Summary Part 1 The narrator opens with the idea that some people are born monsters. While some are monstrous physically, others are monstrous morally. Cathy Ames was a moral monster. She also learned to lie expertly, never getting caught. Since Cathy was an only child, her mother did not suspect her strangeness, even though her father judged her to be different. Part 2 One spring morning, Mrs. Ames heard a giggle in the carriage house at the back of the house. She went to the door and flung it open. Cathy lay on the ground tied up by the hands, her clothing bunched up around her waist. Two boys were kneeling over her. Cathy refused to talk about the incident. A doctor examined her and found nothing had been done to harm her, but he told Mrs. Ames something could have happened if she had not come upon them at the moment she did. Ames got the town in an uproar over the incident, and the boys were severely whipped and sent to a house of correction. They swore their innocence, saying that they had not tied her hands, but no one believed them. Ames was suspicious about Cathy always finding things, like purses and money; but he remained silent. When Cathy found a silver cross with red stones, her father advertised it in the Lost and Found of the newspaper, but no one ever claimed it. Part 3 Cathy was a pretty girl and a good student. She finished the eight grades of grammar school with a good record and expressed a desire to go to high school. Her parents were pleased by her choice, for they had few funds to provide Cathy with a dowry for marriage. When he was not accepted, he became dejected and depressed and often wandered in the hills. He claimed he was ill so he would not have to teach. One night Grew came to see Mr. Ames, but he would not speak to him. He told the teacher to come and see him the next day at the tannery. Ames asked who was at the door, her husband lied and said it was some drunk. He had shot himself in the head. Ames quizzed her husband about the drunken man at the door and asked if it was perhaps Mr. Ames insisted it was a stranger, Cathy smiled. She then told her mother that supposedly Mr. Grew had problems in Boston. Part 4 After her sixteenth birthday, Cathy changed so much that her mother felt like she was a stranger. One morning when her mother called her, she refused to get up and go to school. When her mother insisted that she get up, Cathy would not budge. Since she was reading Alice in Wonderland, Cathy told her mother she could get so small that her mother would not be able to see or find her. Ames lectured Cathy, but he could tell his words were having no effect on her. The next morning Cathy was not in her room, as expected. Ames checked all around town for her and found out from the railroad station manager that she had taken a train to Boston. He followed her to Boston, located her, and brought her back home the same night. Ames was so upset with her daughter that she insisted that her husband beat Cathy. He obeyed, but when Cathy cried out and begged for him to stop, he lessened the severity of his blows. After the beating, Cathy seemed contrite. Ames decided that she needed more discipline.

Part One, Chapters 6–11 Summary: Charles takes over the job of running the Trask farm in Connecticut, living alone and visiting prostitutes twice a month. One day, Charles cuts his forehead badly while moving a large boulder from his yard. Ultimately, he develops an ugly, dark scar on his face. Adam is discharged from the Army in but soon realizes that he misses life in the Army and decides to enlist again. He is sent to Washington, where he encounters Cyrus, now dressed in fine clothing and fitted with a fancy prosthetic leg. Cyrus tells Adam that he could get Adam into the military academy at West Point, but Adam insists that he just wants to go back to his old regiment. Charles is crushed when Adam does not return to the farm. After a year and several letters, Adam succeeds in reestablishing contact with his brother. The two never have much in common, however, which makes their relationship difficult. Chapter 7 After five years fighting in campaigns against Native Americans in the west, Adam again is discharged from the Army. As he slowly makes his way across the country back to the farm in Connecticut, he slips into a life as a drifter and is eventually arrested for vagrancy and placed on a chain gang. Charles is shocked to learn that Cyrus had so much money and wonders how Cyrus could have made it honestly. Charles tells the telegraph officer to ask Adam what present he gave his father before enlisting in the Army. When Adam arrives at home, he is somewhat surprised to find that he no longer feels intimidated by Charles. The brothers discuss their father and their inheritance. Adam says that he and Charles should travel to California with the money, but only after building a memorial to their father. Chapter 8 I believe there are monsters born in the world to human parents. The face and body may be perfect, but if a twisted gene or a malformed egg can produce physical monsters, may not the same process produce a malformed soul? See Important Quotations Explained Despite her innocent, childlike appearance, Cathy Ames is morally reprehensible from her earliest years. She is manipulative and selfish and learns to use her sexuality to hurt others. Later, Cathy has a mysterious involvement with her Latin teacher that leads to his suicide.

### Chapter 3 : East of Eden - Part 1, Chapters 6, 7, 8, 9, 10 and 11 Summary & Analysis

*Chapter 8 introduces Cathy Ames, the female character that Steinbeck deems a natural born "monster." It is his contention that some people in the world are born with malformed minds in just.*

Although he experienced initial distrust from his California neighbors, in time, he won their hearts. Although they never achieve wealth, the Hamilton family never goes hungry. The family consists of four boys: Liza, the mother has a will of iron. Adam joins the army, Cyrus moves to Washington D. He has an accident which results in a large dark brown scar which embarrasses him and makes him more reclusive and lonely. Although discharged, Adam cannot stand the idea of returning home and after he re-enlists his father sends for him. He finds Cyrus living luxuriously with a new prosthetic leg. Cyrus attempts to convince Adam to enter West Point but Adam returns to his old regiment. After his final discharge, Adam still cannot return to the Connecticut farm and happily wanders around the country as a hobo until he is arrested for vagrancy and placed on a chain gang. The brothers discuss their inheritance which Charles believes is ill-gained. His father lied about his past as an Army hero. Adam suggests they leave Connecticut and go to California. Cathy Ames makes her appearance in chapter eight. Although she looks like an angel with a lovely face and hair of gold, she is full of guile, unfeeling and without guilt. An only child, her parents adore her. She demonstrates an uncanny ability to lure men sexually. When she is twelve, she ensnares a group of teenage boys in a sexual peccadillo just to see them suffer punishment. A teacher commits suicide after an involvement with her. Despite their windfall inheritance, the brothers are socially inept and miserable. Although Adam represents the slain Abel, it is he, instead of his brother Charles Cain, who wanders the earth after his dismissal from the company of man by God. Cathy Ames, whose "aims" are pure evil, clearly represents Satan. Unfeeling, uncaring whatsoever, she tempts people sexually, and brings pain to everyone she encounters.

*East Of Eden Teen Fiction Holly, an 18 year old fed up teen doesn't want to live a simple life by going to school everyday, not being loved by the one she loves, and doesn't want any responsibility.*

Chapters In the beginning of East of Eden, before introducing his characters, John Steinbeck carefully establishes the setting with a description of the Salinas Valley in Northern California. As a youngster, the narrator learns to tell east from the bright Gabilan Mountains and west from the dark Santa Lucias Mountains. The weather there is cyclic: Historically, the valley was settled first by "lazy" Indians, followed by the "greedy" Spanish and finally the "even greedier" Americans. Very prolific, they work hard to raise their nine children. Liza is stern but good-hearted. Had their land been fertile, they would have been rich. As a child in Connecticut, Adam lived with his devilish father Cyrus Trask-a one- legged syphilitic Civil War veteran-his affectionate stepmother Alice, who was a timid young woman intent on hiding her tuberculosis, and a cruel younger half-brother named Charles. His own mother commits suicide after learning Cyrus has infected her with syphilis. Cyrus creates a package of lies about his heroic role in the Civil War by studying military strategy and is so convincing that when he moves to Washington D. Adam and Charles experience a difficult childhood. Although Alice never smiles in public, Adam one day discovers his stepmother smiling by herself and secretly leaves her presents that she mistakenly believes are from her son Charles. Charles feels deep resentment toward Cyrus for ignoring his birthday present, a valuable German knife, and for valuing instead the stray puppy given him by Adam. Jealousy overcomes Charles and he savagely beats his brother and leaves him close to death on the side of the road. Cyrus goes after Charles with a shotgun but in time settles down. While Adam is recuperating, Cyrus enlists him in the Army. Analysis At the beginning, Steinbeck sets up the Biblical metaphor of good vs. Evil is represented in the form of the Santa Lucias Mountains to the west and contrasted with light "good" welcoming Gabilan Mountains to the east. Here, both the Hamilton and Trask families are introduced. Although the happy Hamilton family is fertile, ultimately containing nine children, they live on the poorest, driest most barren land. On the other hand, the Trask family, which lives on the richest most fertile land, is small and almost sterile. Samuel Hamilton and Cyrus Trask represent two biblical patriarchs, Samuel the archetypal force for goodness- loving, healthy, and passionate about education-and Cyrus, a force for evil-hateful, diseased and a liar. This original incidence of sibling rivalry is mirrored throughout the novel.

When they go to look outside they see a dirty, bloodied woman lying helpless on their porch. Charles worries how it will look if two brothers are discovered with a bloodied woman in their house, but Adam insists that Charles call the doctor and carries the woman who the reader can assume is Catherine to bed. Adam cares for her passionately, and protects her from the invasive questioning of Charles and the doctor. Adam, whom we have already seen struggling with seeing the bad in people, cannot see the bad in Catherine. Charles, on the other hand, is more uneasy around her. Whatever Catherine has inside of her is something that Charles our current figure for Cain also has inside of him. Active Themes As Cathy starts to get better, Charles begins to mistrust her more and more. In a private conversation when Adam is out of the room, he tells her there is something off about her; Charles believes she is the devil. This frightens herâ€”Charles is manipulative just like she is. What does it mean to be a devil, and if Catherine is the devil, is the devil something that exists within all of us? Questions like these will inform much of the rest of the novel. Adam insists that Charles cannot make her leave; then, in a moment of shining passion, he proposes. Five days later, Adam tells Charles that he and Cathy are married. Adam responds that they are moving to California anyway. Adam is so blinded by his goodness, optimism, and love that he marries Cathy. Their marriage is an almost perfect fusion of too much goodness and too much badness. From its inception the Trask marriage is presented as a struggle between good and evil, with faults and failings on both sides. He assumes she is as enthusiastic as he is. That night, Cathy drugs him with her pain medications and he falls into a heavy sleep. While he is unconscious, she goes into Charles room. Catherine drugs him into a deep sleep, but in a sense Adam was already sleepwalking through lifeâ€”he lives and loves as if in a dream. Cite This Page Choose citation style: Retrieved November 9,

Ruddy, a human being He had formed. It was a separate plot of ground, fenced off from the rest of Eden, and planted with trees and herbs that were of choicer kinds, more fit for food, and more beautiful in foliage and blossom, than elsewhere. The word Paradise, usually applied to it, is a Persian name for an enclosed park, such as the kings of Persia used for hunting. The name "Eden," that is, pleasure-ground, occurs elsewhere, but for regions not identical with that in which the paradise was situated 2Kings Of its site no certain conclusions have been established, and probably the flood so altered the conformation of the ground as to make the identification of the four rivers impossible. But there can be no doubt that an eastern district of Asia is meant, and that the details at the time the narrative was written were sufficient to indicate with sufficient clearness where and what the region was. The rendering of several versions in the beginning instead of eastward is untenable. Pulpit Commentary Verse 8. In anticipation of his arrival, it was needful that a suitable abode should be prepared for his reception. And the Lord God Jehovah Elohim planted - i. Hedenesh, or Heden, the birthplace of Zoroaster - Kalisch. The word is not merely descriptive of the beauty and fertility of the garden paradisus voluptatis, Vulg. On the ground of possessing similar qualities, other districts and places were subsequently termed Edens: In the mean time it is simply noted that, this enchanting paradise having been specially prepared by Jehovah, there he put the man Adam whom he had formed. Matthew Henry Commentary 2: The better we take up with plain things, and the less we seek things to gratify pride and luxury, the nearer we approach to innocency. Nature is content with a little, and that which is most natural; grace with less; but lust craves every thing, and is content with nothing. No delights can be satisfying to the soul, but those which God himself has provided and appointed for it. Eden signifies delight and pleasure. Wherever it was, it had all desirable conveniences, without any inconvenience, though no other house or garden on earth ever was so. It was adorned with every tree pleasant to the sight, and enriched with every tree that yielded fruit grateful to the taste and good for food. When Providence puts us in a place of plenty and pleasure, we ought to serve God with gladness of heart in the good things he gives us. Eden had two trees peculiar to itself. There was the tree of life in the midst of the garden. Of this man might eat and live. Christ is now to us the Tree of life, Re 2: There was the tree of the knowledge of good and evil, so called because there was a positive revelation of the will of God about this tree, so that by it man might know moral good and evil. It is good not to eat of this tree. It is evil to eat of this tree. In these two trees God set before Adam good and evil, the blessing and the curse.

I want to thank every reader and every single reviewer. I love you all. I also became kind of addicted to writing HP fics, especially sad ones. Special thanks to Darkwing, who was beta-ing most of my chapters. Only this one went up without having been under her critical eye. There is a good chance of prequels, sequels or just totally unrelated fics. Instantly he was ashamed of his rudeness towards the Headmaster. I lied to protect Severus, and I never felt sorry for it. ParanormalLove Edeline was just following the nature that compelled her, but a horrible fate was sealed the day she was born. Twenty years later, she comes to find that this was not the new beginning she hoped it would be. Rejected by her family, she must decide whether to face life as the black sheep and stay with her beloved twin or realize a life she never knew existed. No one moved, breathed, or even blinked. Time was frozen, so absolutely still that she perked her ears to listen for the quiet ticking of the clock in the kitchen. Sure enough, it was there. Topaz gazes glimmered at her, unseeing. The source of this control was Renesmee. He had to be here for her, support her, encourage her and be there as a comfort. She needed him to get through this. Her chest was heavy, her lungs aching as she continued to hold her breath and it was his hand curling around hers that expelled a sigh from her lips. While it had been before their relationship had blossomed, the mere thought of another person putting their filthy, vile hands on his one true love nearly pushed him over the edge. He wanted to rip something apart, punch a wall, sate this blood-thirsty desire for vengeance. He turned his neck, stretching the muscles as if it would relax the tension that was born from his discomfort. A moment of silence passed as Renesmee considered her words. He held her tight in his embrace, rubbing smooth circles over her back. Bella shared a remorseful look with Edward, before each person at the table exchanged a glance; there was only one thing they could say. Bella stood and approached her daughter, kneeling before her. Turning her head to face judgement, bronze affliction met saffron compassion. Renesmee felt a new wave of tears fill her eyes, but it was relief that flooded her heart. Renesmee killed someone in a drunken blood lust, as punishment she received hugs and kisses. Eden killed someone as an ignorant child and as punishment, was locked away in a basement for twenty years. Eden knew what Ness did and knew how they would handle it, but how did she have them figured out after such a short time in their presence? She was wise beyond her years, only to grow more intrinsically educated. He heard what happened moments before, the story and the response. As a man born in that common reality, he thought it odd that he found strong-willed independence fascinating and felt it held more substance than an easily placated flower. Intelligence over loveliness was uncommon, but he had found loveliness was a mirage that only lasted until the pretty lips began to bore him every time they attempted to elicit excitement. With Eden, he colored himself a man of extreme karma. She had more to offer than just her exquisite beauty, something he had originally thought to say so much of a person and yet, it said nothing of her. Who she was was thicker than skin, buried so deep within her and completely apart of everything that made her an individual, one that had distracted him time and time again. Never in his life had he been so content and felt such completeness in his heart. Of all things he expected of his assignment, finding someone so perfectly crafted for him had not been on the list. He wondered briefly if he had found his mate, but brushed the thought aside. Such notions would tie him to an expectation and something he learned about Eden was that she never did what you would expect. Quite the opposite, and by lord, he admired her all the more for it. His gaze wandered to look at the beauty beside him, his eyes caressing her pearl complexion. Though beads of rain dripped down her cheeks, dampening her clothes, and her shoulders were worn down from heavy burdens, she glimmered like an angel under the pale sigh of the fading sun. The immortal man was left breathless by her enchantment. Feeling the weight of his wonder, Eden met his eye. Truly interested in what he was thinking, she attuned her senses to the quiet hum she felt within. She expected to hear his thoughts, or see what he saw as he gazed at her, but instead, the world turned to gray around them; she saw only him and what he felt in brilliant colors. She saw him surrounded by a lavender cocoon of serenity, painted with peach thrashes of admiration, soft violet-colored fondness, and lined with silver thoughtfulness. She could smell his loam complacency, and was refreshed by the taste of his cool satisfaction. When he smiled at her, his colors gleamed brighter, the radiance stealing her breath. She smiled back when she realized that he was just as tangled in her as she was in him. Your review has been posted.

Judging by the differing reactions of the various Juizes, the AIs appear to be independent entities, but initialized from the same generative code base. In episode 10, a woman appears at ATO headquarters with the same voice and manner of speech as Juiz; this serves to cast doubt on whether she is actually Juiz or whether her voice and personality if not her memories simply were used as the model for developing Juiz.
