Sometimes there was no hot water for a shower? Someone vomited on the bus? You had to walk for part of your trip and then paddle down a river? I like my comforts. There is no way I would have been able to cross those swing bridges you just described. My best mate Carmen was on the phone. She was not impressed. This type of holiday might not suit you. There are lots of perks to group travel. You can relax and enjoy carrying a small day pack knowing your main luggage is safe. Our guide also took care of all the tipping as we went along. Not having to worry about how much to give to whom and when to give it was a huge relief. Holidays in places so completely different to where and how you live can give you a renewed appreciation for your life. Above all, I trust the photos and commentary in this book will inspire you to visit Nepal. This book is not meant to give an all-inclusive guide to the places visited during this short 2 week holiday. Exposure to such ancient history combined with my modern-day western ignorance may well result in some misunderstandings and errors. Each volume has a large number of high quality original photographs. Volume 2 to be released June Volume 2 leaves Kathmandu and heads to the ancient city of Baktupar. We leave city life and head out into the countryside. We walked to a small rural village named Balthali. After a restful night we walked from Balthali to the sacred Buddhist pilgrimage site of Namo Buddha. We traveled into the Nuwakot district to visit the Famous Farm and hiked around the hills.

He was especially intrigued by Bali, where he earned a living by selling his paintings of the Indonesian island to tourists. Where did their beliefs originate? How did their art develop? It would use strong visual images to communicate directly the atmosphere of the destination and the everyday life of its inhabitants. And it would encourage readers to celebrate the essence of the place rather than fashion it to suit their preconceptions. With the financial backing of a local hotel, he published *Insight Guide: The book won a photography award and a gold medal from the American Society of Travel Agents. Hoefler meticulously produced other Insight Guides to Asian destinations, all illustrated with superb, full-colour photographs. The concept found its market in the s and by the early s Insight Guides to more than destinations all over the world were available in different languages. To meet the demand for the books and to maintain standards of production quality, Hoefler set up his own printing plant in Singapore, which had by then become his base. When Hoefler would meet people around the world, he was struck by the fact that even Insight Guide fans would still ask: Later, a full-size, fold-out map was added to give the books added practicality. Hoefler responded to public demand by adding a third series: These were portable, keenly priced mini-guides which could be carried easily and quickly consulted while on the road. The concept was adapted from a market-leading series in Germany. Realising that substantial resources would be needed to update, improve and expand, Hoefler sold his share in the company over a period of years to the Langenscheidt group, which embarked on an ambitious expansion program. Insight FlexiMaps, the first product in this new program, were an immediate success. This acclaimed series of guide books takes a thematic approach to travel in tune with the growth of special interest tourism, from birdwatching to scuba diving. This book has been fully overhauled by an expert Nepal author and is packed with stunning, specially-commissioned new photography that brings this breathtaking country and its people to life.
