## Chapter 2 : Sigma Modern Series Acoustic Electric Guitar - Ron Leigh's Music Factory

*Doug Smith - Contemporary Instrumental Guitar NR. DVD. Acoustic Masters: Peppino D'Agostino's New Acoustic Guitar, Book & CD (Acoustic Masters Series) Feb 1.*

The secret of the Blueridge BR is because of the solid top combined with the forward-shifted scalloped bracing. Need a strong boom chuck bluegrass sound this is the one. Got a second that is just as good as the first being used for music therapy. Have tried many guitars that are much bigger that do not generate the sound that this size does. Played many festivals and jams and it always cuts through. I was looking for a quality guitar for travel at an affordable priceâ€”not made of wood and HPL but at least a solid top. The Blueridge BR43 fits this bill nicely. The tone is surprisingly good, and the attention to detail frets, tuners, finish has been done well. A year or two ago, I went on the hunt for a new acoustic. I played everything I could get my hands on to make the correct choice. I have owned Martins and the new ones are no better or worse than any Blueridge model. This guitar looks amazing, and has a beautiful sound to match it! This guitar sounds amazing, and is very very easy to play! I love the smaller body guitars, and with most they tend to not put out as much sound, but this one still puts out a great amount of sound! This is a great value guitar! Great build quality, straight neck, tuners are fine, VERY nice sounding. As for the not-so-good: The headstock is rather small, meaning that the B and the A strings are deflected to one side a bit by the tuning posts below them. The tuners are all just too close together. And the non-compensated saddle will be replaced with an adjusted one someday; the intonation is close enough but still off with the stock saddle. This is a good guitar. This acoustic guitar by Blueridge is an amazing tone machine in a Martin sized guitar. Warm and balanced tone, but with slightly less volume than a standard dreadnought. The Bone nut and saddle are nice additions to such a value priced guitar. BTW any classical sized case or gigbag fits this guitar perfectly. The Blueridge BR acoustic guitar delivers super-traditional sound and feel with a modern look and low price. Even at this price point, the Blueridge guitars are crafted with a solid spruce tops, hand-carved braces, mahogany backs and sides, and have a traditional dovetail neck joint usually found on more expensive acoustic guitars. It has beautiful pearl inlay work on the headstock and a sized body and slim mahogany neck making the Blueridge BR guitar easy to play.
