Business Finance Eddie McLaney Now in its 8th edition, Business Finance is an essential introduction to financial decision making in businesses. Taking a user's perspective it explores the type of investments a.

Assignable Video Series Assignable Video Series Assignable, animated videos with 3 accompanying questions help students understand the key learning objectives. These dynamic videos are between minutes in length are especially helpful to keep students engaged and those who would like additional review outside of the text. Videos are available with select Corporate Finance and Personal Finance titles. Questions feature animated, narrated Help and Show Me tutorials for students, as well as automatic feedback and grading for both students and professors. The assignable, auto-gradable plans correlate with sections of the text and have students work through a case and apply concepts learned. Prep Courses Prep Courses Prep Courses cover the basic concepts in Math, Statistics, Accounting, Excel, and Economics, and are comprised of animated tutorial modules with quiz questions. Instructors can assign as homework or include for optional practice. Prep Courses give instructors more time in class to cover finance topics, and ensure that students do not get left behind. Assignable End-Of-Chapter Material Assignable End-Of-Chapter Material Connect for Finance helps students learn more efficiently by providing feedback and practice material when they need it, where they need it. Our assignable, gradable end-of-chapter content helps students learn to solve problems and apply the concepts in finance. Algorithmic versions allow students to practice problems as many times as they need, to ensure that they fully understand each problem. Algorithmic Problems Algorithmic Problems Algorithmic problems are auto-graded exercises using different numeric values each time a problem is served up to the student. This gives students practice in working a problem several times “ same question, but different numbers each time. This also deters cheating because each student in a class or lab receives a slightly different version of the problem and correct answer. Guided Examples Guided Examples Guided Examples provide narrated and animated, step-by-step walkthroughs of algorithmic versions of assigned exercises, allowing students to identify, review or reinforce the concepts and activities covered in class. Immediate feedback is provided so students can focus on the areas where they need the most guidance. Comprehensive Test Bank Comprehensive Test Bank Connect includes a comprehensive test bank of various question types, allowing the instructor to create auto-graded assessment material with multiple problem types, algorithmic variation, and randomized question order. For instructors, SmartBook tracks student progress and provides insights that guide teaching strategies and advanced instruction, for a more dynamic class experience. Connect Reports Connect Reports Save time and gain student insights. Connect provides customizable reports on student performance, learning outcomes, at-risk students, and integrates easily with LMS gradebooks. Connect for Finance Titles.
