Conclusions Should I conclude with a summary of my main points? Unfortunately, most college instructors label such conclusions as "weak. If you are having a difficult time figuring out what to say in the conclusion, try one of the following suggestions. Four Conclusion Ideas Full Circle reference back to the introduction Often an effective conclusion refers back to something in the introduction and expands upon it. For example, if you started with a surprising fact in the introduction, you may want to refer back to the fact and discuss it further in the conclusion. Likewise, if you started a story in the introduction, you may be able to finish telling it in the conclusion. This type of conclusion is satisfying to the reader because it suggests a sense of completeness. It also gives the impression that the writer is very much in control and is doing things for a reason. Example from an essay in which the introduction explains how the writer and her husband had difficulty pronouncing their own names because they had cerebral palsy, which caused them to give fake names when making dinner reservations and which led them to name their son "David," in part, because it was easy to pronounce: I have a simple explanation: For example, if your essay discusses the problems caused by acid rain, your conclusion might offer specific suggestions that the reader could follow to help eliminate pollution. Obviously, this will not work with all topics, but if you choose to do it, try to be specific with your suggestions. How do we not accept the myth of the ideal body? To do that we need to seriously think about how we feel about our bodies, what we believe about our bodies, and why we feel or believe that way. Do not use food to mask problems that you are avoiding or problems that are too painful for you to face. Eat a well balanced diet regularly without feeling guilty, and have food become a normal part of life, rather than the focus of your life. Often this can be done by explaining how your topic fits into the "big picture" of the larger world. That night, for the last time in my life but one-for I was a big boy twelve years old-I cried. I buried my head under the quilts, but my aunt heard me. She woke up and told my uncle I was crying because the Holy Ghost had come into my life, and because I had seen Jesus. Example from an essay about that fact that job recruiters decide whether or not to hire you based on your appearance and first impressions. The writer describes an experiment that he conducted by asking the recruiters to snap their fingers as soon as they had decided not to hire the candidate and timing them on a stopwatch: It went like this. I asked him to participate in the snapping experiment. He went out into the lobby, picked up his first candidate of the day, and headed for the interview room. As he passed me in the hall, he glared at me. And his fingers went "Snap! Sometimes you can combine two or more of these suggestions.

Next Biggest mistake in the "Universe" Beauty pageants may be full of gorgeous women, but things can turn ugly fast. Just ask Steve Harvey. In December , he incorrectly read the results card while hosting the Miss Universe pageant, and consequently crowned the wrong woman queen. Then, as Miss Colombia, Ariadna Gutierrez, celebrated her supposed victory, Harvey walked back onstage and told the crowd, "I have to apologize. The first runner-up is Colombia. The last thing I wanted to do was to bully anyone. Soldiers found a large stash of weapons in the back, including two AR assault rifles., Zuniga told police she was planning on traveling to Bolivia and Colombia with the men to go shopping. She was later dethroned for her involvement in the scandal. The young beauty queen allegedly told family, friends and well-wishers that she needed the money to pay for leukemia treatments, even shaving her head and visiting various hospitals to keep up the ruse. Weaver-Gates is now charged with theft by deception and the receipt of stolen property. She traded in her sash and crown and was jailed. Her reign was quickly tarnished, however, when Penthouse magazine published sexually explicit photographs of her taken several years earlier. As a result, Williams resigned her crown. AP Vanessa Williams comes full circle Vanessa Williams went on to have a successful career in film, television, music and theater, scoring a number of radio hits and even appearing on Broadway. Then in , three decades after she gave up the Miss America crown, she was invited back to serve as head judge for the competition. Six days later, their bodies were found buried near the spa. Ruiz confessed to shooting the two women with an accomplice and then burying the bodies in a river bank so they would decompose quicker. AP Miss Honduras murdered Ruiz apparently shot his girlfriend, Sofia, because she was dancing with another man. Honduras did not compete in the contest that year, given the tragedy. It was the runner-up -- Miss California, Carrie Prejean -- who stole the spotlight for the way in which she fielded a question about gay marriage from judge Perez Hilton. About a month after the Miss USA pageant, it was revealed that the Miss California Pageant actually helped her pay for breast augmentation surgery. To boost her confidence. We want to put her in the best possible confidence in order to present herself in the best possible light on a national stage. AP Nude pictures Then, topless photos of Prejean surfaced and controversy erupted once again. Initially, Trump and the Miss California pageant decided that Prejean would be allowed to keep her crown, saying "we have determined They countersued over her unpaid breast implants. Then, according to NBC, the legal battle imploded when pageant organizers uncovered a sex tape featuring the religiously devout beauty queen. Was Ramsey manipulated by her parents? Pictures flooded the media of the small beauty queen, made up to look more mature than her years. The strange details of her tragic case riveted the country. Sadly, though, it was never solved. In April , a Hispanic woman, named Christina Silva, won the Miss California USA contest, only to be asked to give up the title a few days later, due to an accounting mix-up. Silva in turn sued the pageant, alleging rigging and racial bias. I think my record speaks for itself. A few months later, she was killed during a shootout between Mexican soldiers and members of a drug cartel. It was unclear whether she had used the weapon in the gun battle. Rumors of drug use, underage drinking and promiscuity swirled, prompting pageant organizers to put out a statement saying, "The Miss Universe Organization and Mr. Trump will be evaluating her behavioral and personal issues to see what we can do to work with her and what we will do about her reign going forward. So, the young woman resumed her Miss USA duties after a stint in an alcohol and drug rehabilitation center.

Greenwald lives in Brazil and speaks fluent Portuguese. The result was a strongly positive page report published by Cato in April. Crime was through the roof," Greenwald said in an interview in September. The more they criminalized the worse it got. The only option not considered - because Portugal concluded it would violate treaty obligations - was full-scale drug legalization. The result was complete drug decriminalization. Drug use and possession are still against the law in Portugal, but they do not carry criminal penalties. They are considered administrative offenses - like parking tickets - and are punishable by fines or mandatory treatment. Even those penalties are rarely handed out. Police who catch drug users issue them citations calling them before a three-person "dissuasion commission," which usually consists of a health worker, a judge or lawyer, and one other official. The commission considers whether the subject is a first-time or frequent user and offers treatment options. In , 83 percent cases ended with a suspension of proceedings - no penalty imposed. The whole process takes place outside the realm of criminal law - no arrests, courts, probation or criminal records. Drug trafficking - as well as furnishing drugs to a minor - remain criminal offenses. Since decriminalization, lifetime prevalence rates which measure how many people have consumed a particular drug or drugs over the course of their lifetime in Portugal have decreased for various age groups. For students in the 7th-9th grades years old , the rate decreased from For those in the 10thth grades years old , the lifetime prevalence rate, which increased from Other age groups saw increases: If you look at the drug trends since , we have reduced in this country illicit drug use in all categories by 25 percent. When Nixon coined the term "War on Drugs" in , "60 percent of the money was spent for prevention and treatment and 40 percent for interdiction," Califano said. Marijuana use appears to have increased modestly, but remains low compared to other countries. For the period from , the proportion of the general population age in Portugal who had ever used marijuana was the lowest among E. K, and France had the highest rates - 25 to 30 percent. The Netherlands, with its famously liberal drug policies , was in the middle of the pack. The Catholic church exerts enormous influence. They are very conservative on issues like abortion and gay rights. In the Netherlands, the rate of marijuana use has risen and fallen pretty much in tandem with the rate in Europe as a whole - a rate far lower than in the United States. So far, Portugal has largely flown under the radar, even in drug policy circles.
