Jim Broadbent as Horace Slughorn , the newly appointed Potions master who held the position before. Development[ edit ] Before David Yates was officially chosen to direct the film, many directors had expressed an interest in taking the helm. When asked whether he would consider directing a later film, Gilliam said, "Warner Bros. So they were really delighted with the material that they were seeing while we were in post-production, and the conversations happened before the movie was released, because I had to start pre-production on it while Order of the Phoenix was being promoted. It was just something they see in the work that they really liked, and responded to. Also maintained were costume designer Jany Temime, visual effects supervisor Tim Burke, creature and make-up effects designer Nick Dudman, and special effects supervisor John Richardson from the third film. The Demon Barber of Fleet Street , previously noted that he had his "fingers crossed" he would be cast as a young Riddle. Thomas James Longley was the original choice to take on the role but Riddle was ultimately played by Hero Fiennes-Tiffin as a child and Frank Dillane as a teenager. McCrory was originally cast as Bellatrix in Order of the Phoenix, but had to drop out due to pregnancy. Craig noted that the film used several CGI sets, noticeably the interior of the Cave where Harry and Dumbledore both go to hunt Horcruxes. The exterior of the cave scene was filmed at the Cliffs of Moher in the west of Ireland, the only location to be filmed outside of the United Kingdom throughout the film series. The interior of the cave is made up of geometric crystal formations. Craig noted "Apart from the point at which Harry and Dumbledore first arrive and the island formation on which everything inside the cave happens, the set is entirely virtual, designed in the computer. Before filming began, there was belief that filming might move from the UK, where all previous films were shot. The crew also scouted around Cape Wrath in Scotland, for use in the cave scene. In an interview with the Academy, he said, "Some of the sets are there since the very first Potter. How could I light them in a different way? This question brought another one based on the series itselfâ€¦ I thought it would be interesting to have those very intimate stories amidst this very dark mood. As if the school was a dark character. Fortunately David Yates, and the producers liked the idea. I thought it could be interesting and more dramatic if the light was floating, circling above the characters faces: Tim Alexander said that completing the Inferi -attack scene took several months. Director David Yates was cautious of not making this into a zombie movie, so we were constantly trying to figure out how not to make these dead people coming up look like zombies. We ended up going with a very realistic style. He added, "We did a lot of research on molten volcanoes, which have a lot of heat going on but no actual flames, and collected a bunch of other references, including flares that burn underwater, and showed them to the Potter folks. Since the whole fire scene was very time consuming, computer graphics artist Chris Horvath spent eight months finding a faster way to conjure flames. Double Negative spent six months surveying and documenting the environment around the River Thames and Trafalgar Square to create the swooping views of the city. Double Negative also contributed the Pensieve sequences, developing complex directed fluid simulations to realise the swirling world of memory and the past. The soundtrack was released on an Audio CD format on 14 July , a day before the film was released in cinemas. The book begins with a scene involving the Muggle Prime Minister. Yates and his crew debated over this scene, as well as the character Rufus Scrimgeour , but gave up the beginning of the movie to events described but not seen in the book. *Harry Potter and the Half-Blood Prince Trailer As Harry begins his sixth year at Hogwarts, he discovers an old book marked as 'Property of the Half-Blood Prince', and begins to learn more about Lord Voldemort's dark past.*

On the way, they make a detour to the temporary home of Horace Slughorn, former Potions teacher at Hogwarts, and Harry unwittingly helps persuade Slughorn to return to teach. Harry and Dumbledore then proceed to the Burrow, where Hermione has already arrived. Narcissa expresses her extreme concern that her son might not survive a dangerous mission, given to him by Lord Voldemort. Bellatrix feels Snape will be of no help until he surprises her by making an Unbreakable Vow with Narcissa, swearing on his life that he will protect and assist Draco in his mission. Harry is instantly suspicious of Draco, whom he believes to be a Death Eater. Harry wears his invisibility cloak and hides in the same carriage that Malfoy is seated in. He overhears Draco bragging to his friends about the mission Lord Voldemort has tasked him. However, Malfoy is suspicious that someone else is in the carriage and discovers Harry Potter was listening to his conversation. He petrifies him and breaks his nose out of rage. Harry cannot get off the carriage, and is worried the Hogwarts Express will depart before he can move again. To his relief however, Nymphadora Tonks finds Harry and escorts him back to the castle during the opening feast. In the meantime, Horace Slughorn will resume his previous post as Potions teacher. Harry now excels in Potions, thanks to having received a used Potions textbook that once belonged to someone named "The Half-Blood Prince," a mysterious former student who wrote numerous tips and spells in his Potions textbook. Harry uses this information to achieve superb results. Amidst these lessons, Ron starts dating a girl named Lavender Brown, who is also a sixth year Gryffindor student, and Ron and Hermione start yet another quarrel. Dumbledore shows Harry a memory involving Slughorn conversing with the young Tom Riddle at Hogwarts, which has clearly been tampered with. This is proven vital in the defeat of Voldemort. Only by committing a murder can a wizard turn an object into a Horcrux; Voldemort has created six of them, making himself virtually immortal by placing a piece of his soul in each one, and keeping the seventh and last one within his body. Dumbledore explains that in order to destroy Voldemort, all the Horcruxes must first be destroyed. As Harry learns more about his great enemy, the love lives of the main characters start to become more active. Ron and Hermione grow closer together, but after learning from his sister Ginny, that Hermione had previously kissed Viktor Krum, Ron is angered and shuns her. Ron and Lavender break up when Lavender sees the two of them walking out of the boys dormitories together. Harry develops deep feelings for Ginny, but is reluctant to pursue her for most of the year because of his friendship with Ron. Dumbledore expertly finds a secret passageway to a large, pitch black underground lake, which Harry and Dumbledore cross in a small boat to an island in the centre. The locket is at the bottom of a basin on the island, and can only be reached by drinking the potion above it. Harry aids Dumbledore, who drinks the potion, causing him hallucinations and immense pain. They take the locket and return to Hogwarts, to find that the Dark Mark has been placed over the highest school tower in their absence. Harry and Dumbledore ascend to the tower where they are ambushed by Draco Malfoy, accompanied by Death Eaters that he helped get inside Hogwarts. Dumbledore freezes Harry under his Invisibility Cloak with a body-bind spell, to keep him hidden. Draco disarms Dumbledore of his wand and then threatens to kill him, which turns out to have been his mission from Voldemort all along. Draco is unable to go through with it and when Snape arrives, he casts the spell to kill Dumbledore instead. Snape successfully fights Harry off, and he reveals that he is in fact the Half-Blood Prince before he, Draco, and the rest of the Death Eaters escape. Harry finds out that the locket is not the real Horcrux, containing only a note from someone named "R." Ron and Hermione insist on joining him in destroying Lord Voldemort for good. Rowling stated that she had Harry Potter and the Half-Blood Prince "planned for years", but she spent an entire two months going over her plan before she began writing the story seriously. This was a lesson learned after she did not check the plan for Goblet of Fire and had to rewrite an entire third of the book. Ultimately you have to please yourself before you please anyone else! In May, bookmakers in the UK suspended bets on which main character would die in the book amid fears of insider knowledge. A number of high value bets were made on the death of Albus

Dumbledore , many coming from the town of Bungay where, it was believed, the books were being printed at the time. Betting was later reopened. The Canadian publisher, Raincoast Books , obtained an injunction from the Supreme Court of British Columbia that actually prohibited the purchasers from reading the books before the official release date or from discussing the contents. The injunction sparked a number of news articles alleging that the injunction had restricted fundamental rights. Canadian law professor Michael Geist posted commentary on his blog; [23] Richard Stallman called for a boycott, and requesting the publisher to issue an apology. I felt depressed by the time I was two-thirds of the way through". She suggested a connection to the 11 September attacks , as the later, darker novels were written after that event. She acknowledged that "the books are dark and scary in places" but "no darkness in Half-Blood Prince She considered love to be represented in several forms: On the other hand, she noted that it "gets a little exposition -heavy in spots" and older readers may have seen the ending coming.
