He is a Michigan man, so, granted, my father being a Michigan man, always thought highly of his work. Miller is revered as far as American playwrights go, penning classics as *Death of a Salesman*, *The Price*, and *The Crucible*, and winning a Pulitzer for his work. Reading through Goodreads reviews regarding this play as both important and timely, I had my curiosity piqued and decided to read this vintage Miller play for myself. It is the time of the Vichy government in France. French soldiers collaborating with Nazis have begun to round up Jews and Gypsies and question them as to their true identity. The play takes place in a waiting room of a police station as a myriad of Jews, one Gypsy, and an Austrian noble await their fates. Each character has distinct views on what it means to be Jewish as well as the ability to love their fellow man. The news of the concentration camps has not yet spread to France, and most of the characters are living in a state of denial. When questioned by authorities, each character does not openly deny their Jewishness because they do not believe that a fellow human being would have the capacity to send them to slaughter in cattle cars. As a result, one by one, each character awaits their fate. The dialogue in this play is as powerful as in any Miller play, especially the exchanges at the end between the Austrian noble Prince Von Berg and Dr. Leduc as they are the last two personas to be questioned. The two men have a distinct view of love and hatred, the Austrian making excuses for the Nazi regime whereas the Jewish Dr. Leduc is appalled that educated people in other nations would view him as the scum of the earth. As Leduc deduces manners in which he could escape the fate befalling his fellow Jews, the script comes to an impassioned denouement. Not being one to show emotions while reading, I was moved as I read this short yet powerful script. I have been exposed to the Holocaust and its literature for my entire life, and it is easy to become desensitized after reading many testimonies and histories. With survivors dying out, each piece of Holocaust related literature is important as it is some of the few surviving memories. A true masterpiece, by an American master playwright, I am grateful that for once I took the advice of a Goodreads recommendation.
