

## Chapter 1 : Just Doo-it: Children's Books to Change the World | Meridian Magazine

*Dewey Doo-it Builds a House: A Children's Story About Habitat for Humanity [Brahm Wenger, Alan Green, Jean Gilmore] on calendrierdelascience.com \*FREE\* shipping on qualifying offers. Dewey Doo-It is an energetic little guy with a heart of gold.*

Their stories were inspiring to me and I thought that inspiration might translate for kids and get them thinking about helping others instead of thinking only about themselves. Thus far, phase one consists of picture books with art by Disney animator Jean Gilmore starring a cast of Muppet-like Doo-it characters that introduce a challenge or difficulty and, often, emphasize the mission of a particular organization that can help. The first story the duo came up with involves a wheelchair-bound bird that learns to fly again after rehabilitation. Green and Wenger fleshed out their concept to encompass a musical component: She talked about it in articles for Parade magazine and promoted it in book signings, along with Patinkin and Peters. To help children understand that some people are facing difficult challenges such as hunger, homelessness and physical disabilities. To tell them about the great people working everyday to solve these problems. To nurture in each child the qualities of selflessness, kindness and compassion. To remind us all, parent and child alike, not to take our good fortune for granted. Children start thinking of helping others at a very young age. While kids are born with the potential for empathy and generosity, parents and teachers need help nurturing those positive traits. The Dewey Doo-it books help kids learn to consider the needs of others instead of putting their own needs first. Alan flew to Oklahoma and met founder Larry Jones. Each book includes a tribute to the charity it benefits, giving parents and children an opportunity to discuss real ways that people have made an impact on these pressing social problems. When Hurricane Katrina devastated the South, Feed the Children was on the scene, and Lord and Taylor wanted to add something to benefit the victims of the storm. In this book, Dewey learns of a child who only wants food for Christmas. At the same time, they are actually contributing to the cause that is talked about in the story. They feel empowered to really make a difference in the world. They just go forward with confidence, face the challenges and do it. So we decided to call our characters The Doo-its, and we hope to inspire children to follow their example. But these heart-warming characters remind us that by small means great things can be accomplished. To learn more about the Doo-its or to share these books with your loved ones, log on to the website at [www](http://www).
