

Chapter 1 : Barbara Beach | Open Library

Get this from a library! Book review index. Reference books, a cumulated index to more than 87, reviews of approximately 40, reference titles that have been cited in Book review index.

Reviews can often help the researcher to understand and appreciate the work reviewed. While not every book published is reviewed, the vast majority of serious academic or creative new titles are reviewed. Reviews often continue to appear up to several years after the book was published. While not every review is indexed, this listing of indexing sources should enable the researcher to locate many hundreds of thousands of reviews.

Book Reviews in General Electronic Sources The following databases include some full-text book reviews:

- Academic Search Premier Database** Academic Search Premier offers critical information from many sources, including both popular and scholarly full text articles for almost periodical titles with more than going back to or earlier. Areas of study include: Includes excerpts for many reviews. This index is selective, only listing reviews for books that have received multiple reviews. There is a four volumes cumulative index:
- Lexis Nexis Academic Database** Provides full-text access to nearly 6, national and international titles in news, business, legal, medical and reference information. Coverage includes national newspapers, international newspapers, and non-English language sources. Select Guided News Search, then U. News, and then one or more of the regional news categories, such as Northeast Regional Sources. To locate book reviews, first click on the Guided News Search button, then choose one of the four regional news selections. Select a date range that includes the publication year of your book, and hit Search. Covers six separate media types: Good source for getting reviews of recent popular books quickly.
- Ingenta Database** The ingenta Library Gateway is a searchable database of more than 11 million citations from over 20, journals in all subject areas. Electronic, fax and Ariel document delivery is available for many of their citations. UT Arlington students, faculty, and staff have access to selected full-text of journal articles for those journals the library subscribes to. Search for book reviews by clicking on the Search options button at the welcome page. Then type in your keywords, title, or author name and "book review" in the search box. Make sure the radio button next to title, keyword and abstract is checked. Make sure you check both the Online Articles tab and the Uncover Plus tab, then hit the search button.
- JSTOR Database** A collection of full text complete backfiles of over scholarly journals in African-American studies, anthropology, Asian studies, ecology, economics, education, finance, history, literature, mathematics, philosophy, political science, population studies, science, sociology, and statistics. Full text transcripts of some TV and radio news programs are also available. Every article is indexed. The scope is international, including journals in English, French, German, Italian, Spanish and other Western languages.
- Project Muse Database** Full text of nearly scholarly journals in the humanities, social sciences, and mathematics. Search for book reviews by selecting Author Reviewed or Title Reviewed as search fields, then enter the author or title in the Search For slot, and hit the search button.

Book Reviews in General Printed Sources Two of the most comprehensive printed indexes to book reviews are:

- C95** Includes excerpts for many reviews.
- A1 B6** An annual index that lists citations to book reviews in about popular and scholarly periodicals. Along with the main listing by author, there is a title index in each volume. There are four cumulative indexes that cover these years: Other General Printed Indexes: The index volumes include author, title, subject and reviewer.
- T46** Book reviews are found under the heading "BooksReviewed and Noticed" as well as alphabetically by author and title in the general listing. Book reviews can be found by author, title or subject in this five volume set, with citations that give the TLS page and the year the review appeared. Each volume has a table in the front which indicates which pages are in which issues of a given year. Although most of the reviews are in the disciplines of history, political science and sociology, there are also some reviews of books in the humanities and the sciences. Search under the name of the author of the book for reviews, or in the title index at the end if the author is not known. Locate book reviews by looking alphabetically in either the author or the title volumes.
- P7 Indexes** British and American periodicals in a dictionary arrangement. Reviews of non-fiction are found under subject; fiction, poetry and drama are under author. Author Index is volume 6. From - this was called: Index to Periodical Articles by and about Blacks. Dictionary Catalog of the Jesse E.

Particularly strong in publications from the American Colonization Society, African slave trade, and abolition. Book reviews are listed under the author, the title, and the subject of the book being reviewed. Book reviews are listed by author in a Separate section in the back. Only the latest 10 years of this index are in reference. R Provides citations to book reviews from over core humanities periodicals. S6 Provides citations to book reviews from over social science periodicals.
