The earliest known Ugarit contact with Egypt and the first exact dating of Ugaritic civilization comes from a carnelian bead identified with the Middle Kingdom pharaoh Senusret I, 1975 BC. However, it is unclear at what time these monuments got to Ugarit. In the Amarna letters , messages from Ugarit c. The Mitanni was a loosely organized state in northern Syria and south-east Anatolia from c. Founded by an Indo-Aryan ruling class that governed a predominantly Hurrian population, Mitanni came to be a regional power after the Hittite destruction of Kassite Babylon created a power vacuum in Mesopotamia. However, with the ascent of the Hittite empire, Mitanni and Egypt made an alliance to protect their mutual interests from the threat of Hittite domination. At the height of its power, during the 14th century BC, it had outposts centered on its capital, Washukanni , which archaeologists have located on the headwaters of the Khabur River. Eventually, Mitanni succumbed to Hittite, and later Assyrian attacks, and was reduced to a province of the Middle Assyrian Empire. The Israelites were an ancient Semitic-speaking people of the Ancient Near East who inhabited part of Canaan during the tribal and monarchic periods 15th to 6th centuries BC , [22] [23] [24] [25] [26] and lived in the region in smaller numbers after the fall of the monarchy. The Amorite dynasty established the city-state of Babylon in the 19th century BC. Over years later, it briefly took over the other city-states and formed the short lived First Babylonian Empire during what is also called the Old Babylonian Period. Akkad, Assyria and Babylonia all used the written East Semitic Akkadian language for official use and as a spoken language. By that time, the Sumerian language was no longer spoken, but was still in religious use in Assyria and Babylonia, and would remain so until the 1st century AD. The Akkadian and Sumerian traditions played a major role in later Assyrian and Babylonian culture, even though Babylonia unlike the more militarily powerful Assyria itself was founded by non-native Amorites and often ruled by other non-indigenous peoples, such as Kassites , Arameans and Chaldeans , as well as its Assyrian neighbours.
