Educational Value Can open the door to a lot of conversations, thanks to the myriad topics it covers, including suicide, abuse, and mental illness. Parents who do a quick flip through the book first will feel more prepared for the discussion. Positive Messages Multiple stories explore the depths of despair physical, sexual, and emotional abuse can cause. It may be hard to consider any of the protagonists role models, but they certainly are sympathetic, and readers will appreciate their brave struggles. Violence Each character has tried to commit suicide, and each has suffered abuse sexual, emotional, physical , and one character murdered his abuser. One protagonist dies violently. Sex Some kissing, and talk about sex and abortion. One of the protagonists mentions having had sex with a teacher. Language Lots of swearing and graphic talk. Consumerism Characters are on medication and one character in particular talks about past drug use. What parents need to know Parents need to know that each of the main characters has tried to commit suicide, and each has suffered abuse sexual, emotional, and physical. There is lots of gritty language and plotting: One character murdered his abuser as a child, another had sex with a teacher, and the third watched her mentally ill mother die. In the end, one of the protagonists dies a rather violent death. Stay up to date on new reviews. Get full reviews, ratings, and advice delivered weekly to your inbox.

Beschreibung bei Amazon About Ellen Hopkins: She is well known for her books entitled Crank, Burned, Impulse and several others. She is a favorite author for both young adult and the teenage readers. She is born on March 26, and her adoptive parents were already old, with her mom 42 years old and her dad at 72 years old. She conceded that it was definitely a challenge living with older parents along, of course, with lots of wonderful benefits. It was reported that by the year , Ellen Hopkins finally found her biological mother, Toni Chandler who was also a poet and a writer, just like herself. Of course, as a natural daughter of a writer and a poet, she believes that this talent and gift runs through her too. And she also believes that this talent was nurtured further by her adoptive parents. Thus, from her adoptive mom she learned to love language. Then from her adoptive father, Albert, she learned a lot of values especially the value of honesty and a strong work ethic which pretty much comes out in her writing. She has a younger brother named Albert Jr. For her, high school life was mediocre and most of her high school friends are actually also interested in creative pastimes like choir, creative writing, theater and dance which suited her perfectly fine. As for sports, she was not really interested in it and at best she was just mediocre. As for college, she took up Journalism at UCSB but was not able to finish it because she decided to get married. By that time, she started a business and already has three kids namely: Jason, Cristal, Kelly and an adopted son named, Orion. Orion was the inspiration and is actually the basis of the baby character in Crank. Unfortunately, the marriage did not work out. From there, she decided to have a fresh start by selling her business and pursuing her relentless dream of a career in writing. They moved to Tahoe, where Ellen started to do freelance writing for magazines and newspapers. As for her children, they are grownups now and are already living on their own in San Antonio, Las Vegas and Albuquerque. We try to have a get together at the very least a few times a year and almost always this falls on a holiday. Currently, Ellen is living with her husband, John Hopkins, and her adopted son Orion at the beautiful and scenic Washoe Valley in the state of Nevada. During her free time she loves to spend it with her family and engage in activities like gardening, camping, fishing, skiing, biking and hiking. She also loves taking care of her pet German Shepherds. Ellen gave Julia the first few pages of her writing, which would soon be published as Crank. Julia liked what she read and took the liberty of getting it published. By October , Crank hit the stands and by six weeks within the market, it soared up to the top ten lists. The follow up book of Crank, entitled Glass, also garnered huge acclaims from the reading public and has touched the lives of the readers across oceans and continents. Identical, Impulse and Burn are likewise amongst the top ten bestselling lists but are completely about diverse subjects. Excerpts and Reviews of Crank. Crank was the first novel that Ellen Hopkins wrote and was published in October of with the help of Julia Richardson, her editor. This way she learned a lot about her and the struggle that comes with the addiction. All in all, the book is a good read because it is a topic that is close to the heart of many young adults and parents alike. It helps them learn how the substance work and helps them adjust to the devastating emotions involved in the struggle and most of all it helps them realize that kicking the habit cannot be forced on the addict but the addict should want it as well. With the many questions that readers have addressed after reading the book, especially the recurrent question of what happened to Kristina, Ellen created the sequel Glass. Jack Reacher is back! Family secrets come back to haunt Reacher when he decides to visit the town his father was born in. Because when he visits there he finds out no-one with the last name of Reacher has ever lived there. It leaves him wondering - did his father ever live there? Chapter 3 : Impulse (Audiobook) by Ellen Hopkins | calendrierdelascience.com

Ellen Hopkins is the #1 New York Times bestselling author of fourteen young adult novels, as well as the adult novels Triangles, Collateral, and Love Lies Beneath. She lives with her family in Carson City, Nevada, where she founded Ventana Sierra, a nonprofit youth housing and resource initiative.

This book had some really good stuff going for it, which was ruined by some really horrible treatment of rape victims and lgbt people. I happen to find it easy to devour. Now, the characters themselves were not as much a strength as I usually find they are. Sure, people do sometimes not conquer anorexia. But her ending was 1 too open, and 2 her character ended up being kind of a pointless inclusion in this book. What impact does she have on this story? Why is her non-arc there at all? Her relationship with Dani is also pretty instalove and I never felt for them. The connection between his character and the others is not well built. Three of them make sense: Andre is very disconnected from the other three characters, which was a bit frustrating. Overall though, I could tolerate this because his arc was compelling and he got a great ending. He then rapes her. She, obviously, freaks out and breaks up with him. He then stalks her, going so far as to peek into a window to watch her have sex with her girlfriend and compare it to pornography. Yes, she cheated on him, which I do not condone, but that does not even come close to justifying these actions. He then takes photos of them having sex and spreads them around the school, outing her and also putting her in an incredibly horrible position. And Sean did not develop at all. At the end of the book, he is still going to Stanford and has suffered no consequences for being such a shitstain on the face of humanity. And to be quite honest, his narrative has nothing to do with trying to be perfect. This book also utilizes some minor problematic tropes. How does he not mind? How would anyone not mind that? More on these two books here and here. Again, this is never called out. I am so confused as to how Ellen Hopkins wrote such good bi representation in Tricks, and then proceeded to perpetrate biphobia in so many other series.
