

## Chapter 1 : Florida Science Fusion [Grade 6] | Bookshare

*Florida Science Grade 6 Home > Florida Science Grade 6 Welcome to Florida Science Grade 6. Find activities and resources for each unit. Chapter 1: Nature of Science.*

Print this page This guide will support parents and families with children in Grade 6 Science by helping you: Florida students will continue to practice many of the same things you learned in middle grades, along with some important additional skills. Grade 6 science students are learning about: Interactions between the atmosphere and the hydrosphere. The Composition of the different layers of our planet and atmosphere. Classification of living things. The Structure and function of cells and organs. Support Learning at Home Regardless of the grade level or school your child is in, you can encourage learning middle grades science at home in ways that are fun for you and your child. Try these ideas after school, on weekends and during the summer: Ask questions about science topics and define problems. For example, how might mountains change over time, what forces could have formed the Grand Canyon or how is the knowledge of forces essential for designing bridges and building? Plan and carry out investigations. For example, what types of plants hinder erosion at home or how can we reduce erosion at the beach? Analyze and interpret data. For example, how many active volcanoes are in different regions of the planet, when might an earthquake occur based on earthquake data, what types of energy resources are available in different parts of the world or why is wind energy not always a useful alternative for energy production? Engage your child to provide arguments on science issues from evidence. For example, how are plants different than animals or can a virus be considered a living organism? Allow your child to obtain, evaluate and communicate information on science topics. For example, develop and present on a topic of relevance to the community or at a family gathering. Access student resources aligned to the standards at <http://> Every child develops at their own pace. The activities in this guide are recommended age-specific guidelines for growing young minds.
