The NOOK Tablet allows you to host many file types in its storage space. You want to make sure the files are in the right format, then you are able to transfer them through a USB connection from your computer to your NOOK Tablet for viewing. What if you have files on your desktop or laptop computer.

It has not been updated except with some images many years back. Also, how to return an ebook to Overdrive before the lending period is done. This post has been moved from an old site of mine, where it was written in December of I now have a Kindle as well as my Nook and find them very easy to use. Click on almost any image to see a full-size version pop up a few were small enough to fit in the post space. Overdrive uses Adobe Digital Editions to handle its digital rights management. You should also create a free account, as prompted, so you can authorize your Nook or other computers to read the books as well. When you create the Adobe account, you must do so with the same e-mail address and the same password as on your Nook, which is I think also always the same as your Barnes and Noble account. Mine simply asks for my library barcode. Your library system will probably give you several options. This will take you to your BookShelf. In your Bookshelf, you will probably have the option of selecting the format when you click Download: Adobe Digital Editions will download the actual ebook and open it on your computer. Click on the Library icon where the red arrow is pointing in the screengrab above to return to the library view. Your library will either display as a list of titles or as images, depending which option you toggle on the upper right-hand side. It should appear in your Adobe Digital Editions library page as shown below: Now, click on the book you want to transfer to your Nook and drag it to your Nook icon as shown below: But if you want to return the ebook before the lending period is over, either so that you can check out more or just because you want other people to have access to the ebook, you can also return it just like you would a regular book. Returning it easy in Adobe Digital Editions, but it has to be done from both your Nook and your computer. First, plug in your Nook and turn it on. If it is, go back to Adobe Digital Editions and check any of its bookshelves for copies of your book. If you have a lot of books on your Nook or in your ADE, you may find it useful to sort by date added to find the book in the list and return it. They may first order from oldest to newest, so click a second time if needed to re-order from newest to oldest. Troubleshooting Here are some helpful troubleshooting suggestions as provided by commenters. Is Your Nook Turned On? If you want to manage the books on it, you have to turn it on when you connect the USB. Do not close the ebook to look at another book or adjust a setting. Rather than powering off your Nook, only let it sleep. Do not hook the Nook up to the computer or otherwise charge it. According to one commenter, this will keep the book from expiring. A better idea is to always check out your Nook ebooks for 21 days, since you can return it if you finish early. She said that she had to move it from the Adobe Digital Editions folder into the My Documents folder. A simple cut-paste should work. This apparently turned out to be because there was already an Adobe Digital Editions folder on the Nook from a failed attempt to authenticate. They deleted it, opened ADE, plugged in the Nook again, and it prompted them to authenticate. Everything went smoothly from there. These instructions are using an older Nook, not a Nook Color, etc. It may be slightly different for those, although the principle is about the same.
