

Chapter 1 : Quote by Neil Gaiman: "I can believe things that are true and things that are"

*Comment: Great book, printing, * tiny closed tear at bottom edge to title page (repaired), minimal shelf wear to glossy new cover, pages are clean and binding tight, no writing.*

Judgment Day" as we chat over tea and scones made from scratch in her Los Angeles home. And who among the Sarah Connor-worshipping faithful can blame her? Within a few years she was hired to reboot "The Fugitive" for Warner Bros. Perhaps even more intriguing for the comic book hardcore: Her rise has made Hodson not only one of the most in-demand screenwriters in town but among the small but growing ranks of strong female voices working in a multibillion-dollar blockbuster business historically dominated by men. I was always obsessed with movies. I just loved Hollywood movies. In one year when I was 15 or 16, I wrote down every movie I watched and it was something like movies. I have two sisters, both older, and we would watch some movies again and again, like "The Lost Boys. When I was writing it I always imagined that. You put my brain in the movie! What were some of your favorite films growing up? I actually reference that movie all the time when people ask me, "What do you want to write? And it is so intimate. I want to make big movies that also feel really intimate and have a lot of heart and emotion. How did you find your way into the "Transformers" universe? I loved the toys, and as a kid I watched the cartoons. I was robot-obsessed as a kid and weirdly always thought I would one day build my own robot that would be alive and real Steven Spielberg said about the first "Transformers" that the thing he responded to was the simple concept of a boy and his car, which I totally loved. Why was Hailee Steinfeld the right choice to play a teenage gearhead still figuring out who she is? I think most kids are. Most of us are a weird mishmash of everything. What has it been like working closely with Margot Robbie on the "Birds of Prey" project? This, I can say: Robbie is an amazing producer. Diving into comics lore, what was it about Harley Quinn that spoke to you? She makes me laugh, but she also makes me cry How much can you share about working on "Batgirl"? People are capable of profound good but also profound evil. The things that people will do when you back them into a corner are amazing, terrifying, and wonderful at the same time, and it draws out these primal things in us-good and bad. And that, to me, is so fascinating. Is it a priority to center female leads in your stories? When I grew up and I was watching all of these Hollywood movies, all of the heroes were straight white men-always. I wanted to be the archaeologist digging up the big thing running away from the boulder. I wanted to have those big adventures, and I never got to see it. Certainly as a mixed-race kid, I never got to see it I hope it has an impact. I wanted a girl behind the steering wheel, literally.
