Reference Librarians on the Information Highway Chapter 2: National and Trade Bibliographies Chapter 5: General and Collections Chapter 6: Subject and Newspaper Chapter 7: General and Subject Sets Chapter 8: Almanacs, Yearbooks, Handbooks, Directories Chapter 9: Biographical Sources Chapter Geographical Sources Chapter Reference Service and the Community Chapter 2: The Internet Chapter 4: Internet Reference Libraries Chapter 5: Networks and Information Costs Chapter 6: The Reference Interview Chapter 8: Rules of the Search Part IV: Instruction in Information Literacy Chapter Reference Service Policies and Evaluation. This eighth edition is virtually all new, reflecting the easy accessibility of electronic databases on the Internet. Its companion, Volume II, "Reference Services and Reference Processes", introduces the sophisticated and imaginative aspects of the complete reference process. It discusses the ongoing and important changes and developments in information technologies, particularly the role of the Internet in the reference process. It is a tool for understanding and mastering fundamental reference forms - online, in print, and elsewhere. This eighth edition is completely rewritten to reflect the radical changes library science has undergone since the advent of widely available electronic databases and the Internet. Nielsen Book Data "Reference Services and Reference Processes", Volume II of "Introduction to Reference Work", introduces the sophisticated and imaginative aspects of the complete reference process. Nielsen Book Data Subjects.

Chapter 2 : Introduction to Reference Work, Volume I by William A. Katz

This work is a tool for understanding and mastering fundamental reference forms - online, in print, and elsewhere. It reflects the changes library science has undergone since the advent of electronic databases and the Internet.

When printing this page, you must include the entire legal notice. This material may not be published, reproduced, broadcast, rewritten, or redistributed without permission. Use of this site constitutes acceptance of our terms and conditions of fair use. MLA Modern Language Association style is most commonly used to write papers and cite sources within the liberal arts and humanities. This resource, updated to reflect the MLA Handbook 8th ed. When you are gathering book sources, be sure to make note of the following bibliographic items: The 8th edition of the MLA handbook highlights principles over prescriptive practices. Essentially, a writer will need to take note of primary elements in every source, such as author, title, etc. Thus, by using this methodology, a writer will be able to source a specific item that may not be included in this list. Remember these changes from previous editions: Commas are used instead of periods between Publisher, Publication Date, and Pagination. Medium is no longer necessary. Containers are now a part of the MLA process. Periods should be used between Containers. Title of container self contained if book, Other contributors translators or editors, Version edition, Number vol. The basic form for a book citation is: Last Name, First Name. City of Publication, Publisher, Publication Date. Book with One Author Gleick, James. Making a New Science. Book with More Than One Author When a book has multiple authors, order the authors in the same way they are presented in the book. The first given name appears in last name, first name format; subsequent author names appear in first name last name format. Gillespie, Paula, and Neal Lerner. Allyn and Bacon, If there are three or more authors, list only the first author followed by the phrase et al. Wysocki, Anne Frances, et al. Theory and Applications for Expanding the Teaching of Composition. Utah State UP, Remember to ignore articles like A, An, and The. For each subsequent entry by the same author, use three hyphens and a period. Dickens and New Historicism. The Films of the Eighties: Southern Illinois UP, Book by a Corporate Author or Organization A corporate author may include a commission, a committee, a government agency, or a group that does not identify individual members on the title page. When the author and publisher are the same, skip the author, and list the title first. Then, list the corporate author only as the publisher. Book with No Author List by title of the book. Incorporate these entries alphabetically just as you would with works that include an author name. For example, the following entry might appear between entries of works written by Dean, Shaun and Forsythe, Jonathan. Remember that for an in-text parenthetical citation of a book with no author, you should provide the name of the work in the signal phrase and the page number in parentheses. You may also use a shortened version of the title of the book accompanied by the page number. A Translated Book If you want to emphasize the work rather than the translator, cite as you would any other book. A History of Insanity in the Age of Reason. If you want to focus on the translation, list the translator as the author. Note that this type of citation is less common and should only be used for papers or writing in which translation plays a central role. Republished Book Books may be republished due to popularity without becoming a new edition. New editions are typically revisions of the original work. For books that originally appeared at an earlier date and that have been republished at a later one, insert the original publication date before the publication information. For books that are new editions i. An Edition of a Book There are two types of editions in book publishing: A Subsequent Edition Cite the book as you normally would, but add the number of the edition after the title. Crowley, Sharon, and Debra Hawhee. Ancient Rhetorics for Contemporary Students. A Work Prepared by an Editor Cite the book as you normally would, but add the editor after the title with the label, "Edited by" Bronte, Charlotte. Anthology or Collection e. Collection of Essays To cite the entire anthology or collection, list by editor s followed by a comma and "editor" or, for multiple editors, "editors. If you are citing a particular piece within an anthology or collection more common, see A Work in an Anthology, Reference, or Collection below. Lawrence Erlbaum Associates, Critical and Theoretical Approaches. Johns Hopkins UP, A Work in an Anthology, Reference, or Collection Works may include an essay in an edited collection or anthology, or a chapter of a book. The basic form is for this sort of citation is as follows: Last name, First

name. If you cite more than one essay from the same edited collection, MLA indicates you may cross-reference within your works cited list in order to avoid writing out the publishing information for each separate essay. You should consider this option if you have several references from a single text. The Writing Program Administrator as Researcher. When cross-referencing items in the works cited list, alphabetical order should be maintained for the entire list. Poem or Short Story Examples: *The Collected Stories*, Penguin, , pp. Article in a Reference Book e. Encyclopedias, Dictionaries For entries in encyclopedias, dictionaries, and other reference works, cite the piece as you would any other work in a collection but do not include the publisher information. Also, if the reference book is organized alphabetically, as most are, do not list the volume or the page number of the article or item. When citing more than one volume of a multivolume work, cite the total number of volumes in the work. Also, be sure in your in-text citation to provide both the volume number and page number s. See *Citing Multivolume Works on the In-Text Citations* â€” The Basics page, which you can access by following the appropriate link at the bottom of this page. Butler, Loeb-Harvard UP, If the volume you are using has its own title, cite the book without referring to the other volumes as if it were an independent publication. *The Age of Revolution. An Introduction, Preface, Foreword, or Afterword* When citing an introduction, a preface, a foreword, or an afterword, write the name of the author s of the piece you are citing. Finish the citation with the details of publication and page range. *An Anatomy of Purpose*, by Kenneth Burke, , 3rd ed. Book Published Before Original copies of books published before are usually defined by their place of publication rather than the publisher. Unless you are using a newer edition, cite the city of publication where you would normally cite the publisher. Remember that your in-text parenthetical citation should include the name of the specific edition of the Bible, followed by an abbreviation of the book, the chapter and verse s. *The New Oxford Annotated Version*, 3rd ed. *The New Jerusalem Bible*. Edited by Susan Jones, Doubleday, A Government Publication Cite the author of the publication if the author is identified. Otherwise, start with the name of the national government, followed by the agency including any subdivisions or agencies that serves as the organizational author. For congressional documents, be sure to include the number of the Congress and the session when the hearing was held or resolution passed as well as the report number. US government documents are typically published by the Government Printing Office. *Hearing on the Geopolitics of Oil*. Government Printing Office, United States, Government Accountability Office. A Pamphlet Cite the title and publication information for the pamphlet just as you would a book without an author. Pamphlets and promotional materials commonly feature corporate authors commissions, committees, or other groups that does not provide individual group member names. If the pamphlet you are citing has no author, cite as directed below. If your pamphlet has an author or a corporate author, put the name of the author last name, first name format or corporate author in the place where the author name typically appears at the beginning of the entry. See also *Books by a Corporate Author or Organization* above.

Chapter 3 : The History of Sexuality - Wikipedia

Basic Information Services, Volume I of Introduction to Reference Work, explains the basic reference processes and sources of information in today's libraries. It is a tool for understanding and mastering basic reference forms, no matter how they're packaged.

The Will to Knowledge[edit] Part I: We "Other Victorians"[edit] In Part One, Foucault discusses the "repressive hypothesis", the widespread belief among late 20th-century westerners that sexuality, and the open discussion of sex, was socially repressed during the late 17th, 18th, 19th and early 20th centuries, a by-product of the rise of capitalism and bourgeois society, before the partial liberation of sexuality in modern times. Arguing that sexuality was never truly repressed, Foucault asks why modern westerners believe the hypothesis, noting that in portraying past sexuality as repressed, it provides a basis for the idea that in rejecting past moral systems, future sexuality can be free and uninhibited, a " We have not only witnessed a visible explosion of unorthodox sexualities; but â€” and this is the important point â€” a deployment quite different from the law, even if it is locally dependent on procedures of prohibition, has ensured, through a network of interconnecting mechanisms, the proliferation of specific pleasures and the multiplication of disparate sexualities. He argues that this desire to talk so enthusiastically about sex in the western world stems from the Counter-Reformation , when the Roman Catholic Church called for its followers to confess their sinful desires as well as their actions. As evidence for the obsession of talking about sex, he highlights the publication of the book *My Secret Life* , anonymously written in the late 19th century and detailing the sex life of a Victorian gentleman. Indeed, Foucault states that at the start of the 18th century, there was an emergence of " He notes that in that century, governments became increasingly aware that they were not merely having to manage "subjects" or "a people" but a " population ", and that as such they had to concern themselves with such issues as birth and death rates, marriage, and contraception, thereby increasing their interest and changing their discourse on sexuality. In the 18th and 19th centuries, he argues, society ceases discussing the sex lives of married couples, instead taking an increasing interest in sexualities that did not fit within this union; the "world of perversion" that includes the sexuality of children, the mentally ill, the criminal and the homosexual. He notes that this had three major effects on society. Firstly, there was increasing categorization of these "perverts"; where previously a man who engaged in same-sex activities would be labeled as an individual who succumbed to the sin of sodomy , now they would be categorised into a new "species," that of homosexual. Secondly, Foucault argues that the labeling of perverts conveyed a sense of "pleasure and power" on to both those studying sexuality and the perverts themselves. Thirdly, he argues that bourgeoisie society exhibited "blatant and fragmented perversion," readily engaging in perversity but regulating where it could take place.

Scientia Sexualis[edit] In part three, Foucault explores the development of the scientific study of sex, the attempt to unearth the "truth" of sex, a phenomenon which Foucault argues is peculiar to the West. Furthermore, he argues that this scientia sexualis has repeatedly been used for political purposes, being utilized in the name of "public hygiene" to support state racism. Returning to the influence of the Catholic confession, he looks at the relationship between the confessor and the authoritarian figure that he confesses to, arguing that as Roman Catholicism was eclipsed in much of Western and Northern Europe following the Reformation , the concept of confession survived and became more widespread, entering into the relationship between parent and child, patient and psychiatrist and student and educator. By the 19th century, he maintains, the "truth" of sexuality was being readily explored both through confession and scientific enquiry. Foucault proceeds to examine how the confession of sexuality then comes to be "constituted in scientific terms," arguing that scientists begin to trace the cause of all aspects of human psychology and society to sexual factors.

The Deployment of Sexuality[edit] In part four, Foucault explores the question as to why western society wishes to seek for the "truth" of sex. Foucault argues that we need to develop an "analytics" of power through which to understand sex. Highlighting that power controls sex by laying down rules for it to follow, he discusses how power demands obedience through domination, submission, and subjugation, and also how power masks its true intentions by disguising itself as beneficial. As an example, he highlights the manner in

which the feudal absolute monarchies of historical Europe, themselves a form of power, disguised their intentions by claiming that they were necessary to maintain law, order, and peace. As a leftover concept from the days of feudalism, Foucault argues that westerners still view power as emanating from law, but he rejects this, proclaiming that we must "Rather, power should be understood "as the multiplicity of force relations immanent in the sphere in which they operate. Foucault criticizes Wilhelm Reich, writing that while an important "historico-political" critique of sexual repression formed around Reich, "the very possibility of its success was tied to the fact that it always unfolded within the deployment of sexuality, and not outside or against it. Right of Death and Power over Life[edit] In part five, Foucault asserts that the motivations for power over life and death have changed. As in feudal times the "right to life" was more or less a "right to death" because sovereign powers were able to decide when a person died. This has changed to a "right to live," as sovereign states are more concerned about the power of how people live. Power becomes about how to foster life. For example, a state decides to execute someone as a safe guard to society not as justified, as it once was, as vengeful justice. This new emphasis on power over life is called Biopower and comes in two forms. First, Foucault says it is "centered on the body as a machine: The Use of Pleasure[edit] In this volume, Foucault discusses "the manner in which sexual activity was problematized by philosophers and doctors in classical Greek culture of the fourth century B. Other authors whose work is discussed include Galen, Plutarch, and Pseudo-Lucian. Foucault describes the *Oneirocritica* as a "point of reference" for his work, one that exemplifies a common way of thinking. The work was a further development of the account of the interaction of knowledge and power Foucault provided in *Discipline and Punish*. The latter volume deals considerably with the ancient technological development of the hypomnema which was used to establish a permanent relationship to oneself. In his lecture series from to Foucault extended his analysis of government to its "The planned fourth volume of *The History of Sexuality* was accordingly entitled *Confessions of the Flesh* *Les aveux de la chair*, addressing Christianity. It was edited and finally published in February Scientific and academic journals[edit] The sociologist Stephen O. Murray wrote in the *Archives of Sexual Behavior* that a passage of *The History of Sexuality* in which Foucault discussed how European medical discourse of the late 19th century had classified homosexuals had "clouded the minds" of many social historical theorists and researchers, who had produced a "voluminous discourse" that ignored how homosexuals had been classified before the late 19th century or non-European cultures. He credited Foucault with inspiring "genealogical" studies "informed by the heuristic idea that not only are patterns of sexual desire and behavior socially engineered Merquior considered the second two volumes of *The History of Sexuality* to be of higher scholarly quality than the first, and found Foucault to be "original and insightful" in his discussion of the Roman Emperor Marcus Aurelius and other Stoics in *The Care of the Self*. Butler further argued that this conflict is evident within *The History of Sexuality*, noting that Foucault refers there to "bucolic" and "innocent" sexual pleasures that exist prior to the imposition of "regulative strategies". Scruton concluded, of the work in general, that it creates an impression of a "normalized" Foucault:

Chapter 4 : How to Cite the Norton Anthology of English Literature 8th Edition | Pen and the Pad

out of 5 stars Introduction to Reference Work, Volume I By Kindle Customer on October 11, Just when you think you know all about reference resources, you are bound to learn something new in this book.

You need to cite not only the anthology itself, but also the specific text from which you are drawing the information. MLA Cite in-text using the author of the text you are using, not the editors of the anthology. The Wife of Bath claims to have had five husbands Chaucer Put the titles of shorter works in quotation marks and italicize the titles of longer works. If the work is anonymous, do not write a name. If there is a cited translator, write "Trans. The Norton Anthology of English Literature. Stephen Greenblatt et al. Type a period after the volume number or letter. Write the following publication information after the volume number: Write the page numbers of the text you are citing, followed by a period. Conclude by typing "Print. APA Cite in-text using the author of the text you are using, not the editors of the anthology. The Wife of Bath claims to have had five husbands Chaucer, , p. Write the title of the text, capitalizing only the first letter of the title and any proper nouns. If there is no author, write the title followed by The passionate shepherd to his love. Write the following publication information after the title or translator of the text, italicizing the words "The Norton Anthology of English Literature": Write the title of the volume, capitalizing only the first letter. The sixteenth century and early seventeenth century Write "8th ed. Put a period after the parentheses. The sixteenth century and early seventeenth century 8th ed. Write the following information after the page number: Cite this Article A tool to create a citation to reference this article Cite this Article.
