Some are self-help, many are i As the author and editor of numerous books, Douglas Pagels has been a popular and widely acclaimed writer for many years. Some are self-help, many are intended as gifts for friends, family, and loved ones, and others combine his own philosophy with life advice from well-known personalities and wonderful others. It gives the reader a feeling of simply listening in on a conversation that comes from the heart and touches other hearts in many different ways. The more one reads his words and shares in his insights, the easier it is to understand his enormously popular appeal. It comes from cherishing his forty-year relationship with his wife, from the devotion of being a father to two children, and from the many experiences he has had in his lifetime. While growing up, he lived in places as diverse as England and northern Montana before his family settled down for an extended stay in Colorado. Conversations around the dinner table were, at times, a four-generation affair, with ages ranging from eight to eighty-nine. But other aspects of his background added insights that went beyond family and into a broader view of people " and life " in general. In his younger days, beginning at the age of ten and continuing throughout college and beyond, Doug worked various jobs " fourteen in all. They included delivering newspapers and working in stores and an auto body shop, along with jobs as a janitor, a groundskeeper, a forklift operator, a delivery man, and a variety of restaurant positions. Time spent with his fellow workers, both on and off the job, helped to foster a deeper understanding of " and compassion for " a wide segment of society. If Doug has a keen insight into human nature, he credits it to his early and ongoing interaction with people from all walks of life, all types of jobs, and a variety of settings. From those relationships, he has developed an awareness of what makes people tick, how important their hopes and dreams are, how their entire universe can revolve around their loved ones, and, unfortunately, what a struggle their daily lives can sometimes be. His intuitive understanding of people cuts across social strata and leaves categories of age, economics, and nationality behind. In recent years, in addition to writing, editing, and raising a family, he has managed to find the time for plenty of other interests. Doug has spent a great deal of time as an advocate for local environmental issues, and in years past he could be found volunteering in classrooms, coaching basketball, and building a cabin in the Colorado mountains. He and his wife are frequent travelers, and his family has been the host family for many visiting college students from around the world. His words mirror those of our own innermost feelings and " in the end " it is our own special reflections that he helps us see.

Nov 1, 91 notes Anonymous asked: He knew he was, and he hated it. These days the walls were his friends and the only place he could find the sun clear and close was the enormous garden with strange sculpted plants. The maidens avoided talking to him at all cost, some of them thought he did not understand their tongue. The guards were living statues, covered in iron and seemingly distant. The King, who was surprisingly young and fearsomely attractive, carried beneath his skin a substantial greed for adventure. Despite his passionate statement of only spilling blood of the unworthy, Dick found his utter disgust when watching the man at war. He aimed to be an Emperor, in a ferocious way. Dick was surprised the King himself had agreed to capture and keep him alive. Many have said he usually kept for himself a trophy, a prize after each winning. Maybe Dick was his prize, a willful soul of the free lands. For such a bulky man, large in size and heavy weighted, his movement was scarily quiet when he intended to. Dick bit his lips, looking outside again. The kind light of the Gods should be embraced, not blocked away like a beautiful curse. Call me by my name, not anything else. Dick silently hoped he realized his discomfort of their loosening space of privacy through the tense of his shoulders. His callous skin was surprisingly gentle, as always. Dick swallowed, tried to keep his head up high and avoid the genuine smile from the Great King of War. Such brutal, barbaric and cold man, but he did tender things like this that wholly confused Dick. He wished the Gods could answer him how a man with such rustic nature could carry such warmth in his eyes when he looked at Dick. Jason suddenly huffed, and it did near surprise Dick. Under this light, your blush is obvious and pretty. The worst thing this fierce King of War had done to Dick so far was utterly embarrassing him with his very open display of affection. Dick had had enough. Tell me I should do. He hugged Dick in closer, head nuzzled right on the crook of his neck, breathing soft mild laugh of breath to his skin. For now, Dick just let all these disoriented thoughts be in his head, and ducked his head down for a kiss to land on his cheek.
