King of Bandits Save Jing: King of Bandits Japanese: Twilight Tales outside of Japan and ran until finishing in The story revolves around a teenage boy named Jing who despite his young age is known as the "King of Bandits". Along with his partner Kir, a talking albatross, he travels the world in search of new adventures and legendary treasure. Throughout the series the duo manage to pull off impossible heists and outwit countless enemies that stand in their way. King of Bandits features a motif in the form of references to alcohol. In , five of the original seven manga volumes were adapted into an anime television series that totaled 13 episodes. The two studios went on to produce a three part original video animation that adapted the fourth volume of the original manga in under the title Jing: Tokyopop licensed both the original manga and Twilight Tales for English-language releases in North America, while ADV Films handled the licensing of the anime series and the Seventh Heaven original video animation. Synopsis King of Bandits Jing is a series of short, usually disconnected stories starring the young boy who calls himself Jing, the Bandit King. The stories vary a great deal, especially between the initial manga series and the sequel series, Jing: In the initial series, stories often border on comical and cartoonish. Each arc includes a new treasure or object that Jing is seeking, a woman or girl who accompanies him somewhere along the way on his quest for this item, and an enemy that either wants to protect what it is he intends to steal, or get to it before he does. Settings also vary; Jing travels to a clockwork city, a desert with living lava, and even deliberately gets himself arrested to steal something from inside a maximum security prison , among other fantastic locales. He always escapes in the end of each arc, and always manages to steal his target, although not always in the way that the characters or the reader expects. Twilight Tales also ran seven volumes. Jing no longer manages to steal every treasure he sets out after in the arcs. In Twilight Tales, more often than not, Jing actually winds up fighting the sought object, or having to destroy it in some way. In both these childhood arcs, Jing is already calling himself the King of Bandits. There is no fixed ending for either series. A young black haired thief in a flowing orange trenchcoat , his exceptional skills and dedication are seemingly contradicted by his laid-back manner. He approaches life with a disarming, confident cheerfulness, selecting his targets seemingly on a whim. Because he is such a legendary figure, many people are surprised when they meet him in person, as he is rather small and unassuming at first glance. His skills as a thief, however, are without equal. Strangely, his single greatest treasure is a simple green necklace, which never truly has its purpose revealed. Nonetheless, he is always rejected curiously, the rejection is always due to his mannerisms and personality, and not the fact that he is a bird. Nonetheless, he is a steadfast friend and invaluable partner to Jing. In this fused form, Kir can also grant Jing some limited flight. Postino is a mail carrier who travels by motorcycle, and whose route seems to include the entire world. He appears, seemingly on cue, at some point in each episode just as Jing is in need of help. He drives up, delivers a clue or plot exposition, and then drives away, and is not seen again for the remainder of the story. Postino is both a parody of Deus ex machina plot devices, and an example of the surreal and sometimes illogical world which Jing inhabits. Postino appeared only once in the original manga, in the "Amarcord" story. He appears twice in the Twilight Tales series, once in volume one, and once in volume five. Media Manga Original series Volume 1 - Chapters: Jing enters the City of Thieves with the intent of stealing the Double Mermaid, but Mayor Cognac is dead set on standing in his path. He then travels to Blue Hawaii, and with the "help" of Rose, law-enforcer-in-training, investigates a ghost ship that has been plaguing the town. It is revealed to be the secret casino Morte Calon, and the proprietor, Grappa, is determined on trapping the King of Bandits with his own desireâ€”But his plan backfires. Lastly, Jing visits Adonis, the city of tyrannical time, with the intention of stealing the fabled clockwork grapes.
