However, they claim that this day is as good as any other to celebrate the birth of Jesus, despite the fact that it was originally a pagan celebration called Saturnalia which commemorated the birth of the sun god. God had this to say about appropriating pagan methods of worship and trying to honor Him with them: I also will do likewise. We can do this by relating the conception and birth of Jesus Yeshua with the conception and birth of John the Baptist. His wife was of the daughters of Aaron, and her name was Elizabeth. Each of these divisions served at the Temple for an eight-day period 1 Chr. The service began and ended on the weekly Sabbath 2 Chr. In addition to their normal service, all 24 courses served at the Temple during the three holy seasons every year. The Jewish Mishnah indicates that each course served a week during the first half of the year, the three annual festival weeks, and a week during the last half of the year, for a total of five weeks during a normal year. A normal year on the Hebrew calendar consists of twelve lunar months of 29 or 30 days, for a total of 354 days. This is about 11 days less than a solar year. During a regular Jewish year which occurs 12 times in a year cycle, 51 weeks of coverage would be needed to ensure that the Temple was cared for every week throughout the year. Therefore, the course of Abijah, the 8th course, would serve its first regular week during the 9th or 10th week of the year depending on how the Feast of Weeks fell on the calendar. For reference, here is an annotated Jewish calendar for the period of time under consideration. For I am an old man, and my wife is well advanced in years. This would have been sometime in late Sivan or early Tamuz. Let it be to me according to your word. If John the Baptist was conceived in the two week period after Sivan 19, Jesus would have been conceived about six months later, at the end of the Hebrew month Kislev or the beginning of the month Tevet. Mary would probably have conceived Jesus sometime from Kislev 24 to Tevet 7. Kislev 25 is the beginning of the Feast of Chanukah, also known as the Festival of Lights. This eight-day feast continues to Tevet 2. John gives us an indication that Jesus was in fact conceived during this Festival of Lights Chanukah when he speaks of him at the beginning of his Gospel: Even to this very day, there is still an expectation by religious Jews of the coming of Elijah the prophet during the time of Passover Mal. In fact, a cup is set for Elijah at the annual Passover seder, and children symbolically check for him at the door during the service. As Gabriel prophesied and Jesus confirmed Matt. Signs in the heavens over Jerusalem on the 15th of Nisan in the Jewish year heralded the birth of John the Baptist. On that night, just after sunset, a spectacular lunar eclipse was visible from Jerusalem, as the following graphic shows: Since Jesus was conceived during Chanukah, six months after John the Baptist, he would also have been born six months after John: The 15th day of the 7th month begins the Feast of Tabernacles Lev. Jesus was born on the 1st day of the Feast of Tabernacles! In the year 5 BCE, this fell in the month of September. This explains why there was no room at the inn for Joseph and Mary. Bethlehem, which was only a few miles outside of Jerusalem, was also overflowing with visitors at this time because of the Feast. Just as it was six months earlier, signs in the heavens over Jerusalem on the first day of the Feast of Tabernacles 15 Tishri, proclaimed the birth of the prophesied Messiah. Another remarkable lunar eclipse of the full moon was visible in Israel on this night also, as shown below: YLT The Greek word translated "tabernacle" above is eskenosen.
