

Chapter 1 : 25 Grammar Lesson Plans to Help Your Students Succeed | Scribendi

The Hero Awards ESL lesson plan is a great way to get your high school students thinking deeply in English, as well as having them think about what values a good person has. This is an invaluable exercise for life during and after high school.

Students will be able to explain literal and figurative meaning of idioms. Introduction 5 minutes Gather your students together and explain that today they will be working with figurative language. Explain that figurative language is a word or phrase that does not have its normal everyday, literal meaning. Tell students that writers use figurative language to make comparisons, and to help the reader create a more vivid picture of the text. Ask students what "a piece of cake" means. Display a picture of a piece of cake on the whiteboard. Ask students to describe the experience of eating a piece of cake. Guide your students toward answers such as enjoyable, easy, fun, delicious, etc. Record answers on the board. Explain that when someone describes something as being "a piece of cake," they mean that it is easy. Tell your students that "a piece of cake" is an example of an idiom. Give your class several other examples of idioms and their meanings. Pass out a copy of the Idioms set to each student. Review the literal and figurative pictures for the "under the weather" idiom. Discuss the meaning of "under the weather" with your students. Great discussion questions include: What does under the weather mean? Why do you think someone would say that about feeling sick? Write a sentence using "under the weather" correctly on the board. Instruct each pair of students to choose two idioms from the lists at the bottom of the Common Idioms worksheet. Tell your students to illustrate the literal meaning and figurative meaning of each of their chosen idioms. They must also write a sentence at the bottom of each picture to explain the idiom. If time permits, gather students together so they can share their pictures and idioms. Independent working time Instruct your students to complete the Idioms: A Figure of Speech worksheet. Students in need of a greater challenge should find and illustrate idioms from their independent reading books. This will help students begin to grasp the concept of figurative language. Discuss how using metaphors can make writing and reading more interesting, and that context clues can be used to figure out what unknown idioms can mean. Supply pictures showing literal interpretations of idioms and figurative meanings side-by-side. Concentrate on having the student describe the relationship between the two meanings. Assessment 10 minutes Collect the Idioms: A Figure of Speech worksheet to check to see if your class understands the concept of idioms. Circulate as students work and question their conclusions about various idioms. Review and closing 10 minutes Have students gather together. Review the definition of idioms. Have students share a favorite idiom they would like to use in a future piece of writing. Ask how idioms help writers improve their writing. Word Meaning 2 Guided Lessons are a sequence of interactive digital games, worksheets, and other activities that guide learners through different concepts and skills. They keep track of your progress and help you study smarter, step by step. Guided Lessons are digital games and exercises that keep track of your progress and help you study smarter, step by step. Words are the wondrous building blocks in language. Learners will also discover some of the ways words are constructed using derivational root words, prefixes, suffixes, and compound words. Students will get to explore and create fun literary devices such as similes, idioms and metaphors. This lesson includes printable activities: Download all 5 Exercise: Reference Materials for Word Meaning 2 Exercise: Compound and Hyphenated Compound Words 1 Exercise: Synonyms and Antonyms 2 Exercise: Homophones and Homographs 2 Game:

Chapter 2 : Great English Lesson Plans for High School: Ninth, Tenth, Eleventh & Twelfth Grade

Find free high school English language arts lesson plans, teacher resources and curriculum in grammar, reading standards, writing, & speaking & listening.

Receive free lesson plans, printables, and worksheets by email: An Active and Passive Voice - Students identify verbs in a variety of contexts. Chapter 3 : Developing Effective ESL Classroom Activities for High School Students

The Web-based lesson plans below are appropriate for ESL/EFL students in continuing-education programs, as well as for students in middle school and high school. Use one of the featured lessons or try one of the additional lessons found at each site.

Enriching Your Instruction Whether you work with a predesigned curriculum or assemble your own, free lesson plans can enrich your instruction, help you address an isolated skill, or reinforce a concept. Choose from beginner, intermediate, or advanced levels. Other selection options include printable quizzes, multiple intelligences, grammar, listening activities, pronunciation lessons, writing, reading, vocabulary, conversation, and lessons for children ELLs. The only issue with the About. You have to click through several links to get to the actual lesson. Englishpage While many sites offer quick activities for children and simple lessons for beginners, the lesson plans and tutorials on this page are for more advanced learners. There is a page devoted to Mini-Grammar Tutorials [http: ESL Flow](http://ESLFlow.com) The quick, simple layout of this resource allows you to select lessons based on target English skill, academic skill such as critical thinking, brainstorming, and classroom language , and topic. Once you enter your general search topic, the results page further refines your search by sorting lesson plans and activities into categories. The one downside is that the search and results pages contain several ads. Each section is further broken down into vocabulary, listening exercises, reading passages, conversation activities, and grammar lessons. Free ESL Flashcards Quick drill activities often require print or visual reinforcements such as flashcards. The categories open up to several subtopics, each one with a thematic unit covering related vocabulary, quizzes, listening activities, reading activities, grammar, conversation questions, links, and topics. A teacher can pull up an isolated lesson or teach a complete unit with these mini-lessons. They also build in complexity when followed in sequence. Lanternfish This site offers several resources , but a particularly entertaining section is the Conversation Question Prompts page. The printable worksheets contain several intriguing questions on a single theme, with some of the prompts being simpler and others more abstract to encourage critical thinking by more fluent ELLs. Among the categories for discussion prompts are sleep, dreams, and nightmares; emotions; weather; sports and leisure; school; book, movies, and the media; mishaps and mistakes; customs and traditions; city and country; seasons; and clothes and fashion. The Lesson Planner section contains regularly updated daily, weekly, and monthly lesson activities. Unlike some of the other lesson-planning resources, the files listed here tend to be full lesson plans with introductions, background objectives, step-by-step instructions, assessments, and suggestions for further activities. Note that the files on this site are not sortable by grade level or English fluency level. Refine your results by age of students, English fluency level, type of lesson, or keyword. Navigation here is quick, but the pages contain many ads. Using English Here you find over downloadable PDF lesson plans and worksheets that you can sort by level, grammar topic, or theme. You can also see the most recently added lesson plans and worksheets. The content here is not as broad or deep as some of the other free ESL lesson plan websites. Tools for refining search results, along with advanced search features, allow you to plug in multiple key words or an exact word or phrase. You can also narrow your results by language, reading level, and file format.

Chapter 4 : Lesson plans | calendrierdelascience.com

High School English Lesson Plans, Grades Finding engaging English lesson plans for hard-to-impress high school teenagers is no small task. Here you will find hundreds of helpful teaching ideas, units and themes that can be used for a range of grades and abilities, including AP English suggestions.

In addition to learning the language and culture, they are also involved more with their peers, in their community and they may be thinking about their post-high school education and employment plans. ESL classroom activities for high school students can provide the help these students need to perform well in society. No matter what the background is of your ESL students, they need help with vocabulary words, idioms, asking and answering questions and confidence building in order to be successful in and after high school. Students in this position are feeling a lot of pressure to: Identify who they are now and balance that with their cultural identity Fit in with their peers Communicate well in their community Maintain good grades Sort through their diverse interests for future employment and education These are major issues that should not be taken lightly, and they are all intensified for ESL students. Both academically and culturally, ESL students have struggles that their native speaking peers do not share. As a result, you need to implement teaching strategies that address these challenges and seek to overcome them. Strategies to Use in the Classroom Quite a number of useful tips can help to guide you toward developing the right teaching strategies, lesson plans and activities for your high school ESL students. Concentrate on Vocabulary, Not Just Content In high school, students have a multitude of subjects to explore. From geometry and chemistry to literature and creative writing, their classes range across the spectrum. Teachers in the various subject areas must understand that ESL students: May recognize the content and concepts they are teaching based on what they have learned before entering the classroom. Are probably struggling with the vocabulary of the subject. Are not familiar with clichés and idioms used in English. Are not familiar with common knowledge and traditions learned in earlier years by students who were born in the United States by reading or seeing television programs discussing topics like American Indians, Thanksgiving, the Civil War, Abe Lincoln and George Washington. Are likely to understand visual aids used, even though they may struggle with the vocabulary printed on the visual aid. Therefore, teaching vocabulary before starting to teach a concept, as well as avoiding clichés and idioms, are crucial strategies for classroom success with ESL students. Provide Scaffolding for Reading and Writing At this point in their educational careers, high school students are involved in fairly in-depth reading and writing activities. They are likely reading novels and learning how to write a research paper. For students who struggle with English vocabulary and grammar, these tasks are particularly challenging. Therefore, you must scaffold reading and writing activities. Ideas for scaffolding in reading include: Previewing the story Explaining elements of the story Reading the story chapter by chapter Ideas for scaffolding in writing include: Brainstorming as a class. For example, the class could discuss a series of news clippings before the students begin their individual assignments. For more details, check out the lesson plan at the top of this article for Current Events News Reporting. Creating individual outlines Crafting rough drafts for revision before producing a final copy These strategies help to break down the processes and make them more manageable for ESL students. He or she is unlikely to understand a decent portion of what you are saying. Instead of just speaking at your students, add visual aids to further explain your point. A poster with plates of food beautifully illustrates the proper nutrition that a person should have. A video can clearly show how pollution affects the environment. When you give out assignments to your class, do not always ask them to write something or orally present in front of the classroom. Instead, you can ask that they put together a PowerPoint presentation, draw a picture or make a model to demonstrate their ideas. Having the students draw a picture or play an instrument can be fun ways for students to interpret what they are learning and seeing using skills with which they feel comfortable. History teachers can tell students about an event, teach them the vocabulary of the event, show them pictures or movies and let them ask questions. Then, instead of a written assignment, the teacher can ask the students to pick part of the event and illustrate it. English teachers can read poetry to students, teach them the vocabulary and then ask them to illustrate the poem or its meaning with a drawing or

by playing a musical instrument. **Build Their Confidence** If students are afraid to participate in the classroom discussions or believe that every answer they give is wrong, they are never going to get the confidence that they need. Ask questions that have been asked in previous classroom discussions, so they have the confidence that they are right. When they are correct in their answers, be sure to praise them. Be sure to note improvement in writing assignments. You want your ESL students to feel as though they have progressed. **Creating Activity Modifications** When you are developing effective classroom activities for high school students, you can make modifications to assignments for the ESL students: You might assign a word essay to the native speakers, but you may reduce it to words for the ESL students. Give ESL students a word bank to use when you ask the class to write a poem. Instead of developing an outline from scratch, give the ESL students a template with some parts already filled in. When the class has a writing assignment, ESL students with very minimal English skills can be given a completed paragraph, story or essay with words or whole sentences missing, plus a word or sentence bank which they can use to fill in the blanks. Remember that students are expected to meet certain standards, and they may have to pass important state tests at the end of the year. Without passing these state tests, they might not be able to graduate high school. Do not make so many modifications that you limit their knowledge-building. Following these tips will help you to better develop lessons for high school classrooms containing ESL students. Your Dictionary definition and usage example.

Chapter 5 : English Activities for High School You'll Want to Try Right Now

High School ESL Lesson Plans. To say keeping teenagers engaged in their education can be a struggle is an understatement. This list of lesson plans can help you prepare for the weeks ahead by supplementing any syllabus with educational and interesting topics.

Brooke Naumoff on December 22, Engaging middle and high schoolers can sometimes be tricky. How many times have you planned what you think is a cool and exciting lesson, only to walk away feeling pretty bummed and discouraged when your hip activity is a bust? At others, I hit a home run. Here are my favorite English activities for high school. Read, solve, and create murder mysteries. My students in both middle and high school love true crime. Once the premise of the mystery is determined, students create their own case files, evidence, and clues for their classmates to solve. This activity is also an excellent support for students who struggle with finding a starting point. Then discuss them together. And so far, my students have reported really enjoying them. I usually prepare questions for them to answer as they listen, and then facilitate a discussion afterward. In my classroom, this sometimes leads to mildly heated debates, which is a learning experience in and of itself. By encouraging them to be leaders in discussing specific book chapters, they take ownership in a whole new way. Throw parties with a purpose. I divided my students into small groups to do research on their assigned topic historically accurate fashions, refreshments, ambiance, guest list, etc. The students were responsible for assigning each other parts, complete with instructions on how to dress and what food or beverage to bring. They even provided each participant with a lexicon specific vocabulary to use at the party. This assignment was fun, and it also covered many standards, which is a win-win for me! Give speeches as characters. After watching a number of TED Talks and studying what contributed to an effective performance, my students wrote and delivered speeches of their own. They drew prompts for characters with different occupations giving different types of speeches e. I found that my students were much more confident and comfortable speaking when given permission to act like someone else. This activity was a hands-down favorite event for my 8th grade students. Those speaking and listening standards can be tough to master, and this assignment helped us get there. What are your favorite English activities for high school? Please share in the comments below! Posted by Brooke Naumoff Brooke Naumoff is a high school English teacher who aims to make her students and coworkers laugh as often as possible.

Chapter 6 : Free ESL (English as a Second Language) Lesson Plans to Download - calendrierdelascience
