

### Chapter 1 : Excel Contracting: Programmer & Consultants for Excel Support and Services | Excel Experts

*Que has gathered the top experts in the field to tackle high-level Excel topics and programming. With coverage of spreadsheets, external data manipulation, high-grade queries, forms, reports, and more, this is a one-stop resource no professional Excel user or developer will want to be without!*

If you need a Microsoft solution then we can help your company. Using remote access though, we service the whole of Australia and New Zealand, with our clients ranging from multi-national corporations to small businesses and individuals. Read our testimonials to know what our clients have to say about us. Our goal is to provide high quality solutions and personalised customer service. It is our objective to exceed your expectations and be acknowledged as your very own Office and Microsoft Expert. Once you decide to take advantage of our services, we will carefully customise our services to perfectly match your requirements and keep you informed every step of the way. In the long run, it is a win-win situationâ€”nothing to lose and everything to gain. And after all, your success is also our success. We had a pretty loose design to begin with and David helped us refine the solution. During the delivery stage we were able to submit revisions for discussion and improvement and David was more than happy to help. We have been using their services for the last 3 years and would recommend them to anyone. Primarily the software was designed to enable our property inspectors to collect onsite data and upload to a back-end database from the field, therefore removing the need to go back to the office to manually upload the data. The secondary phase of our IT development was to create a program that could analyse and process the uploaded data with minimal input, a feat successfully achieved by Office Experts. From our experience the staff at Office Experts have often gone beyond expectations. Their commitment to the project and their drive to deliver the end product is achieved through professionalism, experience and a solid work ethic. This enterprise tool was successfully implemented in the organisation and has received some great feedback from our risk professionals. Great customer service was provided by Office Experts Group. We highly recommend them to anyone requiring support. This has all but eliminated the need for time consuming proof reading and cross checking of raw data. I highly recommend Word Experts and Excel Experts to provide solutions using macros for your day to day operations.

Jayson Cohen Social Security Administration I want to thank you and David for providing me with such a great training experience. It was a pleasure to work with my instructor David; he explained concepts and solutions to problems in detail and made sure I understood them before moving on to new topics. The training conducted via computer screen sharing made my training experience quite comfortable. David opened my eyes to a much leaner and faster way of coding. I was very impressed by his vast VBA knowledge. He provided excellent alternatives to tackle the many issues presented. I look forward to using your services in the future in order to advance my VBA knowledge, and I sure hope to get David as an instructor again. I will refer your training services to co-workers and other components for all their VBA needs. Delivered to me the following morning as I had requested, I received my order for an Excel program that far exceeded my expectations. I literally received something that could be sold on the market as a piece of software. It was clean, highly professional, and incredibly easy to use. Furthermore, they worked with me in a matter of minutes to tailor it even further to my specific needs. All around great service, and I will most definitely come to them, and only them, for all my programming needs. Talk to you guys soon. I contacted Christopher at 9. I asked for an Excel VBA solution and they quickly delivered the workbook within an hour. It was really a great experience to work with Christopher and hopefully I will have the opportunity to explore further. I recommend Christopher and the rest of the team at Excel and Access experts. Kumar, Senior Executive, Amazon. Fennell in to improve our financial planning model by setting up Access databases to process the huge amount of data we deal with on daily and monthly basis. He also did a great job training all our individuals to maintain the databases and make changes as our business needs evolved over the years. I highly recommend Mr. Fennell and his company to anyone who is looking for an expert, knowledgeable consultant. Great Results, Personable, Expert. I was confident each time I threw another task his way that he would be able to work his magic and deliver outstanding results! We have shared our revised scorecard with Sr. Leaders in our organization and have received very positive feedback. It has been such a pleasure working with both Paul and Christopher â€™ and I looking forward to working with them again in the future! I would take me over an hour per day to update some information and have to build a time line manually on about lines each day. As you can imagine it was not very fun. HP Red Bull North America Christopher and his team performed superb work while supporting our business planning process. He and his team helped create a fully integrated planning tool and subsequent Rollups which has helped us manage our business effectively. I would highly recommend his company for any work needed in Excel or Access: Quick, accurate, and reliable. I want to first say that Jacob has done a stellar job with the business planning tools so far. We enjoyed our engagement with them on a special project. They were flexible, nimble and able to meet our very high standards, requirements and tight deadlines. They were available and met the deadlines comfortably. We would hire them again if need arises. They care about their clients and made sure we were satisfied with the completed work. They will deliver a sophisticated solution, on time, to automate any need via Microsoft Excel or Microsoft Access. LinkedIn Are you going to risk the successful completion of your project by hiring an individual off of a discount freelancer website or are you going to hire a firm that has been in operation for nearly 25 years, a firm Microsoft hires when they need help?

## Chapter 4 : Microsoft Certified Solutions Expert (MCSE) Certification | Microsoft Learning
