society. Now he decides to protect everyone. Ichigo is my favorite character throughout the whole series. I loved watching him grow and develop throughout the anime. She is the soul reaper of Karakura Town.

The first two, Bleach: Official Character Book 2: This book covers details about characters that appear years prior to the story, such as former captains and lieutenants, along with the Arrancars and Visoreds. Although it was released on the same day as volume 46, Back From Blind, the book only covers material up to volume 37, Beauty Is So Solitary. This book was released to promote Bleach movie: Hell Verse and it contains character sketches, promotional posters and the one-off Hell manga special. Official Character Book 3: However it only covers material up to volume 48, God is Dead. It features cover pages as postcards up to volume 60 with poems on the back. Volumes 33 and 35 have also ranked 17 and 18, respectively. Volume 37 was 8th with 1,200,000 sold copies, and volume 38 at 10th with 1,000,000 copies. He felt it was a rough start for the series with unimpressive battles, overused gags, and a bad introduction for central character Ichigo that causes him to come across "as a frowning punk" whose one good trait is his desire to protect. Despite this, Pine notes that he loves the series, particularly its quirky, lovable characters. He also said Kubo was able to avoid the worst artistic failings typical in series which indulge in superpowered combat, but that the battle scenes were still sometimes difficult to follow.
