Chapter 2 : Colin Powell - Wikipedia

Learning About Responsibility from the Life of Colin Powell A Character Building Book As the head of the Joint Chief of Staff, Colin Powell was responsible for many lives.

In the final analysis, the one quality that all successful people have is the ability to take on responsibility. You cannot change the circumstances, the seasons, or the wind, but you can change yourself. The process never ends until we die. And the choices we make are ultimately our own responsibility. No matter how much fault you find with another, and regardless of how much you blame him, it will not change you. I possess tremendous power to make life miserable or joyous. I can be a tool of torture or an instrument of inspiration, I can humiliate or humor, hurt or heal. In all situations, it is my response that decides whether a crisis is escalated or de-escalated, and a person is humanized or de-humanized. If we treat people as they are, we make them worse. If we treat people as they ought to be, we help them become what they are capable of becoming. Goethe "The essence of Vanderbilt is still learning, the essence of its outlook is still liberty, and liberty and learning will be and must be the touchstones of Vanderbilt University and of any free university in this country or the world. I say two touchstones, yet they are almost inseparable, inseparable if not indistinguishable, for liberty without learning is always in peril, and learning without liberty is always in vain. Kennedy, Remarks in Nashville at the 90th Anniversary Convocation of Vanderbilt University, May 18, "Freedom makes a huge requirement of every human being. With freedom comes responsibility. For the person who is unwilling to grow up, the person who does not want to carry his own weight, this is a frightening prospect. That is something you have charge of.. Yeats "Eventually we all have to accept full and total responsibility for our actions, everything we have done, and have not done. The truth is that you are responsible for what you think, because it is only at this level that you can exercise choice. What you do comes from what you think. That is why most men dread it.

His parents were both of mixed African and Scottish ancestry. This school has since closed. Military career Powell was a professional soldier for 35 years, holding a variety of command and staff positions and rising to the rank of General. And I not only liked it, but I was pretty good at it. Even after he had become a general, Powell kept on his desk a pen set he had won for a drill team competition. Upon graduation, he received a commission as an Army second lieutenant. While on patrol in a Viet Cong -held area, he was wounded by stepping on a punji stake. Powell returned to Vietnam as a major in , serving in the 23rd Infantry Division , then as assistant chief of staff of operations for the Americal Division. Gettys , from the burning wreckage. I got there after My Lai happened. So, in war, these sorts of horrible things happen every now and again, but they are still to be deplored. Powell said he regarded Emerson as one of the most caring officers he ever met. Powell always professed that what set Emerson apart was his great love of his soldiers and concern for their welfare. After he left Fort Carson, Powell became senior military assistant to Secretary of Defense Caspar Weinberger , whom he assisted during the invasion of Grenada and the airstrike on Libya. A component of this approach is the use of overwhelming force, which he applied to Operation Desert Storm in His approach has been dubbed the " Powell Doctrine ". Powell continued as chairman of the JCS into the Clinton presidency but as a dedicated " realist " he considered himself a bad fit for an administration largely made up of liberal internationalists. But even in the wake of public and Congressional pressure [31] [32] to do so, Clinton-Gore presidential transition team staffers decided against it.

Learning About Responsibility from the Life of Colin Powell Strazzabosco, Jeanne AR Quiz No. EN Teaches the value of responsibility by taking examples from the life of the African-American General Colin Powell.

For this reason, make heavy demands on your men in peacetime exercises. You have to make the mind run the body. Never let the body tell the mind what to do; the body is never tired if the mind is not tired. My men depended on me to carefully analyze every tactical situation, to maximize the resources that I had at my disposal, to think under pressure, and then to lead them by personal example. The decayed and degraded state of moral and patriotic feeling which thinks that nothing is worth war is much worse. The person who has nothing for which he is willing to fight, nothing which is more important than his own personal safety, is a miserable creature and has no chance of being free unless made and kept so by the exertions of better men than himself. My center is yielding. It is to use the means at hand to inflict the maximum amount of wound, death, and destruction on the enemy in the minimum amount of time. I wear my uniform for the heritage of sacrifice it represents and more. I wear my uniform with pride, for it represents the greatest nation of free people in the world. Freedom is what makes us fight, and courage is what keeps us from running away. Courage, like bravery, has been the first requirement of the Soldier since the most primitive days. Good commanders talk easily and thoughtfully on these matters. The idea that more godlike qualities are required of him and that he above others can achieve miracles through the working of his will is dismissed as idle superstition. It will primarily be determined by your character, your reputation, not much for courage which will be accepted as a matter of course but by the previous reputation you have established for fairness, for that high-minded patriotic purpose, that quality of unswerving determination to carry through any military task assigned to you. You must speak to the soul in order to electrify him. Courage can be judged apart from danger only if the social significance and meaning of courage is known to us; namely that a man of character in peace becomes a man of courage in war. He cannot be selfish in peace and yet be unselfish in war. Character, as Aristotle taught, is a habit, the daily choice of right and wrong; it is a moral quality which grows to maturity in peace and is not suddenly developed on the outbreak of war. For war, in spite of what we have heard to the contrary, has no power to transform, it merely exaggerates the good and evil that are in us, till it is plain for all to read; it cannot change; it exposes. The world is full of agreeable and talented folk. The key is to keep company only with people who uplift you, whose presence calls forth your best. But remember that our moral influence is a two-way street, and we should thus make sure by our own thoughts, words, and deeds to be a positive influence on those we deal with. The real test of personal excellence lies in the attention we give to the often neglected small details of our conduct. Make it your business to draw out the best in others by being an exemplar yourself. Banish from your thoughts all other considerations. This is possible if you perform each act as if it were your last, rejecting every frivolous distraction, every denial of the rule of reason, every pretentious gesture, vain show, and whining complaint against the decrees of fate. Do you see what little is required of a man to live a well-tempered and god-fearing life? Obey these precepts, and the gods will ask nothing more. Your days are numbered. Use them to throw open the windows of your soul to the sun. If you do not, the sun will soon set, and you with it. Be open to a changing world and let go of the plan when necessary so that you can make a new plan. Then as the world and the plan both go through their book of changes, you will always be ready to do the next right thing. The challenge becomes how long you stay on your priority. To be able to address your priorities outside of work, be clear about your most important work priority so you can get it done. Then go home and be clear about your priorities there so you can get back to work. Purpose has the power to shape our lives only in direct proportion to the power of the priority we connect it to. Purpose without priority is powerless. Those who are immovable, those who are moveable, and those who move them. I can better trust those who helped to relieve the gloom of my dark hours than those who are so ready to enjoy with me the sunshine of my prosperity.

No clear reason, no attempt at diplomacy, no exit strategy, etc. When I finished this book, I was torn between admiring him for refusing to smear a former employer and being completely flummoxed as to how someone so intelligent can be so inculcated in military culture that he put up with that nonsense as long as he did. Jun 09, Bob Schmitz rated it liked it Colin Powell was obviously an astounding fellow. Son of Caribbean immigrants who rises to the top of the military and political systems. He is described as a very bright, extremely self controlled charismatic leader. Reading about the workings of the White House in the 2 Iraq and 1 Afghanistan wars was interesting. This book should be titled "The Good Soldier. My admiration of Powell Colin Powell was obviously an astounding fellow. My admiration of Powell was tempered by the information in the book about 1. His participation in the coverup of the Mai Lai massacre He arrive as an officer in that sector of Vietnam a couple of months after the massacre. That something terrible had happened there was common knowledge but when asked about it early on by an army investigator he simply read the action report and criticized the whistle blower. His participation in the Iran Contra Deal 3. His following the party line in the presentation of the need to invade Iraq by Bush 2 and his lending his gravitas to the presentation before the UN with data he suspected. Nam was a lost cause while he vigorously pursued it. To people with great power comes great responsibility and if Colin refused to go along with being manipulated by the G. W Bush administration there might be a lot fewer dead American soldiers. But in the end he was a loyal company man. I saw him speak once at a conference and it is clear how much he loved his country. Through all of the nonsense in the Bush administration and I am a Republican but I do not like the way Cheney and Rumsfeld controlled Bush , Powell remained a good soldier. In a lot of ways, he was used by that far right administration. I am more of a moderate, like Powell. Bottom line is that he always did his duty. I wish he would have run for President. Maybe, just maybe, the part I really admire Colin Powell. Maybe, just maybe, the party would have gone back more to being the party of Abe Lincoln, another leader I admire. I believe this book was to vent and get his side of the story out. I think the Bush administration tenure and the request for his resignation left him with unfinished business. The way the story begin with the description of humble beginnings up to the position of Secretary of State in the Bush administration, says a lot about the character and moral values of a person. All of those characteristic were well represented in the book by the author. The genre is simple an autobiography. The many elements used to describe the many hardships the Mr Powell had to endure during his life are well portrayed in the book through some great imagery and vivid description of events. After reading this book my already highest respect for Mr. A truly hero of our time, a person deserving of all the merits and awards that the military could give someone. This book taught me a different angle to use in my own writing whenever I decide to write my own story. The language used was very adequate taking into consideration who the main character is and how he wanted to be represented. This is something I paid closed attention to since I do too have a military background,not as extense as Mr. Powell, at least not yet. I believe I can say that I will be using somethings I have learn from this work by Mrs. I did the audiobook version and it was interesting to hear more details of his early life and some of the happenings during his time as secretary of state. But I found the early parts of his life equally as interesting and I really enjoyed this book. But I found the early parts of his life equally as interesting and admire his demeanor on things. I think the title of the book is great because it seems to speak to what some thing is great about him and what may be his biggest flaw.

From Secretary of State Colin L. Today is another day of celebration, besides your graduation, and that is the anniversary of the landmark Supreme Court decision known forever as Brown v. Well, look how much has changed. Look what this law has done for us. We must remain committed, as the President has said, to leaving no child behind. In my profession, soldiering, character is perhaps the most important trait we seek and expect in our leaders, character which inspires trust in others, character which gives confidence to others to follow you into the darkest night, character which keeps you pointed towards true north no matter what winds or waves come to try to push you off course onto the shoals of doubt, dishonesty and despair, character which always presses you to do the right thing. Do the right thing. Always do the right thing. Do the right thing by setting your own internal standards of excellence, your own internal standards of behavior, and making sure that you meet them and exceed them. Do the right thing, even when you get no credit for it, even if you get hurt by doing the right thing. Do the right thing when no one is watching or will ever know about it. You will always know. Our nation is now going through a period of deep disappointment, a period of deep pain over some of our soldiers not doing the right thing at a place called Abu Ghraib. I spent a good part of my time in Jordan this past weekend dealing with this problem and the terrible impact it has had on our image in the world. I told the audiences that I spoke to over the weekend that all Americans deplored what happened there and there could be no excuse. But I also told them that one soldier had done the right thing. He knew something wrong was happening and he spoke out. He told his commanders, who immediately began an investigation. I also told them that in their disappointment about America right now. Watch how we deal with this. Watch how America will do the right thing. Watch what a nation of values and character, a nation that believes in justice, does to right this kind of wrong. Watch how a nation such as ours will not tolerate such actions. I told them that they will see a free press and an independent Congress at work. They will see a Defense Department led by Secretary Rumsfeld that will launch multiple investigations to get to the facts. Above all, they will see a President -- our President, President Bush -- determined to find out where responsibility and accountability lie. And justice will be done. The world will see that we are still a nation with a moral code that defines our national character. Above all, I told them, remember that in Iraq today there are tens of thousands of young American soldiers and diplomats who are putting their lives on the line daily for the freedom of the Iraqi people. They are fighting terrorists and regime remnants. They are building hospitals and schools. They are repairing water plants and oil facilities. They are helping to build democratic institutions where none ever existed previously. They are teaching a people about freedom and democracy. They are working to help Iraqis rebuild a country that was devastated by Saddam Hussein during a tyrannical reign of 30 years. And our troops will succeed because they are doing the right thing. Keep them in your thoughts and keep them in your prayers on this beautiful Monday morning here on the quad, and let them know this morning how proud you are of them, each and every one. God bless them, and keep them safe. We are doing the right thing in Iraq, let there be no doubt. It is dangerous work. We mourn every loss. We are making progress. Next month, we will return sovereignty to an Iraqi interim government. That interim government will have its work cut out for it as it prepares Iraq for elections through a national assembly at the end of the year, followed by a new constitution and then elections for new leaders within another year.
