Homer tells him about a drink recipe that he accidentally invented one night, called the "Flaming Homer". He explains that after Patty and Selma made the Simpson family watch slides from their latest vacation, he was unable to find a beer. He decided to mix together drops of liquor from near-empty bottles and accidentally included a bottle of Krusty Brand non-narcotic cough syrup. When Patty dropped cigarette ash in the drink and set it on fire, Homer discovered that fire greatly enhanced the taste of the drink. When the customer asks what the drink is called, Homer starts to respond, but Moe butts in and calls it a "Flaming Moe". Word of mouth spreads, and Moe sees his business boom because of the drink. To help out with the extra customers, he hires a waitress named Colette. Homer becomes angry with Moe and vows never to return to the tavern. A restaurant chain becomes interested in purchasing the recipe for the drink, of which they have managed to identify all but the secret ingredient cough syrup. Colette quickly discovers that Moe stole the recipe from Homer and not only makes him promise to sell the drink, but also apologize to Homer and give half of the money to him in compensation. Homer stops in, and he and Moe reconcile. Moe gives Homer a "Flaming Homer" free of charge. It was the height of the insanity of the cartoon era, for me the equivalent of when we did "Walk This Way" with Run-DMC. We always tried to get in on the ground floor of these things, and we were blown away that we were asked to do it. The voice did not work for our purposes. The parody was written by Jeff Martin, [8] and the sequence was designed by future Simpsons director Nancy Kruse. The writers changed the line to "free pickled eggs. One of the stipulations from the band was to include him in the episode. Kalodner also received a "special thanks to" credit at the end of the episode. According to Al Jean, the band recorded a special shortened version of the song just for the episode. Barney Gumble is given a Norm Peterson entrance. This refers to the Harvey Wallbanger cocktail. It was the highest rated show on Fox that week.

Apu tries to get Homer to buy the last lottery ticket by claiming that the last ticket is always lucky. However, Wiggum moves the cart and Homer has to race over to catch his son, while Lenny walks up to the counter and buys that last ticket. Apu decides to put it in his book, *Tales of the Kwik-E Mart*. The Simpson family cannot find Bart when it is time to leave, because he is upstairs in the attic with a water gun full of cat urine. When he is about to shoot it at Rod and Todd Flanders in a wagon below, Marge steps in and Bart accidentally sprays her with the urine, so Marge has to wear a mediocre "back up dress" to the party. Homer and Marge wonder why Bart cannot behave and decide he went bad in utero when pregnant Marge accidentally swallowed a small drop of champagne after Mayor Quimby christened a new Navy vessel, the U. The drop landed on a gestating Bart and turned him bad. Bart activates all the dangerous settings on them and they attack the party guests. Bart likes his new life as a rich child until he meets his stepsiblings, Devan and Quenly, who put a spoon heated by a lighter in his mouth because Simon is blocking their full inheritance of the family fortune. When Simon is sent to bed without supper after calling Homer a spew monkey for spitting food on him, Marge gives him pizza with no crusts and tucks him in, which Simon says he can get used to. The next day, the Woosterfields hold a party for all of their rich friends. When Devan and Quenly lock him in the Woosterfield mausoleum telling him that the bodies turn to candy, Mr. Burns gets him out. He tells Bart he was once the youngest in a wealthy family and his siblings all died in varied ways mostly related to eating poisoned baked potatoes and that Bart is in danger from his own family. Bart realizes that Devan and Quenly want to murder Simon so they can take his share of the inheritance. Before the Simpsons get to him, Quenly pushes Bart down a hill for experienced skiers. Homer manages to save Bart in time, and Simon is welcomed to his family again via a hot fudge sundae by his butler Chester. The episode ends with Bart being lovingly tucked into bed by Marge and contentedly saying "This is the life. Reception[ edit ] The episode had an approximate 8. He went on to say, "The story as a whole was interesting and the jokes were funny enough to elicit several audible guffaws" and rated the episode a 7.

During the nearly three-hour discussion, many topics.*

Synopsis Bart meets his doppelganger, Simon Woosterfield, a member of the richest family in Springfield and the two plan to switch places. Simon adjusts nicely to his new digs at the Simpson home, while Bart discovers that his new siblings are plotting his demise so they can gain possession of his inheritance. Full Story At the Kwik-E-Mart, Homer hurries to get the last lottery ticket, but is distracted by Bart dancing on the shelves, then attempting a cannonball onto the floor. A now gleeful Lenny invites a very sullen Homer to a rich, posh party at the expensive Woosterfield Hotel. While Homer tells Lenny he is grateful for his success, Bart is in the back, concocting a plan to destroy the party. He opens all the gift bags and releases the Vac-U-Bots, which run wild and cause mayhem, destroying everything. Bart learns that Simon dislikes his rich and pompous lifestyle; in order to satisfy each other, the boys plan to switch places, Simon going with the Simpsons, and Bart going with the Woosterfields. Meanwhile, Bart meets Devan and Quenley, his new half-brother and sister. The two of them smugly bully Simon Bart every chance they get. The next day, the Woosterfields host a magnificent party for the rich; upon meeting Mr. Burns and Smithers, Bart asks why Devan and Quenley always bully him more than they should. Bart realizes that the two may very well be plotting his demise, in order to inherit the entire Woosterfield fortune. Bart becomes irritated when he realizes about being set up by Simon. Lisa quickly realizes that Simon is not Bart, and tries to figure out what they are up to. Simon finally admits to the entire Simpson family that Bart is in real danger. Devan and Quinley take Bart on a ski trip, hoping to kill him at the ski lodge. While trying to rescue Bart, Homer falls down and turns into a giant snowball, rescuing him. Bart is still offended with Simon, but Simon tells him that he will return to his own family; when Bart asks what he will do to prevent the murderous attacks Devan and Quinley are planning to make, Simon tells Bart not to worry about it. In truth, the two are already planning to dispose of one another. Upon returning home, Marge tucks Bart into bed, tickles his foot making Bart giggle and kisses him goodnight. After mulling it over, Bart chooses that "this is the life" and falls asleep happily.

Jones was right, of course. Its teams are owned, disproportionately, by white men. They are run, disproportionately, by white men. The power structure neither represents the labor pool nor the fan base — the latter of which is, in most places, overwhelmingly white, if not entirely male. No, this is about a sport that gives someone like Joe Simpson a platform to say this. A sport that teems with players whose old tweets are filled with racist and bigoted thoughts and language. A sport that day after day, revelation after revelation, exposes itself as a place that subtly and not-so-subtly lets people of color know exactly what the ruling class of the game thinks of them. Simpson, who through the Braves declined to comment, was rebuked more for his ill-advised but ultimately harmless yelling at clouds about the Los Angeles Dodgers showing disrespect via their batting-practice attire. He apologized for that. Simpson offered no such thing after Nationals general manager Mike Rizzo rightly berated him about Soto, instead saying: And he is a full-grown man. And he is one heck of a player. You might as well just write his name in on the Rookie of the Year award right now. After all the years of fighting for player equality and protection of their rights, here we go again. Without any form of diligent review, a great young Dominican player is damned. The historic injustice continues. And who is doing it? An American former player. For decades, it has been despicable: Taking advantage of Latin players is part of the MLB business model. Part of that, too, is the culture of the game, which preaches silence, which discourages discord, which wants players to stay in line. A few, like Jones, speak out. The rest wonder privately: Why does the game not love me like I love it? View photos Barring an injury, Juan Soto will be only the 15th player in the last century to log plus plate appearances in a season as a teenager. Those are facts, according to a letter written by Ulises Cabrera, the co-founder of the Dominican Prospect League, which counts Soto among its graduates. Rather than promote an environment in which the sport looks more like those who play it, MLB codifies the behavior of its worst and in doing so puts its most vulnerable back in their uncomfortable places. Because Soto, it turns out, is a bright kid, smart enough to learn fluent English at 19 years old, hopeful enough to believe that his voice might matter. As great as Soto has been, Betts has been otherworldly, jumping to the forefront of the American League MVP conversation — and not simply because the Boston Red Sox are chasing history. A quick aside on the Red Sox before Betts gets his full recognition. At , they are a lock to win games. If they coast at . Play those final 42 games at a . Players who have finished a season with at least a . The last to do it was Albert Pujols and before that Barry Bonds. Any deal to lock up Betts now would cost well over twice as much, and perhaps three times that. Considering the salaries Bryce Harper and Manny Machado could get this winter, it could behoove Boston to be aggressive in trying to persuade Betts to forgo free agency. Carpenter has padded his National League home run lead with six in August, and since bottoming out at . Over the next 77 games, Carpenter hit. Or perhaps someone has a Carpenterian final six weeks and stuns everyone like — 4. Ramon Laureano did Eric Young Jr. Young has logged 10 seasons in the major leagues explicitly because he can run, and for him to get done as dirty as he did by Laureano — doubled up on a foot throw that heretofore deserves an exclamation point — only compounds the wonder of it. Yes, that it came after a great catch, too, made it that much better, but really the throw by itself was such a magnificent display of arm strength that it alone was plenty. Getty Images More The instinct is to compare it to other great throws, and upon examination, it belongs in the same breath as the modern greats: The distance, the accuracy, the calmness of first baseman Mark Canha as he barely moved a muscle to catch it: Baseball provides so many incredible moments. Few are as satisfying as a perfect throw. A return of — 5. The last time he played even 40 games in a season was . And yet there he was Sunday, playing third base and hitting third for the Class-A St. Wright went 0 for 3. He struck out twice. And it was a massive victory, because he was playing again. During a season in which the Mets are struggling to avoid the worst record in the NL, any positive sign regarding Wright is welcome. The Mets are the butt of jokes around the

game, something that must eat at chief operating officer Jeff Wilpon, whose antics to avoid bad PR are legendary among those who have worked in his vicinity. The year-old right-hander has been perhaps the most pleasant surprise for the first-place Phillies this season, which made the team optioning him to Triple-A when it activated newly acquired Justin Bour that much more curious. The thinking made sense. The Phillies can recall him as the 26th man to start Thursday in a doubleheader against the Mets. Then it can bring him back for good when he has spent the mandatory 10 days in the minor leagues and he will remain on rotation. Eflin gets his money. Which is what every team wants, even the Seattle Mariners as they make \$7 million. Felix Hernandez the most expensive relief pitcher in baseball history.

Share via Email This article is over 10 years old OJ Simpson reacts as he is found guilty on 12 charges, including kidnapping and armed robbery. OJ Simpson, the former American football star widely believed to have got away with murder, was found guilty in a court of law, meaning he could spend the rest of his life behind bars. On the exact anniversary of the day in which Simpson was cleared of killing his ex-wife and another man, he was found guilty of robbery and kidnapping in a bizarre Las Vegas crime. Dressed in a sharp, dark blue suit, he seemed to nod but remained calm. The same could not be said of his sister, Carmelita Durio. She broke down in tears and collapsed to the floor of the court. Paramedics treated her as Simpson was led away. It was a remarkable end to a strange trial that saw Simpson accused of robbing two sports memorabilia salesmen at gunpoint. That was not enough for the jury, who took 13 hours to reach their verdict, which was delivered in dramatic late-night scenes. We knew it was going in. The shadow of the verdict, which cleared Simpson of slaying to death Nicole Brown and her friend Ron Goldman, loomed over the trial. Indeed it has cast a dark pall over America for more than a decade. News programmes called it the Trial of the Century and it gave birth to a modern culture of celebrity crime, helped spawn the hour news cycle and, some say, turned justice into show business. It also deeply divided America on racial grounds. A mostly black jury cleared Simpson amid accusations of police racism. Yet at the time many Americans, especially whites, believed Simpson was clearly guilty. He then blacks out and comes to again only to find the two bloodied bodies. Not surprisingly, that left many Americans with a sense of justice denied. But perhaps not now. For those who believe Simpson has spent years walking free despite being guilty of a double killing, the sight of Simpson trudging off to a Nevada jail will have been a long-awaited prize. Justice may have been delayed, but it was not denied. The men had been told by a friend, Thomas Riccio, that he would bring a buyer to meet them. But instead Riccio brought Simpson and a gang of other men. At least one of them was armed with a gun. They burst into the room, angrily shouting a stream of obscenities. The two salesmen were pushed against a wall and Simpson and his gang gathered up their goods in pillowcases and then marched out of the casino. The two shaken men called the police and gave them the extraordinary news that they had just been robbed by OJ Simpson. Simpson was arrested a few days later. It seemed an open and shut case. Even in Las Vegas you cannot rob people at gunpoint and then expect to simply walk away. Yet things, as they always seem to have done around Simpson, took a strange twist. A recording of the robbery turned up on celebrity websites. It sounded like a scene from the violent gangster movie *Reservoir Dogs* as Simpson screamed abuse. It turned out that Riccio, who had encouraged Fromong and Beardsley into Room 318, had also bugged the room. It was also Riccio who then told Simpson about the men. He then sold the resulting audio tapes, on which Simpson can be clearly heard, for thousands of dollars to a celebrity website. But not the police. Nevada authorities, once they had Simpson in their sights, did not let go. Riccio was not charged with any crime. Then, one by one, the men whom Simpson had led to Room 318, began to turn against him. All testified against him and two of them linked him to making threats and, crucially, the use of a gun in the crime. Simpson had denied knowing anyone had brought a weapon to the room. Simpson to claim to people that he did not see any gun is flat-out nonsense. These defendants talked about guns. In the end, the jury agreed. They took a long time to reach their verdict but they did eventually reach it. The crime might have been shady and bizarre, but it was still a crime. The 41-year-old Simpson, who has spent his recent years golfing and partying in Florida, could now get a life sentence. That would see him die behind bars. Clearly angry, he told a throng of reporters that Simpson was the victim of a terrible miscarriage of justice. He had been set up. This is not justice! It is doubtful that many Americans will have much sympathy. That was similar to the cry of injustice that went out from many people in when Simpson walked free from accusations that he had brutally slaughtered Brown and Goldman. The crime itself was shocking. Covered live on television the route had become lined with gawkers and supporters. It had been the perfect nexus of a live news event, the public and the media. Many commentators believe that

car chase and the case that followed it gave dubious birth to a new celebrity-drenched age of media. Certainly it is not hard to see why it held such a fascination for America. Though largely unknown to the outside world, Simpson was a legend in America. His prowess on the field was legendary. Then he began a successful career in Hollywood, often playing a loveable good guy. Here was the great black athletic hero with the stunning blonde bombshell wife. If it had not been real life, it would have been the perfect Tinseltown movie script. Except that this story had a vicious twist. Their marriage was far from perfect. When things soured, Simpson emerged as a violent man with a dangerous temper. He was jealous of any hint that Brown might have a new boyfriend. Even if he had not led the cops on a merry chase in his Bronco, Simpson was already a suspect. Covered exhaustively in the media, the trial rapidly degenerated into a racially tinged showcase. In the end, to the shock of many white Americans, and the delight of many black Americans, Simpson was found not guilty. But he did not escape entirely. He emerged back into the world apparently believing he could restart his career as a celebrity. He brought a civil suit against Simpson for the deaths. That bankrupted him for life. Instead of a mega-star existence, he fled to Florida where he led a distinctly easy, but middle-class suburban existence, sustained by his pensions. Every attempt to come back into the public eye seemed horribly misguided. He tried to create a reality TV show that mocked elements of the murder trial. He wrote his bizarre pseudo-confessional book, then saw a wave of outrage cancel it. He seemed to live in a different world, where people still asked him for autographs and swarmed around him at night clubs. But it was because of the murders, not because of his football career or acting. Perhaps oblivious to the fact, perhaps not, Simpson became one of the most reviled men in America. For Goldman, the trial in Las Vegas provided some tiny relief for the loss of his son. So now the Simpson story could finally be over. Though he plans an appeal, it seems almost certain that Simpson will finally be heading for a lengthy stint in jail. Maybe it will be for the rest of his life. But he leaves an America that he changed completely. The original Simpson trial created a public obsession with criminal justice, especially as it related to celebrities. It led to a public clamour around all the other celebrity trials - such as those of Michael Jackson and Phil Spector and the post-mortem of Anna Nicole Smith - and seemed to create a generation of lawyers and judges who understood that a high-profile case could lead to a new career in entertainment. It also broke down the barriers between news and the public. They watched the car chase live on TV and followed the court case as it was broadcast direct from the courtroom. Then they could go and meet the suspect himself if they hung out in the sports bars of suburban Miami. But not any longer. Simpson is now in jail and for many Americans the strange incident in Room was irrelevant. They will see Simpson, at long last, serving time for murder. Simpson makes his name as a gridiron footballer. Millions watch as the police pursue OJ in a low-speed car chase. January The double murder trial begins, shown live on television. October Simpson is found not guilty after doubts about DNA evidence, police conduct and a blood-stained black leather glove.
