Chapter 1 : Snappy sounds moo! (edition) | Open Library

These smaller pop-up Snappy books are on par with the bigger versions, but are 1/3rd the price! I was shocked at how cute the animals inside are! There is a Rooster, a Pig, a Cow, a Goat, and a Horse.

Product Description Rhyming text and pop-up illustrations of various animals present common colors, including red, blue, green, and orange. Although, she has about 25 excellent age-appropriate books, this is her favorite! The pop-up paper is sturdy, and the illustrations are bright, clear and simple. A Customer on Mar 20, I bought this book for my son when he was 18 months old. He fell in love with the vibrant colors and pop-up creatures immediately! At 27 months he still asks for the "parrot" book regularly. Snappy great book A Customer on Aug 20, Our five-month-old cannot seem to get enough of the colorful, bright animals that jump out of the pages at you! It has super bright colors and awesome pop-up animals. Erika is a special needs child who has not yet spoken a word, but she knows a few signs. She is so motivated by this particular book that she signs "book" to request it. It has a great sing-song rhyming pattern that she loves and is easy for parents to read! Even our 4-year-old has memorized the story and "reads" it to her sister. We finally got to the point where we had to put it out of sight until reading times, because he was always at our ankles with this book. It is terrific, and we will now be buying the rest of the books in this series. By Sweetie on Nov 06, My year old son adores this book!! The illustrations and pop up figures are bright and attractive and the rhyming text are just as the title suggests "Snappy" and fun!! I love hearing his giggles as I read him this book over and over again!! Just be careful, as with all children no matter how thick the pages are they somehow manage to tear it up!! Vivid and delightful By on Dec 28, This is one of the most beautiful pop-up books I have seen, with large pop-ups, vivid colors, and delightful action animals. My one-year-old will run across the room to play with the flapping red parrot, the munching pig, or the hopping green frog. My 2 year old reads it over and over A Customer on Jun 20, My daughter "reads" this book all the time. The text is simple and very easy to understand. The colors are vivid. She loves the big pop-up pictures. The rest of the book was fine but I should have been given damage details before I decided to purchase. I changed my rating to 5 stars as the seller contacted me, refunded the charges as I was not happy and was insistent that the problem I had was not usual. Sometimes, rough edges sneak past quality control and I could not argue. I was impressed that the seller insisted on the refund and my experience was repaired to the point where I would not hesitate to do business with them again! Great book for toddlers By Southerngirl on Nov 27, I bought this for my 2 year old daughter, and she loves it. The illustrations are bright and colorful and each of the animals "jumps" off the page. If your child enjoys pop up books, this will be a favorite. Just got this one in - so fun! Great pop ups, love the colors and rhymes on each page. My 6 month old loves looking and trying to reach for the pop ups. It was listed as brand new, sold by amazon. The second page, a shark pop-up, was completely missing the upper jaw of the shark. It was obviously torn out! The order placed on Friday, July26, Extremely dissapointed in Amazon especially since I have been a long-standing customer with very frequent purchases. A Customer on Apr 13, Fantastic pop-up book for babies! I wish she would produce more books! My baby and other babies I know 9 months old get very excited about the book! A great baby gift idea! Our little grandson loves! It helped keep him occupied on a flight. I bought it used and it arrived in wonderful shape - no markings, no tearing. Price was wonderful and it came quickly. By Booksreviewgrou on Oct 04, My son absolutely loves this book. I started reading it to him at about 3 months and now he is 9 months old and gets giddy with excitement when he sees his "buddies" in the book. The parrot, the duck, the bear etc. But I want the whole new book. He can now turn the pages on his own and wants me to read it to him over and over. Get this book for your child.
