

## Chapter 1 : Elton John - Goodbye Yellow Brick Road at Stanton's Sheet Music

*Print and download Goodbye Yellow Brick Road sheet music by Elton John. Sheet music arranged for Piano/Vocal/Guitar in F Major (transposable).*

If you are really here in this level, you play piano nice, you can see that the songs here have a "moving line in the bass" and you need to be able to read the bass notes faster, other wise it will take you a long time to play one song in this level. You need to be able to play one song per week, so you have to study more, there are many nice songs, but as you can see, now you can actually play almost any song, as long as is not too fast. The best way to learn this song, or any other song, is to watch the video at least 10 times, if it is necessary, please watch the video more times, until you feel that you understand the song, and you are familiar with the tune. Concentrate on the movement of the keys on the piano first and then look at the actual notes on the staff, feel the music and try to sing along with it. Once you start to play the song, feel free to come back to watch the video more times. First see the chords in the left hand, than play the melody. Once you are familiar with the song, and how it sounds, then print the music score PDF below. Now, with the actual music sheet on your hands, play the video a few more times and put your eyes on the paper, and read along with the music. Listen to the song while looking at the music sheet. Count the measures in the song, the same as you did it in the previews levels. Now the bass notes are very important, please read the notes carefully and play the video and try to play along only with the left hand, to make sure you are playing the correct notes. Read the notes on the left hand. If you can not read the bass clef good enough, watch the video so you can see where you have to play the notes, and study Solfeo to read better the bass clef. Then play the melody with the right hand. Because you are playing songs from this level, you should read the notes a little bit faster, with the right hand by it self. So playing the melody should be easy. Start playing two hands at the same time. Remember you have to read from bottom to top. Each day you have to learn so many measures, or a part of the song. Play only 2 or 3 measures or any part of the song for that day, think of it, as the complete song. Play it over and over and practice until you can play those few measures. If you get tire of practicing, take a break, and then come back to keep doing it. Once you can play those measures without mistakes at least 5 to 10 times. Then relax, and the next day do the same, with the next few measures.
