

Chapter 1 : Credit Suisse Careers

The ninth edition of the Global Wealth Report published by the Credit Suisse Research Institute provides the most comprehensive and up-to-date source of information available on global household wealth.

It owns the Credit Suisse bank and other interests in the financial services business. Credit Suisse is governed by a board of directors, its shareholders and independent auditors. The Board of Directors organize the Annual General Meeting of Shareholders while investors with large stakes in the company determine the agenda. Shareholders elect auditors for one-year terms, [4] approve the annual report and other financial statements, and have other powers granted by law. It also has the authority to create committees that delegate specific management functions. A Shared Services department provides support functions like risk management, legal, IT and marketing to all areas. Operations are divided into four regions: Credit Suisse Private Banking has wealth management, corporate and institutional businesses. Credit Suisse Investment Banking handles securities, investment research, trading, prime brokerage and capital procurement. Credit Suisse Asset Management sells investment classes, alternative investments, real-estate, equities, fixed income products and other financial products. Credit Suisse had its first unprofitable year in , due to losses in agriculture, venture investments, commodities and international trade. The bank created its own sugar beet factory, bought 25, shares in animal breeding ventures and supported an export business, Schweizerische Exportgesellschaft, that experienced heavy losses for over-speculative investing. As stockbrokers they were very well connected, had developed a good private client business, which at one time included John Maynard Keynes. This became known as the "burning bed" deal, because the Federal Reserve overlooked the Glass-Steagall Act that requires separation between commercial and investment banks in order to preserve the stability of the financial markets. In the s Credit Suisse executed a series of restructures. In the bank was consolidated into two entities: A third unit was added in for insurance. Under the restructuring, every board had a mix of executives from all three divisions. It also changed the compensation and commission models to encourage cross-division referrals and created a "solution partners" group that functions between the investment and private banking divisions. Credit Suisse operates a process which since uses RepRisk, a Swiss provider of ESG Risk analytics and metrics, to screen and evaluate environmental and social risks of risky transactions and due diligence. It reduced emphasis on investment banking and focused on private banking and wealth management. Being a safe haven in a world that is becoming increasingly dangerous and volatile is no bad place to be. The Brazilian government investigated 13 former and current Credit Suisse employees in It was one of 14 Swiss banks under investigation. It was the most prominent bank to plead guilty in the United States since Drexel Burnham Lambert in and the largest to do so since the Bankers Trust in When a bank engages in misconduct this brazen, it should expect that the Justice Department will pursue criminal prosecution to the fullest extent possible, as has happened here," Attorney General Eric H. Holder said at the time. At this time, it was also announced that Eric M.
