The Inter ctive Pager was a clamshell -type device that allowed two-way paging. The very first device to carry the BlackBerry name was the BlackBerry , an email pager, released January 19, Although identical in appearance to the , the was the first device to integrate email and the name Inter ctive Pager was no longer used to brand the device. The first BlackBerry device, the , was introduced in as a two-way pager in Munich, Germany. In , the more commonly known convergent smartphone BlackBerry was released, which supports push email, mobile telephone, text messaging, Internet faxing , Web browsing and other wireless information services. The original BlackBerry device had a monochrome display while newer models installed color displays. All newer models have been optimized for " thumbing ", the use of only the thumbs to type on a keyboard. The Storm 1 and Storm 2 include a SureType keypad for typing. Originally, system navigation was achieved with the use of a scroll wheel mounted on the right side of device models prior to the The trackwheel was replaced by the trackball with the introduction of the Pearl series, which allowed four-way scrolling. The trackball was replaced by the optical trackpad with the introduction of the Curve series. Both models consist of touch screens: Following the announcement, BlackBerry announced an acceptance of the offer provisionally but it would continue to seek other offers until November 4, Chen , the former CEO of Sybase. The Priv could also be upgraded to 6. BlackBerry chief security officer David Kleidermacher stressed data security during the launch, indicating that this model included built-in malware protection and encryption of all user information. The device features a 5. Intellectual property litigation s [edit] NTP Inc case[edit] In NTP sent notice of its wireless email patents to a number of companies and offered to license the patents to them. This court is well known for its strict adherence to timetables and deadlines, sometimes referred to as the " rocket docket ", and is particularly efficient at trying patent cases. The judge, James R. The injunction and other remedies were stayed pending the outcome of the appeals. Negotiations broke down due to other issues. On June 10, , the matter returned to the courts. The prior granted injunction preventing all RIM sales in the US and use of the BlackBerry device might have been enforced by the presiding district court judge had the two parties been unable to reach a settlement. The DOD also stated that the BlackBerry was crucial for national security given the large number of government users. On February 9, , RIM announced that it had developed software workarounds that would not infringe the NTP patents, and would implement those if the injunction was enforced. The agreement eliminates the need for any further court proceedings or decisions relating to damages or injunctive relief. Following a joint stipulation by the parties, the arbitration panel has issued a final award providing for the payment by Qualcomm to BlackBerry of a total amount of U. There were three prior attempts at opening BlackBerry stores in Toronto and London UK , [52] but they eventually folded. Paul , Philadelphia , Houston , and Newark , [54] but several have been slated for closing.
