## Chapter 2 : Chilton Repair CD-ROMs

*OEM Factory Service Manuals are published by the original equipment manufacturer of the vehicle. These are the same manuals the dealerships use to do factory repair work. These are the same manuals the dealerships use to do factory repair work.*

These are the same manuals the dealerships use to do factory repair work. Information contained within eAutoRepair is based upon factory service information. Next we will discuss the types of service manuals published by other oem companies. Some vehicle manufacturers, such as Chrysler, LLC manufacturer of Chrysler, Dodge, Plymouth, Dodge, Jeep and former distributor of Mitsubishi publish multiple auto repair manuals for each vehicle, each year. Factory Service Manual that includes Wiring Diagrams, Powertrain diagnostic manual, transmission diagnostic manual, body diagnostic manual, chassis diagnostic manual, automatic temperature control diagnostic Manual. In general, this group of manuals is used to diagnose, repair and rebuild a particular year, make and model Chrysler vehicle. The vehicle brands manufactured by GM include: In general, GM publishes the following factory service manuals for its vehicles: For example the Chevrolet Corvette FSM is repair information is contained in two large manuals and sometimes an extra supplement manual. Ford Motor Company produces factory service manuals through Helm, Inc. The Ford manuals available for vehicle repair and diagnosis are broken into the following types: Ford Motor Company has owned and manufactured vehicles under many different nameplates, they brands Ford owns or owned are: Ford stopped producing paper versios of its factory service manuals in Jaguar for example, does not sell Factory Service Manuals to the general public. The only way to buy Jaguar factory repair information for newer Jaguars is through the eAutoRepair Online Subscription we sell on our website. Jaguar may have it own subscription available, but we are not aware of it. Now, much of the factory information is only available as an eAutorepair subscription, or as a subscription from the manufacturer. The only exception to this rule of not publishing factory repair manuals is Mercedes-Benz. We do sell some of these manuals on this website. However, the Asian manufacturers generally charge excessive prices for the service manuals, so they are difficult to find used because so few have ever been purchase. The amount of repair information required to repair modern vehicles as skyrocketed in recent years. The layer of electronic features on a vehicle grows every year. This means the factory service manual is more and more complex and the diagnosis of a particular problem requires more special tools and advanced repair information. The types of factory manuals we sell can be summarized by the following list:

## Chapter 3 : All European Autos - European Cars repairing center in Jupiter FL

*The leading provider of original equipment manufacturer (OEM) auto repair information for the professional automotive service industry.*

From managing Repair Orders to Scheduling and Targeted Marketing, Master Repair is the leading solution to profitability and efficiency. We provide hands-on training to ensure a quick and seamless transition into the modern era. What our clients say We researched over twenty different software solutions. We decided on Master Repair because of their willingness to listen. We have a phenomenal relationship with their team, and they are always looking for ways to help improve the profitability and productivity of our business. We highly recommend Master Repair. I am not computer savvy so when I run into problems I know technical support is only a phone call away. It is very comforting to speak with someone who I can understand, very friendly and get to root of issues quickly. Most importantly, the Master Repair team is very committed to my business. They are constantly listening and improving their software through our input. We strongly recommend Master Repair. Master Repair has dramatically improved the ease with which we run our business, particularly in the areas of organizing a customer database, checking cars in and bookkeeping. The integration with Quickbooks is an amazing time saver! We are very happy to be using Master Repair. My customers have found it extremely easy to sell their cars through their site. The Master Repair team was very hands-on when it came to setting me up to start using their system. Yadira got back to me right away and made the transition very simple. It has simplified my work day a lot. Other shop owners who have come by have commented about how easy it looks to use and how efficient the system is. It makes pulling invoices for customers really easy as well. I can go back to any client I want to and pull up old invoices for any job. I have never had any issue teaching new employees how to use the software. As soon as they start they can get right to work and not spend a week learning the system. Super easy to use!
