Google has rebranded its smartwatch OS, moving away from the Android moniker to account for the high number of iPhone users wrapping a Google-powered wearable around their wrist. But name aside, everything else is the same. Wear OS can be a complicated and frustrating beast at times, even if your smartwatch is running the latest software. Understanding your smartwatch What is Wear OS? The absolute basics are this: And it helps if your phone, Gmail, calendar and maps are all under the same “ or linked “ Google accounts to get the most from the Wear OS experience. Our comprehensive guide to Wear OS goes into a lot more detail on the operating system, features, Google Now and apps. But it can be tricky for beginners to know which step to do first “ when do you turn Bluetooth on? Our guide to setting up and connecting Wear OS takes you through it step by step with tips on which settings to dive into first. So you can certainly your Google and iPhone fix with our handy guide to setting up your Wear OS watch with iOS and making the most of the features on offer. We also take you through the new iPhone app to smooth out any initial quibbles you might have. Remember, Wear OS 2. Picking the best watch face One of the first things you will do once your smartwatch is paired is to swap out the watch face for one that suits you. Every Wear OS watch has a few pre-installed faces, which you can access by pressing and holding on the watch face screen then swiping through them. But things get more interesting when you head to Google Play to download free and paid-for watch faces from indie developers and designer names. From Gundam to weather to creating your own, the selection, which now includes interactive watch faces, has options to suit both round and square smartwatches. Choosing the best Wear OS apps With more than 5, apps and games available to use with Wear OS, there should be something for everyone. As ever, check out reviews and star ratings on Google Play for guidance, but a lot of these apps are free and so worth a punt to try them out on your wrist. To help you sift through the tat, be sure to check out the best Wear OS apps you can download. How to use voice on Wear OS Feeling a bit shy about talking to your smartwatch? So what can it do? Here are some conversation starters to get you going with voice commands on Wear OS. How to get music on Wear OS Controlling the music on your Android smartphone is one thing but did you know you can store your own music on Wear OS smartwatches?
