

Chapter 1 : If I were your boyfriend by haley hicks on Prezi

IF I WERE YOUR BOYFRIEND is the sequel to KEYSHA'S DRAMA written by Earl Sewell. While the book is a quick read, that reminds readers on what happened in the past, the storyline, while very interesting at points, feels a little too much for this particular teen novel.

At school or in grammar books you are normally taught the following rule: If I were you If I were you You imagine yourself in their position or situation and what you would do or how you would react. If I were you, I would study more. If I were you, I would stop doing that. If I were you, I would go to the doctor. Though in informal and grammatically incorrect English, you may hear some people say If I was You can also change the order of the sentence I would study more if I were you. I would be more careful if I were you. Notice how the comma is not necessary with this word order. This is a condition which is contrary to fact or reality the fact is, I am NOT you. If I were not in debt, I would quit my job. She would be still be correcting my grammar if she were still alive. In informal English, you will hear some people say If I was Yes, though the sentence is not in the Subjunctive mood but the Indicative instead. Note that it is not common to use the indicative mood with IF. If I was sick, she would give me medicine that tasted terrible. There is a song on the radio that goes Because we are talking about a hypothetical situation of me being your boyfriend. It is not real, it is just a situation I am imagining so we need to use the Subjunctive Mood here.
