

Chapter 1 : Helen Corey's food from biblical lands (edition) | Open Library

With intriguing, food-related excerpts from the Old and New Testaments scattered between the recipes, Food from Biblical Lands is an engaging and delicious investigation into the relationship between history, spirituality, and food.

She not only cooks the favorite foods of Syria and Lebanon but gives tips and techniques on ingredients and methods of preparation. Her methods are fail-proof as she makes cooking these dishes easy in this 70 minute show which keeps you attentive to details. I never realized you could make the most delicious Yogurt starting out in your micro-wave oven. Likewise, flat bread on the grill with a tasty yogurt cheese. Anyone trying these foods from the video will get dazzling results. The Host is absolutely darling! By Rachel Dawn on Mar 08, The previous 2 reviewers have already given much valuable information on this video. I have a favorite Lebanese restaurant that I drive over miles to visit, and always wanted to know how to make that fabulous food, but everything looked so complicated. Helen Corey makes each of these recipes look quite simple. I felt much less intimidated by my cookbook recipes after being able to literally see her going through the steps of each recipe. It was like being in the kitchen with a friend and seeing each new recipe from start to finish. This is a wonderful video. In my opinion, it should be on the food network. She gives every detail to buying, preparation, tips and techniques that answer any questions you might have in preparing Middle Eastern foods. It goes hand in hand with my cookbooks. Helen knows how to keep the public aware of her culture. Her books and artistic cooking video are gems. There is no book hardcover as stated in the advertisement. I ordered this to just get the book hardcover as I have no VHS player but was willing to order this item since it appeared, at least to me, that a hardcover book was, also, included. Nooooooo hardcover was included or meant to be included. Just be aware that this is for the sale of a VHS only. Amazon gave me credit for this purchase since I had no use for it and the advertisement of the item was misleading. Add a Book Review Book Summary: This particular edition is in a Hardcover format.
