About This Product. Packed with current examples and engaging scenarios, BUSINESS LAW AND THE LEGAL ENVIRONMENT, STANDARD EDITION, 7E has earned the stamp of approval from trial and appellate judges, working attorneys, scholars, and teachers for its full breadth of business law coverage.

Book Preface A New Chapter: Practical Contracts The contracts chapters in this and other business law texts focus on the theory of contract law. And that theory is important. But our students tell us that theory, by itself, is not enough. They need to know how these abstract rules operate in practice. They want to understand the structure and content of a standard agreement. Our students ask questions such as: Do I need a written agreement? What do these legal terms really mean? Are any important provisions missing? What happens if a provision is unclear? Do I need to hire a lawyer? How can I use a lawyer most effectively? These are the questions that we answer in this new chapter. As an illustration throughout the chapter, we use a real contract between a movie studio and an actor. **Landmark Cases** As a general rule, we want our cases to be as current as possible—reporting on the world as it is now. However, sometimes students can benefit from reading vintage cases that are still good law and also provide a deep understanding of how and why the law has developed as it has. Thus, for example, we have added *Miranda v. Reading* this case provides students with a much better understanding of why the Supreme Court created Miranda rights. And this context helps students follow the recent Supreme Court rulings on Miranda. Other landmark cases include: *Long Island Railroad*, *Hawkins v. McGee* the case of the hairy hand , *Hadley v. First*, faculty have told us that they are sometimes pressured to teach the CPA material, even if not really necessary, because students feel cheated if they skip a chapter. In it, we have placed topics that are of primary interest to accounting students: Certainly all professors have the option of including this material in their courses, but those who want to skip it will now have free rein to do so. **Banks and Their Customers.** We have taken this step for several reasons: Also, we felt that class time would be better spent on Practical Contracts than on a third day of negotiable instruments.
