Chapter 1 : North America Worksheets

1. Label Greenland and color it green. 2. Label Canada and color it red. 3. Label the United States and color it purple. 4. Label Mexico and color it orange. 5. Label each of the five Great Lakes and color them blue. 6. Label the Atlantic Ocean, Pacific Ocean, and Gulf of Mexico. 7. Place a compass.

You may need to look at a map of North America. Place a check mark in the box once you have completed that step. The dotted lines represent the border between the U. All other lines show biome borders. Northern Canada and Alaska are tundra - color the tundra light blue 3. Most of Canada is coniferous forest, also called a boreal forest or a taiga. Color the coniferous forest dark green. The west coast of the U. California is temperate deciduous forest. The east coast, all the way to the center of the country is also temperate deciduous forest. Color both areas light green. The Midwest middle of the country is temperate grassland, also known as the prairie. Color the grassland yellow. Color those areas purple. There is a northwest coniferous forest located in the far corner of the U. Color the northwest coniferous forest brown. The great lakes and the lakes in Canada are freshwater. Find each freshwater lake and color it pink. The bodies of water surrounding the continent are ocean. Color the coastal areas dark blue. The western region of the U. Color the desert orange. The western edge of Mexico is temperate deciduous forest. Color it the same color as you did the other temperate forests. Color code the squares at the bottom to match your biome colors. Name the 3 main biomes of the United States land only. What two biomes are closest to where you live? Place an X on the map to show your approximate location. What state could you visit a desert? What are two other names for a coniferous forest? Point out Alaska by drawing an arrow to it. What biome is found in Alaska? What animals would you likely find in this area? If you traveled due north from your current location, what biomes would you pass through just going to the north pole? Name the biomes the person will pass through, in the correct order. The following graphic shows a simplified version of biomes found across the world. Use the same colors as you did on the U.
