Chapter 2 : Contents - New CCNA Past Questions and Answers

I'm currently undergoing CCNA training. After that I plan to apply for the CCNA certifications. Can anybody tell me how to get sample question paper (in India). This will help me to prepare for exam side by side.

You can reveal the answers. A list of correct, wrong, skipped and revealed answers are recorded for monitoring. Accumulative statistics for consecutive attempts performance monitoring. Command line based LAB scenarios to simulate the real exam. The questions are split into 4 different exams that are much easier to attempt. The demanding nature of professional life does not allow them to study properly. If you are thinking you can work and study together and get prepared for CCNA Certification exam, higher chances are both tasks will suffer badly. It is strongly recommended that you take leaves for dedicated preparation for the CCNA certification exam, because that's what professionals do for more advanced certifications. Planned vs unscheduled Study A number of students do not schedule their study at all. Pick up the book and study whenever they feel like methodology is inappropriate for the preparation of any professional certification. There are numerous methodologies for planned studies. All of them summarize on systematic and scheduled study along with frequent revisions. Define milestones, objectives and daily tasks and achieve them effectively along with regular revisions. Switch interest or stick to the plan The freshers are found to switch their interests multiple times due to lack of confidence and fear to loss of money before they attempt the exam. This causes significant breaks in their study pattern. You should believe in yourself. You were born to win, but to be a winner you must stick to the plan. Every path has its own pros and cons. It's only YOU who make yourself stand out in any particular field. Once you understand that fact, you will be less likely to change your mind repeatedly and your motivation and dedication will be increased to achieve anything. Cisco certifications generally are deep and comprehensive in nature. They are unlike most of the professional certifications. If you are honest with yourself and have true confidence on your preparation then there is absolutely no harm to appear in the exam. But if you are taking Cisco certifications lightly, think twice. Every failure attempt costs the candidate USD approximately and a bundle of frustration and demotivation to appear again. Be honest with yourself. Make sure you have true confidence in your preparation. Being arrogant is not an option.
